**Section 2.9 Book-Entry System; Limited Obligation of Issuer.**

(a) Except as provided in Sections 2.9(b) and 2.9(c), the Registered Owner of all Series 2011 Bonds shall be, and the Series 2011 Bonds shall be

registered in the name of Cede & Co. ("Cede"), as nominee of The Depository Trust Company, New York, New York (together with any substitute securities depository appointed pursuant to Section 2.9(c)(ii), "DTC"). Payment of the interest on any Series 2011 Bond shall be made in accordance with the provisions of this Second Supplemental Indenture to the account of Cede on the Interest Payment Dates for the Bonds at the address indicated for Cede in the registration books of the Registrar.

(b) The Series 2011 Bonds shall be initially issued in the form of a separate single fully registered Bond in the amount of each separate stated maturity of the Series 2011 Bonds. Upon initial issuance, the ownership of each such Series 2011 Bond shall be registered in the registration books of the Issuer kept by the Registrar, in the name of Cede, as nominee of DTC. With respect to Series 2011 Bonds so registered in the name of Cede, the Issuer, the Registrar and any Paying Agent shall have no responsibility or obligation to any DTC participant or to any beneficial owner of any of such Series 2011 Bonds. Without limiting the immediately preceding sentence, the Issuer, the Registrar and any Paying Agent shall have no responsibility or obligation with respect to (i) the accuracy of the records of DTC, Cede or any DTC participant with respect to any beneficial ownership interest in the Series 2011 Bonds, (ii) the delivery to any DTC participant, beneficial owner or other person, other than DTC, of any notice with respect to the Series 2011 Bonds, including any notice of redemption, or (iii) the payment to any DTC participant, beneficial owner or other person, other than DTC, of any amount with respect to the principal or redemption price of, or interest on, any of the Series 2011 Bonds. The Issuer, the Registrar and any Paying Agent may treat DTC as, and deem DTC to be, the absolute owner of each Bond for all purposes whatsoever, including (but not limited to) (1) payment of the principal or redemption price of, and interest on, each such Bond, (2) giving notices of redemption and other matters with respect to such Bonds and (3) registering transfers with respect to such Bonds. So long as the Series 2011 Bonds are registered in the name of Cede & Co., the Paying Agent shall pay the principal or redemption price of, and interest on, all Series 2011 Bonds only to or upon the order of DTC, and all such payments shall be valid and effective to satisfy fully and discharge the Issuer's obligations with respect to such principal or redemption price, and interest, to the extent of the sum or sums so paid. Except as provided in Section 2.9(c), no person other than DTC shall receive a Bond evidencing the obligation of the Issuer to make payments of the principal or redemption price of, and interest on, any such Bond pursuant to this Second Supplemental Indenture. Upon delivery by DTC to the Registrar of written notice to the effect that DTC has determined to substitute a new nominee in place of Cede, and subject to the transfer provisions of the Indenture, the word "Cede" in this Second Supplemental Indenture shall refer to such new nominee of DTC.

Except as provided in Section 2.9(c)(iii), and notwithstanding any other provisions of this Second Supplemental Indenture, the Series 2011 Bonds may be transferred, in whole but not in part, only to a nominee of DTC, or by a nominee

of DTC to DTC or a nominee of DTC, or by DTC or a nominee of DTC to any successor securities depository or any nominee thereof.

(c) (i) DTC may determine to discontinue providing its services with respect to the Series 2011 Bonds at any time by giving written notice to the Issuer, the Registrar, and the Paying Agent, which notice shall certify that DTC has discharged its responsibilities with respect to the Series 2011 Bonds under applicable law.

(ii) The Issuer, in its sole discretion and without the consent of any other person, may, by notice to the Registrar, terminate the services of DTC with respect to the Series 2011 Bonds if the Issuer determines that the continuation of the system of book-entry-only transfers through DTC is not in the best interests of the beneficial owners of the Series 2011 Bonds or the Issuer; and the Issuer shall, by notice to the Registrar, terminate the services of DTC with respect to the Series 2011 Bonds upon receipt by the Issuer, the Registrar, and the Paying Agent of written notice from DTC to the effect that DTC has received written notice from DTC participants having interests, as shown in the records of DTC, in an aggregate principal amount of not less than fifty percent (50%) of the aggregate principal amount of the then outstanding Series 2011 Bonds to the effect that: (1) DTC is unable to discharge its responsibilities with respect to the Series 2011 Bonds; or (2) a continuation of the requirement that all of the outstanding Series 2011 Bonds be registered in the registration books kept by the Registrar in the name of Cede, as nominee of DTC, is not in the best interests of the beneficial owners of the Series 2011 Bonds.

(iii) Upon the termination of the services of DTC with respect to the Series 2011 Bonds pursuant to Section 2.9(c)(ii)(2) hereof, or upon the discontinuance or termination of the services of DTC with respect to the Bonds pursuant to Section 2.9(c) or Section 2.9(c)(ii)(1) hereof the Issuer may within 90 days thereafter appoint a substitute securities depository which, in the opinion of the Issuer, is willing and able to undertake the functions of DTC hereunder upon reasonable and customary terms. If no such successor can be found within such period, the Series 2011 Bonds shall no longer be restricted to being registered in the registration books kept by the Registrar in the name of Cede, as nominee of DTC. In such event, the Issuer shall execute and the Registrar shall authenticate Series 2011 Bond certificates as requested by DTC of like principal amount, maturity and Series, in authorized denominations to the identifiable beneficial owners in replacement of such beneficial owners' beneficial interest in the Series 2011 Bonds.

(iv) Notwithstanding any other provision of this Second Supplemental Indenture to the contrary, so long as any Series 2011 Bond is registered in the name of Cede, as nominee of DTC, all payments with

respect to the principal or redemption price of, and interest on, such Series 2011 Bond and all notices with respect to such Series 2011 Bond shall be made and given, respectively, to DTC.

(v) In connection with any notice or other communication to be provided to Holders of Bonds registered in the name of Cede pursuant to this Second Supplemental Indenture by the Issuer or the Registrar with respect to any consent or other action to be taken by such Holders, the Issuer shall establish a record date for such consent or other action by such Holders and give DTC notice of such record date not less than fifteen (15) days in advance of such record date to the extent possible.

Section 2.10 Perfection of Security Interest.

(a) The Indenture creates a valid and binding pledge and assignment of security interest in all of the Net Revenues pledged under the Indenture in favor of the Trustee as security for payment of the Series 2011 Bonds, enforceable by the Trustee in accordance with the terms thereof.

(b) The Issuer represents and warrants that it has not heretofore made a pledge of, granted a lien on or security interest in, or made an assignment or sale of the Net Revenues that ranks on a parity with or prior to the pledge granted under this Second Supplemental Indenture.

(c) Under the laws of the State, such pledge and assignment and security interest is automatically perfected by Section 11-14-28, Utah Code Annotated 1953, as amended, and is and shall have priority as against all parties having claims of any kind in tort, contract, or otherwise hereafter imposed on the Net Revenues.

(d) The Issuer shall not hereafter make or suffer to exist any pledge or assignment of, lien on, or security interest in the Net Revenues that ranks prior to or on a parity with the pledge granted under the Indenture, or file any financing statement describing any such pledge, assignment, lien, or security interest, except as expressly permitted under the Indenture.

Section 2.11 Series 2011 Bonds as Additional Bonds. The Series 2011 Bonds are issued as Additional Bonds under the General Indenture. The Issuer hereby finds, determines, and declares that the requirements set forth in Section 2.13 of the General Indenture have been and will be complied with upon the issuance of the Series 2011 Bonds.

### ARTICLE III

#### APPLICATION OF PROCEEDS AND FUNDS AND ACCOUNTS; AMENDMENT TO DEBT SERVICE COVERAGE COVENANT

Section 3.1 Creation of Accounts. There are hereby established with the Trustee, a Series 2011 Acquisition/Construction Account within the Acquisition/Construction Fund, a Series 2011 Debt Service Reserve Account within the Debt Service Reserve Fund, and a Cost of Issuance Account.

