It has been a long difficult haul but the city’s economic development has made a big leap forward with a Facebook data center on its way.

Facebook coming to Eagle Mountain marks significant progress in economic development for Utah but it means even more for our city. As is typical of a bedroom community, the tax burden has been born almost entirely by property owners. We are proud of the fact that we have been able to keep taxes low. However, with growing needs in services and infrastructure, the long-range forecast for tax rates was filled with uncertainty. The effort to bring industry to Eagle Mountain and broaden the tax base has been going on for years with several heartbreaking failures and only modest success.

I would like to share with you how we got to where we are and what this means for our future. Of course there were efforts that predate me and I do not wish to discount that important work but I will speak from my experience.

About four years ago I was actively involved in pursuing businesses but soon found that we were getting nowhere with them and that was not going to change until the city changed.

One of the first things that the City needed to do was sell our utility company. This was a bit of a gamble because we had to give up something we had in order to get something we wanted and there was no way of knowing at the time exactly how all of that would work out. Because of those uncertainties not everyone agreed that it was the best course to take. We can clearly see now that had we not sold our utilities we would not have a chance to get data centers here. Only with a partner like Rocky Mountain Power was this deal possible.

Another thing we had to do to break out of the stigma of being an out-of-the-way bedroom community and compete with other cities and states was to create our Technology and Industrial Overlay Zones. What this did is identify the types of businesses we wanted to go after and eliminated government red tape for those companies. Time is money for businesses so anytime you can shorten the approval process, eliminate uncertainties, and reduce financial risk you increase in value to those prospective companies. Not everyone agreed that this was the best course so there was political risk if it failed. However, with the Overlay Zones in place and the horsepower of Rocky Mountain Power behind us we became a jewel for state officials to show off when courting businesses to come to Utah.

When Facebook came knocking and we were in the running we knew we had to do more. We had continued on pg. 2...
been in this position before with other big companies but due to various reasons we had lost out to other states. Negotiating a deal with something as uncommon as a billion dollar data center can easily drift into arbitrary positioning. It is my opinion that good government should do everything possible to avoid taking an arbitrary position on anything because it is not a position of strength or consistency.

For this reason we commissioned an independent study to give us empirical data on exactly what the fiscal impact of a data center would be. This eliminated guess work, gave us a position of strength from which to negotiate, and the confidence that we were doing the right thing. It eliminated any concern over water consumption and showed that every taxing entity would receive at least a thousand percent return on their investment.

I can’t speak for Facebook but from conversations with their representatives and learning what they have done in other cities, I can tell you that they share our vision for Eagle Mountain. They want to protect the air, water, open space, and a healthy environment. They appreciate the things that make Eagle Mountain unique and desire to be good neighbors, are in it for the long term, and intend to be engaged in our community. I look forward to having them here and the good things that will come of it that go well beyond tax dollars.

My June recommended reading for teens and adults is “Atlas Shrugged” by Ayn Rand. This 1957 novel delves deeply into the struggles between business and government, while exploring the balance between individual rights, and societal obligations. It is a little long but makes a great travel companion if you are planning a road trip vacation this summer (available at our library in both hard copy and audio).

For younger readers, I recommend “Summer of the Monkeys” by Wilson Rawls. In the late 1800’s, a fourteen-year-old Ozark mountain boy spends the summer trying to recapture monkeys escaped from a traveling circus. Read what motivates him to do so and how it strengthens his relationship with his sister.
Sheriff’s Office Receives Special Recognitions

Cassie Patton, office specialist for the Utah County Sheriff’s Office - Eagle Mountain Division was named Employee of the Month for Utah County in May.

Patton, who has been with the sheriff’s office for six years, was nominated for the award by Eagle Mountain deputies. The deputies detailed many ways that Patton was deserving of the recognition, including the following from their nomination letter:

“[Cassie] is always professional when dealing with the public and goes beyond what is required of her to provide the service that is exemplary of a Utah County employee and the Sheriff’s Office...We have had to make contact with Cassie when she is not working and she has always been willing to assist with an issue or return a phone call...When we have asked Cassie for assistance with projects she is always willing to help and can usually have an answer to a problems quickly...Cassie was working during the tragic event where Sgt. Wride was murdered while working in Eagle Mountain. Cassie has been a strength to the deputies during this time and maintained many of the office requirements but was willing to go beyond and quietly performed other duties and responsibilities without being asked to do so.”

Chief Eric McDowell of the UCSO Eagle Mountain Division supported the nomination and agrees that Patton is very deserving of the honor.

“Cassie wears multiple hats, including managing social media and records requests and monitoring dispatch traffic,” McDowell said. “She is our go-to person in the office and provides outstanding customer service.”

