

LANDSCAPE METERS

To get a landscape meter, you will need to contact Bob Ballif at rballif@emcity.org and provide him a map with the location of where the meter will be. He will give the location an address. You will then need to fill out a permit application including the address and also note what size of water meter will be needed. The fees will depend on the size of meter.

Here is a breakdown of what the water meter fees are.

¾"	\$450.00
1"	\$640.00
1 ½"	\$1260.00
2"	\$1920.00
3"	\$3600.00
4"	\$5120.00

There will also be additional fees which include the connection fees which are \$100.00, and inspection fees which are \$50.00.

The permit application can then be submitted to the building department either by email to buildinginspection@emcity.org, or brought into the Community Development Building located at 2565 E Pony Express Pkwy. You will need to provide the application including all meter information, and the map. Our offices will let you what the fees will be and you can come in and pay for it anytime during normal business hours Monday-Friday 7:30am-5:30pm You will need to schedule an electrical/landscape inspection and request a water meter from the water department on our website.