Section 3.2 Application of Proceeds of the Series 2011 Bonds. The Issuer shall deposit with the Trustee the proceeds from the sale of the Series 2011 Bonds in the amount of \$11,143,293.58 (representing the principal amount of the Series 2011 Bonds, plus an original issue premium of \$251,857.40, and less an Underwriter's discount of \$72,052.50), less a bond insurance premium of \$80,716.70, and less a reserve fund surety premium of \$40,794.62, and the Trustee shall deposit such proceeds as follows:

(a) An amount of \$11,000,000 shall be deposited in the Series 2011 Acquisition/Construction Account;

(b) An amount of \$143,293.58 shall be deposited in the Series 2011 Cost of Issuance Account.

Section 3.3 Debt Service Reserve Fund. For purposes of the Series 2011 Bonds, the Debt Service Reserve Requirement shall equal \$1,019,865.62 and shall be funded on the date of delivery of the Series 2011 Bonds with the Series 2011 Reserve Instrument. Thereafter, the Issuer shall replenish the Series 2011 Debt Service Reserve Account as provided in Sections 5.2(c) and 5.5 of the General Indenture.

Section 3.4 Disbursements from the Series 2011 Cost of Issuance Account. Costs of issuance in the amount of \$143,293.58 shall be paid by the Trustee from the Series 2011 Cost of Issuance Account upon receipt from the Issuer of an executed Cost of Issuance Disbursement Request in substantially the form of Exhibit B attached hereto. Any unexpended balance remaining in the Series 2011 Cost of Issuance Account 30 days after delivery of the Series 2011 Bonds shall be paid to the Issuer.

Section 3.5 Deposits into and Disbursements from the Series 2011 Acquisition/Construction Account. All moneys on deposit in the Series 2011 Acquisition/Construction Account shall be expended in accordance with the terms of the General Indenture. Section 3.6 Amendment to Debt Service Covenant. Section 6.1(a) of the General Indenture is hereby amended to read as follows:

(a) While any of the principal of and interest on the Bonds are outstanding and unpaid, or any Repayment Obligations are outstanding, any resolution or other enactment of the Governing Body of the Issuer, applying the Net Revenues for the payment of the Bonds and the Repayment Obligations shall be irrevocable until the Bonds and/or any Repayment Obligations have been paid in full as to both principal and interest, and is not subject to amendment in any manner which would impair the rights of the holders of those Bonds or the Repayment Obligations which would in any way jeopardize the timely payment of principal or interest when due. Furthermore, the rates including connection fees, for all services supplied by the System to the Issuer and to its inhabitants and to all customers within or without the boundaries of the Issuer, shall be sufficient to pay the Operation and Maintenance Expenses for the System, and to provide Net Revenues for each Bond Fund Year of not less than 125% of the Aggregate Annual Debt Service Requirement for such year, plus an amount sufficient to fund the Debt Service Reserve Fund in the time, rate and manner specified herein, provided, however, that such rates must be reasonable rates for the type, kind and character of the service rendered. There shall be no free gas or electric service, and such rates shall be charged against all users of the System, including the Issuer. The Issuer agrees that should its annual financial statement made in accordance with the provisions of Section 6.1(d) disclose that during the period covered by such financial statement the Net Revenues were not at least equal to the above requirement, the Issuer shall request that a Qualified Engineer make recommendations as to the revision of the rates, charges and fees and that the Issuer on the basis of such recommendations will revise the schedule of rates, charges and fees insofar as is practicable and further revise Operation and Maintenance Expenses so as to produce the necessary Net Revenues as herein required.

## ARTICLE IV

### PROVISIONS RELATING TO INSURANCE POLICY AND THE SERIES 2011 RESERVE INSTRUMENT.

Section 4.1 Series 2011 Security Instrument. Upon the issuance of the Series 2011 Bonds the Issuer shall cause the Insurer to deliver the Series 2011 Security Instrument and the Series 2011 Reserve Instrument, respectively.

Section 4.2 Provisions Relating to the Series 2011 Security Instrument. Notwithstanding any other provision of the Indenture to the contrary, so long as the Series 2011 Bonds remain outstanding and the Insurer and the Reserve Instrument Provider are not in default under any payment obligations hereunder or under the Series 2011 Security Instrument or Series 2011 Reserve Instrument the following provisions shall apply:

The Insurer shall, to the extent it makes any payment of principal of or interest on the Series 2011 Bonds, become subrogated to the rights of the recipients of such payments in accordance with the terms of the Series 2011 Security Instrument. The obligations to the Insurer shall survive discharge or termination of the Indenture.

(a) The prior written consent of the Insurer shall be a condition precedent to the deposit of any credit instrument provided in lieu of a cash deposit into the Debt Service Reserve Account, if any. Notwithstanding anything to the contrary set forth in the Indenture, amounts on deposit in the Debt Service Reserve Account shall be applied solely to the payment of debt service due on the applicable series of Bonds.

(b) Upon the occurrence of an extraordinary optional, special, or extraordinary mandatory redemption in part, the selection of Bonds to be redeemed shall be subject to the approval of the Insurer. The exercise of any provision of the Indenture which permits the purchase of Bonds in lieu of redemption shall require the prior written approval of the Insurer if any Bond so purchased is not cancelled upon purchase.

(c) The Insurer shall be deemed to be the sole Owner of the Series 2011 Bonds for the purpose of exercising any voting right or privilege or giving any consent or direction or taking any other action that the Owners of the Series 2011 Bonds are entitled to take pursuant to the Indenture. The maturity of the Series 2011 Bonds shall not be accelerated without the consent of the Insurer. The prior written consent of the Insurer shall be a condition to deposit of any Reserve Instrument (other than the Series 2011 Reserve Instrument) for the Series 2011 Bonds.

(d) The Bonds shall be secured by a pledge of the Net Revenues as defined in the Indenture.

(e) Any amendment, supplement, modification to, or waiver of, the Indenture or any other transaction document, including any underlying security agreement (each a "Related Document"), that requires the consent of Bondowners or adversely affects the rights and interests of the Insurer shall be subject to the prior written consent of the Insurer.

(f) Unless the Insurer otherwise directs, upon the occurrence and continuance of an Event of Default or an event which with notice or lapse of time would constitute an Event of Default, amounts on deposit in the Construction Fund shall not be disbursed, but shall instead be applied to the payment of debt service or redemption price of the Bonds.

(g) No grace period for a covenant default shall exceed thirty (3) days or be extended for more than sixty (60) days, without the prior written consent of the Insurer. No grace period will be permitted for payment defaults.

(h) The rights granted to the Insurer under the Indenture to request, consent to, or direct any action are rights granted to the Insurer in consideration of its issuance of the Series 2011 Security Instrument. Any exercise by the Insurer of such rights is merely an exercise of the Insurer's contractual rights and shall not be construed or deemed to be taken for the benefit or on behalf of the Series 2011 Bondholders nor does such action evidence any position of the Insurer, positive or negative, as to whether Bondholder consent is required in addition to consent of Insurer.

(i) The Issuer shall pay or reimburse the Insurer any and all charges, fees, costs and expenses which the Insurer may reasonably pay or incur in connection with (i) the administration, enforcement, defense or preservation of any rights or security in the Indenture, (ii) the pursuit of any remedies under the Indenture or otherwise afforded by law or equity, (iii) the pursuit of any remedies under the Indenture or any other related document whether or not executed or completed, (iv) the violation by the Issuer of any law, rule or regulation, or any judgment, order or decree applicable to it, or (v) any litigation or other dispute in connection with the Indenture or the transactions contemplated thereby, other than amounts resulting from the failure of the Insurer to honor its obligations under the Series 2011 Security Instrument. The Insurer reserves the right to charge a reasonable fee as a condition to executing any amendment, waiver, or consent proposed in respect of the Indenture. All such amounts shall constitute "Security Instrument Costs."

