

My name is Kaden Shumway.

I grew up in Orem when it was experiencing a lot of the growth that we are seeing in Eagle Mountain today.

After graduating from high school I served a mission in Sydney Australia, and spent time doing humanitarian work in 3rd world countries.

These experiences taught me about empathy and hard work.

Since coming back to Utah I've been able to start a family with my wife and we are expecting our second child this year.

I care deeply about accountable government and volunteer for community watch dogs to ensure government transparency.

Keeping major developments secret from the community does not instill confidence in the people. I promise I will do all that I can to keep you informed on the leading issues in Eagle Mountain.

Not only do the citizens need to know about upcoming issues, but voters should know how their representatives are voting. My commitment to you is to report the key votes of the council so that you can keep us accountable.