Long-time Eagle Mountain resident Jake McClellan was also recognized by Utah County with a Volunteer Service Award. McClellan was nominated by the sheriff’s office for being an integral part of the Volunteers in Police Service (V.I.P.S.) team for several years.

An excerpt from the nomination letter reads, “Jake has literally donated hundreds of hours to the city of Eagle Mountain and the Sheriff’s Office during this past year. His service has been exhibited on a monthly basis through actions such as, assisting deputies with traffic control, conducting extra patrols of problematic areas, and assisting where needed at mass gathering events and festivals...This past Christmas...Jake and his family decided to collect donated stuffed animals. This was done with the intention of our deputies handing them out to children in need. The results were tremendous, yielding numerous bags full of stuffed animals.”

McClellan was one of five recipients county-wide for the Volunteer Service Award this year.

V.I.P.S. program participants must meet the following requirements:
1. Shall be at least 21 years of age.
2. Live, work, own property and have an interest in the Utah County Public Safety.
3. Complete a Jeep Patrol, application which will be the basis for a Police background investigation.
4. Pass a Police background check.
5. Complete a training course and field training program.
6. Recommended volunteer hours are 8 per month.
7. Abide by the by-laws of the Utah County Sheriff Jeep Patrol.

The State Legislature reduced the number of days fireworks can be legally discharged for 2018. Allowed dates are: July 2-5, July 22-25, and December 31.

Times for legal discharge of Class C common state approved explosives are as follows:

• Between the hours of 11 a.m. and 11 p.m. beginning on July 2nd and ending on July 5th; and beginning on July 22nd and ending on July 25th (Note: On July 4th and 24th time of discharge is extended to 12:00 midnight.)

• Beginning at 11 a.m. on December 31 and ending at 1 a.m. on the following day

A person guilty of an infraction can be punished by a fine up to $1,000, if a person discharges a class C common state approved explosive outside the legal discharge dates and times and/or in prohibited areas.

Please use extreme caution when using fireworks during the season. If high winds, precipitation, or other adverse weather conditions prevail fireworks discharge should be postponed or discontinued until weather conditions improve. Utah legal aerial fireworks are designed to travel up to 150 feet into the air and then explode. Aerial fireworks shall be placed on a hard level surface outdoors, in a clear and open area prior to ignition. Anyone under the age of 16 shall not handle or operate aerial fireworks. Ignition of aerial fireworks shall be a minimum of 30 feet from any structure or vertical obstruction.

Interactive Fireworks Restrictions Map (please note there are several restricted areas within Eagle Mountain City)
Little Free Libraries in EM
Submitted by EM Resident Geysa Peeler

Cedar Valley welcomes a new Little Free Library, the fourth free library in the area. These free libraries are in essence neighborhood book exchanges, set up for its convenience and free access to literature. Their slogan is “Take a book, Return a book.”

Stewards also believe this initiative will get people outdoors and provide an opportunity for new friendships, and stronger community ties. These libraries are a great family resource all year round, but specially in the summer, when the children are out of school. Some of the libraries are providing fun summer reading programs as well.

For more information, visit www.littlefreelibrary.org

Cedar Valley Locations:
7767 N Sycamore Dr, Eagle Mountain, UT
7964 N Tinamous Rd, Eagle Mountain, UT
7099 N Cherokee St, Eagle Mountain, UT
3838 E Barton Creek Dr, Eagle Mountain, UT

Meals on Wheels Serves EM Seniors

Each year, Mountainland Aging & Family Services asks elected officials and community leaders to donate their lunch break to deliver meals to homebound seniors in their respective communities. Mayor Westmoreland was one of 16 mayors in Utah County who answered the call to serve in an event we call May for Meals.

Meals on Wheels helps seniors maintain their independence by providing hot, nutritious lunches. The program serves more than 450 seniors daily in Utah County, and provided more than 113,000 meals last year. The program enlists an army of 300 volunteers to accomplish these efforts.

For more information, visit www.mountainland.org/meals or call 801-229-3802.
According to the National Safety Council, 42 children died in 2017 from heatstroke after being left in hot cars. Caution dictates that we should never leave a child or pet alone in the car for any reason. Car temperatures rise much more rapidly than we realize. In 10 minutes, a vehicle’s interior temperature can rise by 20 degrees and continues to rise with time.

Eagle Mountain City would like to thank the Seniors Council for their volunteer service in planting flowers at the entrance of Pony Express Memorial Cemetery ahead of the Memorial Day weekend.