(j) The Insurer shall be entitled to pay principal or interest on the Series 2011 Bonds that shall become Due for Payment but shall be unpaid by reason of Nonpayment by the Issuer (as such terms are defined in the Series 2011 Security Instrument) whether or not the Insurer has received a Notice of Nonpayment (as such terms are defined in the Series 2011 Security Instrument) or a claim upon the Series 2011 Security Instrument. Any amounts payable to the

Security Instrument Issuer by the Issuer under this Subsection (j) shall constitute "Security Instrument Repayment Obligations."

(k) Amounts paid by the Insurer under the Series 2011 Security Instrument shall not be deemed paid for purposes of the Indenture and any Series 2011 Bonds so paid shall remain Outstanding and continue to be due and owing until paid by the Issuer in accordance with the Indenture. The Insurer shall, to the extent it makes any payment of principal of or interest on the Series 2011 Bonds, become subrogated to the rights of the recipients of such payments in accordance with the terms of the Series 2011 Security Instrument. The Indenture shall not be discharged unless all amounts due or to become due to the Insurer have been paid in full or duly provided for.

(l) If, on the third Business Day prior to the related scheduled interest payment date or principal payment date ("Payment Date"), there is not on deposit with the Trustee, after making all transfers and deposits required under the Indenture, moneys sufficient to pay the principal of and interest on the Series 2011 Bonds due on such Payment Date, the Trustee shall make a claim under the Series 2011 Security Instrument and give notice to the Insurer and to its designated agent (if any) (the "Insurer's Fiscal Agent") by telephone or telecopy of the amount of such deficiency, and the allocation of such deficiency between the amount required to pay interest on the Series 2011 Bonds and the amount required to pay principal of the Series 2011 Bonds, confirmed in writing to the Insurer and the Insurer's Fiscal Agent by 12:00 noon, New York City time, on such second Business Day by filling in the form of Notice of Claim and Certificate delivered with the Series 2011 Security Instrument.

(i) In the event the claim to be made is for a mandatory sinking fund redemption installment, upon receipt of the moneys due, the Trustee shall authenticate and deliver to affected Series 2011 Bondholders who surrender their Series 2011 Bonds a new Series 2011 Bond or Series 2011 Bonds in an aggregate principal amount equal to the unredeemed portion of the Series 2011 Bond surrendered. The Trustee shall designate any portion of payment of principal on Series 2011 Bonds paid by the Insurer, whether by virtue of mandatory sinking fund redemption, maturity or other advancement of maturity, on its books as a reduction in the principal amount of Series 2011 Bonds registered to the then current Series 2011 Bondholder, whether DTC or its nominee or otherwise, and shall issue a replacement Series 2011 Bond to the Insurer, registered in the name of the Insurer in a principal amount equal to the amount of principal so paid (without regard to authorized denominations); provided that the Trustee's failure to so designate any payment or issue any replacement Series 2011 Bond shall have no effect on the amount of principal or interest payable by the Issuer on any Series 2011 Bond or the subrogation rights of the Insurer.

(ii) The Trustee shall keep a complete and accurate record of all funds deposited by the Insurer into the Policy Payments Account (as hereinafter defined) and the allocation of such funds to payment of interest on the principal paid in respect to any Series 2011 Bond. The Insurer shall have the right to inspect such records at reasonable times upon reasonable notice to the Issuer.

(iii) Upon payment of a claim under the Series 2011 Security Instrument the Trustee shall establish a separate special purpose trust account for the benefit of Bondholders referred to herein as the "Policy Payments Account" and over which the Trustee shall have exclusive control and sole right of withdrawal. The Trustee shall receive any amount paid under the Series 2011 Security Instrument in trust on behalf of Series 2011 Bondholders and shall deposit any such amount in the Policy Payments Account and distribute such amount only for purposes of making the payments for which a claim was made. Such amounts shall be disbursed by the Trustee to Series 2011 Bondholders in the same manner as principal and interest payments are to be made with respect to the Series 2011 Bonds under the sections hereof regarding payment of Series 2011 Bonds. It shall not be necessary for such payments to be made by checks or wire transfers separate from the check or wire transfer used to pay debt service with other funds available to make such payments. Notwithstanding anything to the contrary otherwise set forth in the Indenture, and to the extent permitted by law, in the event amounts paid under the Series 2011 Security Instrument are applied to claims for payment of principal of or interest on the Series 2011 Bonds, interest on such principal of and interest on such Series 2011 Bonds shall accrue and be payable from the date of such payment at the greater of (A) the per annum rate of interest, publicly announced from time to time by JPMorgan Chase Bank or its successor at its principal office in the City of New York, as its prime or base lending rate plus 3%, and (B) the then applicable rate of interest on the Series 2011 Bonds provided that in no event shall such rate exceed the maximum rate permissible under applicable usury or similar laws limiting interest rates.

(iv) Funds held in the Policy Payments Account shall not be invested by the Trustee and may not be applied to satisfy any costs, expenses, or liabilities of the Trustee.

(v) Any funds remaining in the Policy Payments Account following a Payment Date shall promptly be remitted to the Insurer.

(m) The Insurer shall be provided with the following information (by the Issuer with respect to items (i), (ii), (vi), (vii), (viii), and (x) below, and by the Trustee with respect to items (iii) through (v), (ix) and (x) below):

(i) Annual audited financial statements within 180 days after the end of the Issuer's fiscal year and the Issuer's annual budget within 30 days after the approval thereof together with such other information, data or reports as the Insurer shall reasonably request from time to time;

(ii) Notice of any draw upon the Series 2011 Debt Service Reserve Account within two Business Days after knowledge thereof other than (A) withdrawals of amounts in excess of the applicable Debt Service Reserve Requirement and (B) withdrawals in connection with a refunding of the Series 2011 Bonds;

(iii) Notice of any default known to the Paying Agent within five Business Days after knowledge thereof;

(iv) Prior notice of the advance refunding or redemption of any of the Series 2011 Bonds including the principal amount, maturities and CUSIP numbers thereof;

(v) Notice of the resignation or removal of the Paying Agent and Bond Registrar and the appointment of, and acceptance of duties by, any successor thereto;

(vi) Notice of the commencement of any proceeding by or against the Issuer commenced under the United States Bankruptcy Code or any other applicable bankruptcy, insolvency, receivership, rehabilitation, or similar law (an "Insolvency Proceeding");

(vii) Notice of the making of any claim in connection with any Insolvency Proceeding seeking the avoidance as a preferential transfer of any payment of principal of, or interest on the Series 2011 Bonds;

(viii) A full original transcript of all proceedings relating to the execution of any amendment or supplement to the Indenture (other than supplements in connection with the issuance of Additional Bonds); and

(ix) All reports, notices, and correspondence to be delivered to Series 2011 Bondholders under the terms of the Indenture.

(n) The Issuer will permit the Insurer to discuss the affairs, finances and accounts of the Issuer or any information the Insurer may reasonably request regarding the security for the Series 2011 Bonds with appropriate officers of the Issuer on any business day upon reasonable prior notice.

(o) The Trustee (to the extent it becomes aware of such) shall notify the Insurer of any failure of the Issuer to provide notices, certificates and other information under the transaction documents to which the Trustee is a party.

(p) Notwithstanding satisfaction of the other conditions to the issuance of Additional Bonds set forth in the Indenture, no such issuance may occur (1) if an Event of Default (or any event which, once all notice or grace periods have passed, would constitute an Event of Default) exists unless such default shall be cured upon such issuance and (2) unless the Debt Service Reserve Fund is fully funded at the Debt Service Reserve Requirement (including the proposed issue) upon the issuance of such Additional Bonds, in either case unless otherwise permitted by the Insurer.

(q) No contract shall be entered into or any action taken by which the rights of the Insurer or security for or sources of payment of the Series 2011 Bonds may be impaired or prejudiced in any material respect except upon obtaining the prior written consent of the Insurer.

