July 12, 2010

Dear Business Owner,

Each year, the State of Utah requires that every municipality file a Water Conservation Report stating the municipality's plan to conserve water within its boundaries. On July 6, 2010, the city council voted on a resolution to encourage businesses and institutions to reduce water usage and conserve water where possible. This resolution established a tiered water rate for Commercial & Institutional customers according to lot size, taking into account that certain subdivisions require larger lots. The details of each tier are as follows:

| | | <u>Commercial</u> | <u>Institutional</u> |
|--------|------------------|-------------------|----------------------|
| | <u>Base Rate</u> | \$20.00 | \$20.00 |
| Tier 1 | Low | 0 | 0 |
| | High | 170 | 500 |
| | Cost | \$0.80 | \$0.80 |
| Tier 2 | Low | 170 | 500 |
| | High | 220 | 750 |
| | Cost | \$0.85 | \$0.85 |
| Tier 3 | Low | 220 | 750 |
| | High | - | - |
| | Cost | \$0.90 | \$0.90 |

You must fill out a Tiered Water Rate Service Application in order to take advantage of the Commercial & Institutional lot tier. **For any business that does not submit this application, the regular lot usage rates will apply.** The Tiered Water Rate Service Application is available on the city's website (www.eaglemountaincity.com) or in the utility office. Once completed, the application may be turned in either to the utility office or to one of Eagle Mountain City's utility drop boxes.

We appreciate everyone's water conservation efforts and look forward to working with our local businesses and institutions on ways we can all curb the flow of water usage within the city. Doing this will enable future generations of Eagle Mountain residents to have sufficient water for their needs.

If you have any questions regarding the tiered water rates, you may call the utility office at 801-789-6609.

Sincerely,

Eagle Mountain City