We appreciate all the time the seniors give to our community.
The Utah Department of Transportation (UDOT) is scheduled to begin a paving project on Cory Wride Memorial Highway (State Route 73) the week of June 25 and continue through August. The project area will extend from 200 South in Cedar Fort (MP 25) to Foothill Boulevard in Saratoga Springs (MP 35). This 10-mile project will extend the life of the roadway and provide a smoother ride for drivers. The project helps to further UDOT’s mission to proactively preserve state roads.

Work will occur Monday through Saturday from 7 a.m. to 7 p.m., with the possibility of work on Sunday. All lanes will be open during peak travel times. In some areas, one-way flagging operations may occur with one lane, one direction.

Motorists should expect minor construction-related travel delays. The construction schedule is subject to change based on weather conditions and equipment availability. Drivers are urged to use caution and to follow posted signs when traveling through the construction zone. For updates on the project please visit the project website at udot.utah.gov/go/sr73renewed or contact the project team at 801-707-3662 or sr73@utah.gov.
Weather Stations Installed in EM and Free Water Checks Available for Residents

Eagle Mountain City is now home to two highly advanced weather stations paid for and maintained by Utah State University. These two stations, located near the Rodeo Grounds and Nolen Park will collect very precise weather data for our area that we can use in coordination with the USU WaterMAPS and WaterChecks programs.

The WaterMAPS program uses advanced mapping and data collection methods to identify where in the City we are using too much water based on landscape and vegetation types. The USU WaterChecks program is a free service that can help you determine the best watering schedule for your own property. This service helps you reduce your water bill and ensures there is plenty of water to go around.

Water Check Program - Schedule a Water Check

Water Conservation Tips

• Would you like to contribute to Eagle Mountain City’s water conservation efforts?
• Do you have an in-ground sprinkler system?
• Would you like help scheduling your sprinklers and identifying ways to be more efficient?

Schedule your FREE Water Check today!
Web: slowtheflow.org/are-you-waterwise/#schedule
Call: (801) 683-5105 (Jennie Hoover)

Eagle Mountain City is partnering with the Center for Water Efficient Landscaping (CWE) at Utah State University (USU) to conduct research investigating strategies to promote water conservation. Eagle Mountain City is striving to take a leadership role in expanding what is possible in community-driven water conservation. The results of this research will help the city determine how water can be managed to best meet its future needs.

In 2017, Water Checks were conducted on city properties. This summer, USU researchers are offering free Water Checks to city residents with in-ground sprinkler systems. The Water Check includes a detailed evaluation of your sprinkler system and may take up to two hours of your time. We are scheduling now for appointments beginning June 4.

USU’s Institutional Review Board has approved this research under protocol number 8722. If you have any questions or concerns regarding this research project or the recruitment process, please email or call: Diana Wuenschell (research manager) at diana.glenn@usu.edu or 435-797-9084 or you may email one of the USU faculty investigators: Dr. Kelly Kopp (kelly.kopp@usu.edu) Dr. Joanna Endter-Wada (joanna.endter-wada@usu.edu)
Please put “Water Check Research” in the subject line of your email. Thank you!
OFFICIAL NOTICE

The June 26 Primary Election will be conducted by mail.

If you have changes to your voter registration or address, update it at www.vote.utah.gov or visit the Utah County Election office located at 100 E Center St. Suite 3100 Provo, UT 84606

You may return your ballot in the following ways;

- By mail; mail your ballot postmarked no later than the day before the election.
- Drop off; any service center (see below).
- Voters may go to any service center in the county.

Eagle Mountain City will hold a grand opening event for the new phase of Cory B. Wride Memorial Park (Pony Express Pkwy south of Mid Valley Rd.) on Saturday, June 30 from Noon to 3 p.m. This phase features a large splash pad, ziplines, swings, numerous playground apparatus, pickleball, basketball, and tennis courts, large pavilion and festival field.

Following is an outline of the event. Details subject to change.

12:00 p.m. - Welcome/Recognition: Mayor Westmoreland
12:15 p.m. - Opening of splash pad and play spaces, followed by patriotic music by the Eagle Mountain Symphony Orchestra
12:30 p.m. - Free lunch service begins (hot dogs, chips, water) and souvenir giveaways (while supplies last)
12:45 p.m. - 3:00 p.m. Music by DJ Specialist

Kona Ice and The Soda Truck will be on site for those who want to purchase cool treats. The Utah County Sheriff’s Office - EM Division and Unified Fire Authority will have vehicles for the kids to check out in the east parking lot. K9 officers may be available for demos.

A limited amount of free sports equipment for pickleball, tennis, and basketball will be available for check-out/return during the event time frame. Attendees may want to bring chairs/blankets/umbrellas for additional seating and towels if using the splash pad.