(r) The Notice address of the Insurer is: Assured Guaranty Municipal Corp. (formerly known as Financial Security Assurance Inc.), 31 West 52nd Street, New York, New York 10019, Attention: Risk Management Department—Surveillance; re: Policy No. 213736-N; or such other notice address as the Insurer shall provide in writing to the Paying Agent and the Issuer. In each case in which notice or other communication refers to an Event of Default, then a copy of such notice or other communication shall also be sent to the attention of General Counsel and shall be marked to indicate “URGENT MATERIAL ENCLOSED.”

(s) The Insurer shall be deemed to be a third party beneficiary to the Indenture.

(t) To accomplish defeasance of the Series 2011 Bonds, the Issuer must cause to be delivered (i) a report of an independent firm of nationally recognized certified public accountants or such other accountant as shall be acceptable to the Insurer (“Accountant”) verifying the sufficiency of the escrow established to pay the Series 2011 Bonds in full on the maturity or redemption date (“Verification”), (ii) an escrow deposit agreement (which shall be acceptable in form and substance to the Insurer), and (iii) a certificate of discharge of the Paying Agent with respect to the Series 2011 Bonds; each verification shall be acceptable in form and substance, and addressed, to the Issuer, the Paying Agent and the Insurer. The Issuer shall utilize its best efforts to provide the Insurer with final drafts of the above-referenced documentation not less than five business days prior to the funding of the escrow.

(u) Any Interest Rate Swap Contract entered into by the Issuer shall meet the following conditions: (i) the Interest Rate Swap Contract must be entered into to manage interest costs related to, or a hedge against (a) assets then held, or (b) debt then outstanding, or (ii) debt reasonably expected to be issued within the next twelve (12) months, and (iii) the Interest Rate Swap Contract shall not contain any leverage element or multiplier component greater than 1.0x unless there is a matching hedge arrangement which effectively off-sets the

exposure from any such element or component. Unless otherwise consented to in writing by the Insurer, any uninsured net settlement, breakage or other termination amount then in effect shall be subordinate to debt service on the Bonds and on any debt on parity with the Bonds. The Issuer shall not terminate an Interest Rate Swap Contract unless it demonstrates to the satisfaction of the Insurer prior to the payment of any such termination amount that such payment will not cause the Issuer to be in default under the Bond Documents, including but not limited to, any monetary obligations thereunder. All Swap Counterparties or guarantors to any Interest Rate Swap Contract must have a rating of at least "A-" and "A3" by Standard & Poor's ("S&P") and Moody's Investors Service ("Moody's"). If the Swap Counterparty or guarantor's rating falls below "A-" or "A3" by either S&P or Moody's, the Swap Counterparty or guarantor shall execute a credit support annex to the Interest Rate Swap Contract, which credit support annex shall be acceptable to the Insurer. If the Swap Counterparties or the guarantor's long term unsecured rating falls below "Baa1" or "BBB+" by either Moody's or S&P, a replacement Swap Counterparty or guarantor, acceptable to the Insurer, shall be required.

(v) In determining whether any amendment, consent, waiver or other action to be taken, or any failure to take action, under the Indenture would adversely affect the security for the Series 2011 Bonds or the rights of the Series 2011 Bondholders, the Trustee shall consider the effect of any such amendment, consent, waiver, action or inaction as if there were no Insurance Policy.

Section 4.3 Provisions Relating to Series 2011 Reserve Instrument. Notwithstanding any other provisions of the Indenture to the contrary, so long as the Series 2011 Bonds remain outstanding and the Insurer and the Reserve Instrument Provider are not in default under any payment obligations hereunder or under the Series 2011 Security Instrument or Series 2011 Reserve Instrument, the following provisions shall apply:

The Series 2011 Reserve Instrument constitutes a Reserve Instrument under the Indenture. The Issuer shall repay any draws under the Series 2011 Reserve Instrument and pay all related reasonable expenses incurred by the Reserve Instrument Provider. Interest shall accrue and be payable on such draws and expenses from the date of payment under the Series 2011 Reserve Instrument at the Late Payment Rate. "Late Payment Rate" means the lesser of (i) the greater of (A) the per annum rate of interest, publicly announced from time to time by JPMorgan Chase Bank at its principal office in the City of New York, as its prime or base lending rate ("Prime Rate") (any change in such Prime Rate to be effective on the date such change is announced by JPMorgan Chase Bank) plus three percent (3%), and (B) the then applicable highest rate of interest on the Series 2011 Bonds, and (ii) the maximum rate permissible under applicable usury or similar laws limiting interest rates. The Late Payment Rate shall be computed on the basis of the actual number of days elapsed over a year of 360 days. In the event JPMorgan Chase Bank ceases to announce its Prime Rate publicly, Prime Rate shall be the publicly announced prime or base lending rate of such national bank as the Reserve Instrument Provider shall specify.

Repayment of draws and payment of expenses and accrued interest thereon at the Late Payment Rate (collectively, "Policy Costs") shall commence in the first month following each draw, and each such monthly payment shall be in an amount at least equal to 1/12 of the aggregate of Policy Costs related to such draw. Policy Costs shall constitute Reserve Instrument Repayment Obligations.

Amounts in respect of Policy Costs paid to the Reserve Instrument Provider shall be credited first to interest due, then to the expenses due and then to principal due. As and to the extent that payments are made to the Reserve Instrument Provider on account of principal due, the coverage under the Series 2011 Reserve Instrument will be increased by a like amount, subject to the terms of the Series 2011 Reserve Instrument.

All cash and investments in the Series 2011 Debt Service Reserve Account shall be transferred to the Bond Fund for payment of debt service on the applicable Outstanding Series 2011 Bonds before any drawing may be made on the Series 2011 Reserve Instrument or any other Reserve Instrument credited to the Series 2011 Debt Service Reserve Account in lieu of cash. Payment of any Policy Costs shall be made prior to replenishment of any such cash amounts. Draws on all Reserve Instrument (including the Series 2011 Reserve Instrument) on which there is available coverage shall be made on a pro-rata basis (calculated by reference to the coverage then available thereunder) after applying all available cash and investments in the Series 2011 Debt Service Reserve Account. Payment of Policy Costs and reimbursement of amounts with respect to other Reserve Instrument shall be made on a pro-rata basis prior to replenishment of any cash drawn from the Series 2011 Debt Service Reserve Account. "Available coverage" means the coverage then available for disbursement pursuant to the terms of the applicable alternative credit instrument without regard to the legal or financial ability or willingness of the provider of such instrument to honor a claim or draw thereon or the failure of such provider to honor any such claim or draw.

(a) If the Issuer shall fail to pay any Policy Costs in accordance with the requirements of Paragraph (a) hereof, the Reserve Instrument Provider shall be entitled to exercise any and all legal and equitable remedies available to it, including those provided under the Indenture other than (i) acceleration of the maturity of the Outstanding Bonds or (ii) remedies which would adversely affect owners of the Outstanding Bonds.

(b) The Indenture shall not be discharged until all Policy Costs owing to the Reserve Instrument Provider shall have been paid in full. The Issuer's obligation to pay such amounts shall expressly survive payment in full of the Series 2011 Bonds.

(c) Pursuant to the Indenture, in order to secure the Issuer's payment obligations with respect to the Policy Costs there has been granted and perfected in favor of the Reserve Instrument Provider a security interest (subordinate only to that of the owners of the Bonds) in all revenues and collateral pledged as security for the Outstanding Bonds.

(d) The Trustee shall ascertain the necessity for a claim upon the Series 2011 Reserve Instrument and to provide notice to the Reserve Instrument Provider in accordance hereof and the Series 2011 Reserve Instrument at least five business days prior to each date upon which interest or principal is due on the Outstanding Bonds. When deposits are required to be made by the Issuer with the Trustee to Series 2011 Debt Service Reserve Account for the Series 2011 Bonds more often than semi-annually, the Trustee shall be instructed to give notice to the Reserve Instrument Provider of any failure to make timely payment in full of such deposits within two business days of the date due.

Registered Owner: CEDE & CO.

Eagle Mountain City, Utah ("Issuer"), a political subdivision and body politic duly organized and existing under the Constitution and laws of the State of Utah, for value received, hereby acknowledges itself to be indebted and promises to pay to the Registered Owner named above or registered assigns, out of the special fund hereinbelow designated and not otherwise, the Principal Amount specified above on the Maturity Date specified above with interest thereon until paid at the Interest Rate specified above per annum, payable semiannually on June 1 and December 1 of each year commencing June 1, 2012, until said Principal Amount is paid. Interest on this Bond shall be payable by check or draft mailed to the Registered Owner hereof at his address as it appears on the registration books of the Paying Agent, who shall also act as the Registrar for the Issuer, or at such other address as is furnished to the Paying Agent in writing by such Registered Owner. Interest hereon shall be deemed to be paid by the Paying Agent when mailed. Both principal and interest shall be payable in lawful money of the United States of America.

This Bond is one of an issue of Bonds of the Issuer designated as the "Gas and Electric Revenue Bonds, Series 2011 (the "Series 2011 Bonds") in the aggregate principal amount of \$11,085,000 of like tenor and effect, except as to date of maturity and interest rate, numbered R-1 and upwards, issued by the Issuer pursuant to a General Indenture of Trust dated as of September 1, 2005, and Second Supplemental Indenture of Trust dated as of August 1, 2011 (collectively the "Indenture"), approved by resolution adopted on August 2, 2011 (the "Bond Resolution"), for the purpose of (a) financing the acquisition of property for rights of way and the construction of a substation, power lines, and related improvements (the "2011 Project"), (b) acquiring a Reserve Instrument to fund the Series 2011 Debt Service Reserve Account, and (c) paying the costs of issuance related to the Series 2011 Bonds, all in full conformity with the Constitution and laws of the State of Utah. Both principal of and interest on this Bond and the issue of which it is a part are payable solely from a special fund designated "Eagle Mountain City, Utah Gas and Electric Revenue Bond Fund" (the "Bond Fund"), into which fund, to the extent necessary to assure prompt payment of the principal of and interest on the issue of which this is one and on all series of bonds issued on a lien parity with this Bond shall be paid the Net Revenues (as defined in the Indenture) derived and to be derived from the Issuer's gas and electric system (the "System") all as more fully described and provided in the Indenture.

As more fully provided in the Indenture, the Series 2011 Bonds shall be payable only from the Net Revenues and shall not constitute a general indebtedness or pledge of the full faith and credit of the Issuer, within the meaning of any constitutional or statutory provision or limitation of indebtedness.

As provided in the Indenture, additional bonds, notes and other obligations of the Issuer may be issued and secured on an equal lien parity with the Series 2011 Bonds, from time to time in one or more series, in various principal amounts, may mature at different times, may bear interest at different rates and may otherwise vary as provided in the Indenture, and the aggregate principal amount of such bonds, notes and other obligations issued and to be issued under the Indenture is not limited.

Reference is hereby made to the Indenture, copies of which are on file with the Trustee, for the provisions, among others, with respect to the nature and extent of the rights, duties and obligations of the Issuer, the Trustee and the Registered Owners of the Series 2011 Bonds, the terms upon which the Series 2011 Bonds are issued and secured, and upon which the Indenture may be modified and amended, to all of which the Registered Owner of this Bond assents by the acceptance of this Bond.

Except as otherwise provided herein and unless the context indicates otherwise, words and phrases used herein shall have the same meanings as such words and phrases in the Indenture.

Interest on all Series 2011 Bonds authenticated on or Series 2001 to the Original Issue Date shall accrue from the Original Issue Date. Interest on the Series 2011 Bonds authenticated subsequent to the Original Issue Date shall accrue from the Interest Payment Date next preceding their date of authentication, or if authenticated on an

Interest Payment Date, as of that date; provided, however, that if interest on the Series 2011 Bonds shall be in default, interest on the Series 2011 Bonds issued in exchange for Series 2011 Bonds surrendered for transfer or exchange shall be payable from the date to which interest has been paid in full on the Series 2011 Bonds surrendered.

The Bonds are subject to optional and mandatory sinking fund redemption at the times, in the amounts and with notice all as provided in the Indenture.

The Bonds are issued as fully registered Bonds. Subject to the limitations and upon payment of the charges provided in the Indenture, registered Bonds may be exchanged for a like aggregate principal amount of registered Bonds of other authorized denominations of the same series and the same maturity.

This Bond is transferable by the registered holder hereof in person or by his attorney duly authorized in writing at the principal corporate offices of U.S. Bank National Association (the "Registrar") in Salt Lake City, Utah, but only in the manner, subject to the limitations and upon payment of the charges provided in the Indenture and upon surrender and cancellation of this Bond. Upon such transfer a new registered Bond or Bonds of the same series and the same maturity and of authorized denomination or denominations for the same aggregate principal amount will be issued to the transferee in exchange therefor.

The Issuer and the Paying Agent may deem and treat the Registered Holder hereof as the absolute owner hereof (whether or not this Bond shall be overdue) for the purpose of receiving payment of or on account of principal hereof, premium, if any, and interest due hereon and for all other purposes, and neither Issuer nor Paying Agent shall be affected by any notice to the contrary.

This Bond is issued under and pursuant to the Local Government Bonding Act, Title 11, Chapter 14, Utah Code Annotated 1953, as amended, and this Bond does not constitute a general obligation indebtedness of the Issuer within the meaning of any state constitutional or statutory limitation. The issuance of the Bonds shall not, directly, indirectly or contingently, obligate the Issuer or any agency, instrumentality or political subdivision thereof to levy any form of taxation therefor or to make any appropriation for their payment.

The Issuer covenants and agrees that it will cause to be collected and accounted for sufficient Net Revenues as will at all times be sufficient to pay promptly the principal of and interest on this Bond and the issue of which it forms a part and to make all payments required to be made into the Bond Fund, and to carry out all the requirements of the Indenture.

It is hereby declared and represented that all acts, conditions and things required to exist, happen and be performed precedent to and in the issuance of this Bond have existed, have happened and have been performed in regular and due time, form and manner as required by law, that the amount of this Bond, together with the issue of which it forms a part, does not exceed any limitation prescribed by the Constitution or statutes

of the State of Utah, that the Net Revenues of the Issuer have been pledged and that an amount therefrom will be set aside into a special fund by the Issuer sufficient for the prompt payment of the principal of and interest on this Bond and the issue of which it forms a part, as authorized for issue under the Indenture, and that the Net Revenues of the Issuer are not pledged, hypothecated or anticipated in any way other than by the issue of the Bonds of which this Bond is one and all bonds issued on a parity with this Bond.

This Bond shall not be valid or become obligatory for any purpose nor be entitled to any security or benefit under the Indenture until the Certificate of Authentication on this Bond shall have been manually signed by the Trustee.

IN WITNESS WHEREOF, the Issuer has caused this Bond to be signed by the manual or facsimile signature of its Mayor and countersigned by the manual or facsimile signature of its City Recorder under its corporate seal or a facsimile thereof.

## **The City**

The City was incorporated on December 3, 1996. The City covers approximately 52.7 square miles and is located approximately 30 miles northwest of Provo City and approximately 40 miles southwest of Salt Lake City. At the time the City was incorporated, it consisted primarily of agricultural land, had no commercial area and had a population of approximately 175 people. The City has experienced steady development and estimates that it is approximately 15% built-out and anticipates reaching full build-out in the next 50 years with a population of approximately 225,000. The City estimates that its population in 2010 was approximately 24,000. For more information with respect to the City, see "EAGLE MOUNTAIN CITY," "APPENDIX A— BASIC FINANCIAL STATEMENTS WITH INDEPENDENT AUDITOR'S REPORT FOR THE YEAR ENDED JUNE 30, 2010," and "APPENDIX C—GENERAL INFORMATION REGARDING THE CITY AND UTAH COUNTY" herein.

## **The System**

The Gas System includes a 6-inch high pressure gas line from the Kern River Gas Tap located in the southern area of the City. The gas is delivered to the City's distribution system under a transportation contract with the Kern River Pipeline Company. The Gas System currently serves approximately 5,524 equivalent residential units (ERUs). The City's current distribution system has the capacity to serve approximately 25,000 ERUs. The total capacity of the 6-inch high pressure gas line is approximately 50,000 ERUs. See "THE SYSTEM—The Gas System" herein.

The Electric System consists of a 138 kiloVolt ("kV") transmission line, 138kV interconnection substation, 138–12.47Y/7.2kV substation, and 12.47Y/7.2kV distribution system. The Electric System presently includes approximately 150 miles of 138kV overhead transmission and 12.47Y/7.2kV overhead and underground distribution. The City's 138kV overhead transmission line is connected to a PacifiCorp 138kV overhead transmission line at the interconnection substation.

The Electrical System currently supplies up to 21 megawatts ("MW") during the summertime. The City's current substation is capable of reliably supplying up to 33 MW. The existing transmission line and interconnection substation have the capacity to handle up to 170 MW. See "THE SYSTEM—The Electric System" herein.

As part of the Series 2011 Project, the City will construct a new substation in the southern portion of the City and a new 138kV transmission line. See "THE SERIES 2011 PROJECT."

## **Authority for the Series 2011 Bonds**

The Series 2011 Bonds are being issued pursuant to (i) the Local Government Bonding Act, Title 11, Chapter 14, Utah Code Annotated 1953, as amended (the "Act"); (ii) a General Indenture of Trust dated as of September 1, 2005 (the "General Indenture"), as heretofore amended and supplemented, between the City and U.S. Bank National Association, as trustee (the "Trustee"); (iii) a Second Supplemental Indenture of Trust dated as of August 1, 2011 (the "Second Supplemental Indenture" and together with the General Indenture, the "Indenture"); (iv) Resolutions of the City Council of the City (the "City Council") adopted on May 3, 2011 and August \_\_\_\_, 2011 (together, the "Resolution"); and (v) other applicable provisions of law.

## **Security and Sources of Payment**

The Series 2011 Bonds will be payable from and secured solely by a pledge and assignment of the Net Revenues of the System and moneys on deposit in the funds and accounts held by the Trustee under the Indenture (except the Rebate Fund). The Revenues of the System will be applied to pay the System's Operation and Maintenance Expenses before being applied to pay principal of and interest on the Bonds. See "SECURITY FOR THE BONDS" herein. The Series 2011 Bonds are secured on a lien parity with the Outstanding Parity Bonds (as defined below) and any additional bonds, notes or other obligations (the "Additional Bonds") which may be issued from time to time under the Indenture. See "SECURITY FOR THE BONDS" herein.

*The Series 2011 Bonds are special limited obligations of the City payable solely from the Net Revenues of the System (except to the extent paid out of moneys attributable to Bond proceeds or other funds created under the Indenture and held by the Trustee (except the Rebate Fund) or the income from the temporary investment thereof). The Series 2011 Bonds will not be a general obligation of the City, the State of Utah or any agency, instrumentality or political subdivision thereof. Neither the faith and credit nor the taxing power of the City, the State of Utah or any agency, instrumentality or political subdivision thereof will be assigned or pledged for payment of the Series 2011 Bonds. The Indenture does not pledge any properties of the System. THE CITY WILL NOT MORTGAGE OR GRANT A SECURITY INTEREST IN THE SYSTEM TO SECURE PAYMENT OF THE SERIES 2011 BONDS.*

#### **Bond Insurance**

The scheduled payment of principal of and interest on the Series 2011 Bonds when due will be guaranteed under a municipal bond insurance policy (the "Policy") to be issued concurrently with the delivery of the Series 2011 Bonds by Assured Guaranty Municipal Corp. (referred to herein as "AGM" or the "Insurer"). See "BOND INSURANCE" herein.

#### **Outstanding Parity Bonds**

The City has previously issued its Gas and Electric Refunding Bonds, Series 2005 (the "Outstanding Parity Bonds"), which are currently outstanding in the aggregate principal amount of \$19,275,000. Said Bonds were issued to finance certain improvements to the System and refund certain prior obligations. The Outstanding Parity Bonds are payable from and secured by the Net Revenues on a parity with the Series 2011 Bonds. See "SECURITY FOR THE BONDS" herein.

#### **Additional Bonds**

The Indenture permits the issuance of Additional Bonds secured by the Net Revenues on a parity with the Series 2011 Bonds and Outstanding Parity Bonds, but requires that the City provide certain certificates and opinions as a condition to the issuance of Additional Bonds. Included in these conditions is the requirement that the Net Revenues for the most recent Bond Fund Year were not less than 125% of the sum of the Aggregate Annual Debt Service Requirement on Bonds then outstanding and the Additional Bonds proposed to be issued. See "SECURITY FOR THE BONDS—Additional Bonds" herein. The Series 2011 Bonds, the Outstanding Parity Bonds, and any Additional Bonds issued under the Indenture are referred to collectively herein as the "Bonds."

#### **Registration, Denominations, Manner of Payment**

The Series 2011 Bonds are issuable only as fully registered bonds and, when initially issued, will be registered in the name of Cede & Co., as nominee for The Depository Trust Company, New York, New York ("DTC"). DTC will act as securities depository for the Series 2011 Bonds. Purchases of Series 2011 Bonds will be made in book-entry form only in the principal amount of \$5,000 minimum denominations and integral multiples of \$5,000 (collectively, "Authorized Denominations"); through brokers and dealers who are, or who act through, DTC Participants. Beneficial Owners of the Series 2011 Bonds will not be entitled to receive physical delivery of bond certificates so long as DTC or a successor securities depository acts as the securities depository with respect to the Series 2011 Bonds.

Principal of and interest on the Series 2011 Bonds (interest payable on each June 1 and December 1, commencing June 1, 2012) shall be paid by U.S. Bank National Association, Corporate Trust Services, Salt Lake City, Utah, as Paying Agent, to the Registered Owners of the Series 2011 Bonds. So long as DTC is the Registered Owner, it will, in turn, remit such principal and interest payments to its Participants, for subsequent disbursements to the Beneficial Owners of the Series 2011 Bonds as described under the caption "THE SERIES 2011 BONDS—Book-Entry Only System" below.

### **Transfer or Exchange**

So long as the book-entry system is in effect, Beneficial Owners may transfer their interests in the Series 2011 Bonds through the book-entry system. In the event the book-entry system is discontinued, the Series 2011 Bonds may be transferred or exchanged as described below. See "THE SERIES 2011 BONDS—General" below.

### **Tax-Exempt Status**

**Federal Income Tax.** In the opinion of Ballard Spahr LLP, Bond Counsel to the City, interest on the Series 2011 Bonds is excludable from gross income for purposes of federal income tax, assuming continuing compliance with the requirements of the federal tax laws. Interest on the Series 2011 Bonds is not a preference item for purposes of either individual or corporate federal alternative minimum tax ("AMT"); however, interest paid to corporate holders of the Series 2011 Bonds may be indirectly subject to AMT under circumstances described under "TAX MATTERS" herein.

Bond Counsel expresses no opinion regarding any other federal tax consequences relating to ownership or disposition of or the accrual or receipt of interest on the Series 2011 Bonds.

**State Income Tax.** Bond Counsel is also of the opinion that, under currently existing laws, interest on the Series 2011 Bonds is exempt from State of Utah individual income taxes. See "TAX MATTERS" herein.

### **Conditions of Delivery, Anticipated Date, Manner, and Place of Delivery**

The Series 2011 Bonds are offered, subject to prior sale, when, as, and if issued and received by George K. Baum & Company, as underwriter (the "Underwriter"), subject to the approval of legality by Ballard Spahr LLP, Bond Counsel to the City, and certain other conditions. Certain matters relating to disclosure will be passed upon by Ballard Spahr LLP, Disclosure Counsel to the City. Certain legal matters will be passed on for the City by its counsel, Parsons, Kinghorn, Harris, Salt Lake City, Utah. See "LEGAL MATTERS" below. It is expected that the Series 2011 Bonds in book-entry form will be available for delivery to DTC or its agent on or about August 16, 2011.

## **THE SERIES 2011 BONDS**

### **General**

The Series 2011 Bonds will be dated the date of their issuance and will mature on June 1, of the years and in the amounts as set forth on the inside front cover page of this Official Statement.

The Series 2011 Bonds shall bear interest from their date at the rates set forth on the inside front cover page of this Official Statement. Interest on the Series 2011 Bonds is payable on June 1, 2012, and semiannually thereafter on June 1 and December 1 of each year (each in "Interest Payment Date"). Interest on the Series 2011 Bonds shall be computed on the basis of a 360-day year of twelve 30-day months. U.S. Bank National Association, Corporate Trust Department, Salt Lake City, Utah, is the Bond Registrar, Paying Agent and Trustee for the Series 2011 Bonds under the Indenture (in such respective capacities, the "Bond Registrar," "Paying Agent" and "Trustee").

The interest on the Series 2011 Bonds so payable, and punctually paid and duly provided for, on any Interest Payment Date will be paid to the Registered Owner (initially DTC) thereof at the close of business on the Regular Record Date for such interest, which shall be the fifteenth day (whether or not a Business Day) immediately preceding such Interest Payment Date. Any such interest not so punctually paid or duly provided for shall forthwith cease to be payable to the Registered Owner of any Series 2011 Bonds on such Regular Record Date, and may be paid to the Registered Owner thereof at the close of business on a Special Record Date for the payment of such defaulted interest to be fixed by the Trustee, notice thereof to be given to such Registered Owner not less than ten days prior to such Special Record Date.

The Series 2011 Bonds will be issued as fully registered bonds, initially in book-entry form, in the denomination of \$5,000 or any integral multiple thereof (an "Authorized Denomination"), not exceeding the amounts of each maturity.

Upon surrender for transfer of any Series 2011 Bond at the principal corporate trust office of the Trustee, duly endorsed by, or accompanied by a written instrument or instruments of transfer in form satisfactory to the Trustee and duly executed by, the Registered Owner or his attorney duly authorized in writing, the City shall execute and the Trustee shall authenticate and deliver in the name of the transferee or transferees, a new Series 2011 Bond or Series 2011 Bonds of the same Series and the same maturity for a like aggregate principal amount as the Series 2011 Bond surrendered for transfer. Series 2011 Bonds may be exchanged at the principal corporate trust office of the Trustee for a like aggregate principal amount of Series 2011 Bonds of the same maturity. The execution by the City of any Series 2011 Bond of any authorized denomination shall constitute full and due authorization of such denomination, and the Trustee shall thereby be authorized to authenticate and deliver such Series 2011 Bond. The City and the Trustee shall not be required to transfer or exchange any Series 2011 Bond (i) during the period from and including any Regular Record Date, to and including the next succeeding Interest Payment Date, (ii) during the period from and including the day fifteen days prior to any Special Record Date, to and including the date of the proposed payment pertaining thereto, (iii) during the period from and including the day fifteen days prior to the mailing of notice calling any Series 2011 Bonds for redemption, to and including the date of such mailing, or (iv) at any time following the mailing of notice calling such Series 2011 Bond for redemption.

The City, the Registrar and the Paying Agent may treat and consider the person in whose name each Series 2011 Bond is registered on the registration books kept by the Registrar as the holder and absolute owner thereof for the purpose of receiving payment of, or on account of, the principal or redemption price thereof and interest due thereon and for all other purposes whatsoever, and neither the City, nor the Registrar nor the Paying Agent shall be affected by any notice to the contrary. Payment of or on account of either principal or interest on any Series 2011 Bond shall be made only to or upon order of the Registered Owner thereof or such person's legal representative, but such registration may be changed as provided in the Indenture. All such payments shall be valid and effectual to satisfy and discharge the liability upon such Series 2011 Bond to the extent of the sum or sums so paid.

The Trustee shall require the payment by the Bondholder requesting exchange or transfer of Series 2011 Bonds of any tax or other governmental charge and by the City of any service charge of the Trustee as Registrar which are required to be paid with respect to such exchange or transfer and such charges shall be paid before such new Series 2011 Bond shall be delivered.

#### **Book-Entry Only System**

The Depository Trust Company, New York, New York ("DTC") will act as securities depository for the Series 2011 Bonds. The Series 2011 Bonds will be issued as fully registered bonds registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully registered Series 2011 Bond certificate will be issued for each maturity of the Series 2011 Bonds, in the aggregate principal amount of such issue, and will be deposited with DTC. See "APPENDIX F—PROVISIONS REGARDING BOOK-ENTRY ONLY SYSTEM," herein.

Stated Maturity.	

Upon redemption of any Series 2011 Bonds maturing on June 1, 20\_\_, other than pursuant to a mandatory sinking fund redemption, the principal amount so redeemed shall be credited toward a part or all of any one or more such Mandatory Sinking Fund amounts for the Series 2011 Bonds maturing on June 1, 20\_\_ in such order as shall be determined by the City. ]

Selection for Redemption. Except for redemption pursuant to mandatory sinking fund requirements above, if fewer than all Series 2011 Bonds are to be redeemed, the particular maturities of such Series 2011 Bonds and the principal amount of such maturities to be redeemed shall be selected by the City. If fewer than all of the Series 2011 Bonds of any one maturity called for redemption, the particular units of Series 2011 Bonds to be redeemed shall be selected by the Trustee in such manner as the Trustee in its discretion may deem fair and appropriate. The portion of any Series 2011 Bond of a denomination of more than an Authorized Denomination to be redeemed will be in the principal amount of an Authorized Denomination or any integral multiple thereof, and in selecting portions of such bonds for redemption, each such bond shall be treated as representing that number of Series 2011 Bonds of an Authorized Denomination which is obtained by dividing the principal amount of such Series 2011 Bonds by the minimum Authorized Denomination.

Notice of Redemption. So long as the Series 2011 Bonds are in book-entry only form, the Paying Agent shall notify DTC of an early redemption not less than 30 days nor more than 60 days prior to the date fixed for redemption, and shall provide such information as required by the Indenture.

#### **THE SERIES 2011 PROJECT**

Proceeds of the Series 2011 Bonds will be used to finance improvements to the System, including the acquisition of property for rights of way and the construction of a new substation in the southern portion of the City, a new 138kV transmission line, and related improvements. With the completion of the new southern substation, the distribution system will be able to supply an additional 33 MW for a total distribution system capacity of 66 MW. Completion of the 138kV transmission line will provide a redundant source of power delivery to the City in case of equipment failure or damage to the existing 138 kV line. Overall, the Series 2011 Project will provide redundancy to and improve reliability of the System and accommodate future growth and economic development. See "THE SYSTEM," below.

## SECURITY FOR THE BONDS

### Pledge of the Indenture

The Series 2011 Bonds, the Outstanding Parity Bonds, and any other Bonds hereafter issued pursuant to the Indenture are secured equally and ratably by a pledge of (i) the Net Revenues, (ii) all moneys in funds and accounts held by the Trustee under the Indenture (except the Rebate Fund), and (iii) all other rights granted under the Indenture. The Series 2011 Bonds are special limited obligations of the City and are payable exclusively from the Net Revenues, moneys, funds and accounts held under the Indenture. As defined under the Indenture, "Net Revenues" means the Revenues after provision has been made for the payment therefrom from Operation and Maintenance Expenses.

"Revenues" means all revenues, fees, impact fees (to the extent legally pledged by the City with respect to gas and electric improvements financed with Bond proceeds), income, rents and receipts received or earned by the City from or attributable to the ownership and operation of the System (including proceeds of business interruption insurance), together with all interest earned by and profits derived from the sale of investments in the related funds thereof.

"Operation and Maintenance Expenses" means all expenses reasonably incurred in connection with the operation and maintenance of the System, whether incurred by the City or paid to any other entity pursuant to contract or otherwise, necessary to keep the System in efficient operating condition, including the cost of required audits, payment of promotional and marketing expenses and real estate brokerage fees, payment of premiums for required insurance, fees, premiums and expenses of any debt service reserve fund guarantees or other credit enhancement on the Bonds, rebatable arbitrage on the Bonds and, generally all expenses, exclusive of depreciation (including depreciation related expenses of any joint venture) and, any in-lieu of tax transfers to City funds and interest expense for interfund loans from City funds, which under generally accepted accounting practices are properly allocable to operation and maintenance; however, only such expenses as are reasonably and properly necessary to the efficient operation and maintenance of the System shall be included.

*Neither the faith and credit nor the taxing power of the City is pledged as security for the Series 2011 Bonds. The Series 2011 Bonds do not constitute general obligations of the City or of any other entity or body, municipal, state or otherwise. The Indenture does not pledge any System properties.*

For a description of the System, rates and charges for services provided by the System and moneys available for use in connection with the System, see "THE SYSTEM" and "THE SYSTEM—Rates" herein.

### Debt Service Reserve

The Indenture establishes a Debt Service Reserve Requirement and an account in the Debt Service Reserve Fund with respect to the Series 2011 Bonds. Initially the Debt Service Reserve Requirement for the Series 2011 Bonds will be \$\_\_\_\_\_ and will be funded with the Reserve Policy. The Reserve Policy constitutes a Reserve Instrument under the Indenture. The Series 2011 Bonds will only be delivered upon the issuance of such Reserve Policy. The premium on the Reserve Policy is to be fully paid at or prior to the issuance and delivery of the Series 2011 Bonds.

The account in the Debt Service Reserve Fund for the Series 2011 Bonds secures only the Series 2011 Bonds and may not be drawn upon to pay debt service on any other Series of Bonds outstanding under the Indenture. In connection with the issuance of Additional Bonds under the Indenture, the City shall establish an account in the Debt Service Reserve Fund for such Additional Bonds and shall fund such account in an amount equal to the Debt Service Reserve Requirement for said Additional Bonds. Additional Bonds will be secured by a separate account in the Debt Service Reserve Fund.

In the event funds on deposit in the account in the Debt Service Reserve Fund for the Series 2011 Bonds are needed to make up any deficiencies in the Bond Fund for the Series 2011 Bonds, amounts available in such account shall be transferred to the Bond Fund for such purposes and the City will be required to restore the Debt

Service Reserve Fund for the Series 2011 Bonds from Net Revenues within one year with twelve substantially equal payments.

Funds on deposit in the accounts in Debt Service Reserve Fund in excess of the amount required to be maintained therein will be transferred to the Bond Fund at least once each year. Moneys held in the Debt Service Reserve Fund shall be invested, at the direction of the City, in Qualified Investments.

#### **Flow of Funds**

All Revenues shall be accounted for and maintained by the City separate and apart from all other accounts of the City and which shall be expended and used by the City only in the manner and order of priority specified below:

- (a) First, to pay all Operation and Maintenance Expenses of the System as the same become due and payable;
- (b) Second, to pay the principal of, premium, if any, and interest on all Bonds outstanding under the Indenture;
- (c) Third, to the extent the Debt Service Reserve Requirement is not funded with a Reserve Instrument or Instruments, to make all payments to the account in the Debt Service Reserve Fund and, as applicable, to the Reserve Instrument Fund in the amount required by the Indenture to be on deposit therein;
- (d) Fourth, to deposit in the Repair and Replacement Fund any amount required by the Indenture, if any, to accumulate therein the Repair and Replacement Reserve Requirement (which Repair and Replacement Fund is not required to be funded in connection with the issuance of the Series 2011 Bonds);
- (e) Any excess Net Revenues remaining after making the foregoing deposits are to be used for (i) the redemption of Bonds for cancellation prior to maturity by depositing the same into the Bond Fund, (ii) the refinancing, refunding, or advance refunding of any Bonds, or (iii) for any other lawful purpose; and
- (f) The Net Revenues remaining after the foregoing deposits and transfers and not required to be used for remedying any defaults in the payments previously made into the funds described above may be used at any time for any lawful purpose.

#### **Rate Covenant**

So long as any Bonds or any Repayment Obligations are Outstanding, the rates, including connection fees, for all services supplied by the System to all customers within or without the boundaries of the City when combined with other Revenues, shall be sufficient to pay the Operation and Maintenance Expenses for the System, and to provide Net Revenues for each Bond Fund Year of not less than 125% of the Aggregate Annual Debt Service Requirement for such Bond Fund Year plus an amount sufficient to fund the Debt Service Reserve Fund in the time, rate and manner specified in the Indenture; provided, however, that such rates must be reasonable rates for the type, kind and character of the service rendered. There shall be no free gas or electric service, and such rates shall be charged against all users of the System, including the City. The City agrees that should its annual financial statements disclose that during the period covered by such financial statements the Net Revenues were not at least equal to the above requirement, the City shall request that a Qualified Engineer make recommendations as to the revision of the rates, charges and fees and that the City, on the basis of such recommendations, will revise the schedule of rates, charges and fees insofar as is practicable and further revise Operation and Maintenance Expenses so as to produce the necessary Net Revenues as required in the Indenture.

“Aggregate Annual Debt Service Requirement” means the total Debt Service (including any Repayment Obligations) for any one Bond Fund Year (or other specific period) on all Series of Bonds Outstanding or any specified portion thereof.

The rates and charges imposed by the City are not subject to approval or regulation by any governmental entity or agency within the State of Utah (the “State”). For a discussion of the rates and charges imposed by the City with respect to the System and for a comparison of rates and charges imposed by other municipalities located near the City, please see “THE SYSTEM—Rates” herein.

#### **Outstanding Parity Bonds**

The City has previously issued the Outstanding Parity Bonds which are currently outstanding in the aggregate principal amount of \$19,275,000. Said Bonds were issued to finance certain improvements to the System and refund certain prior obligations. The Outstanding Parity Bonds are payable from and secured by the Net Revenues on a parity with the Series 2011 Bonds.

#### **Additional Bonds**

The City is permitted to issue Additional Bonds secured by the Net Revenues in accordance with the terms of the Indenture. See “APPENDIX B—EXTRACTS OF CERTAIN PROVISIONS OF THE INDENTURE—Additional Bonds.” The City does not have any current plans to issue any Additional Bonds within the next three years.

### **BOND INSURANCE**

#### **Bond Insurance Policy**

Concurrently with the issuance of the Series 2011 Bonds, Assured Guaranty Municipal Corp. (“AGM” or the “Insurer”) will issue its Municipal Bond Insurance Policy for the Series 2011 Bonds (the “Policy”). The Policy guarantees the scheduled payment of principal of and interest on the Series 2011 Bonds when due as set forth in the form of the Policy included as APPENDIX G to this Official Statement.

The Policy is not covered by any insurance security or guaranty fund established under New York, California, Connecticut or Florida insurance law.

#### **The Insurer**

AGM is a New York domiciled financial guaranty insurance company and a wholly owned subsidiary of Assured Guaranty Municipal Holdings Inc. (“Holdings”). Holdings is an indirect subsidiary of Assured Guaranty Ltd. (“AGL”), a Bermuda-based holding company whose shares are publicly traded and are listed on the New York Stock Exchange under the symbol “AGO.” AGL, through its operating subsidiaries, provides credit enhancement products to the U.S. and global public finance, infrastructure and structured finance markets. No shareholder of AGL, Holdings or AGM is liable for the obligations of AGM.

AGM’s financial strength is rated “AA+” (stable outlook) by Standard and Poor’s Ratings Services, a Standard & Poor’s Financial Services LLC business (“S&P”) and “Aa3” (negative outlook) by Moody’s Investors Service, Inc. (“Moody’s”). An explanation of the significance of the above ratings may be obtained from the applicable rating agency. The above ratings are not recommendations to buy, sell or hold any security, and such ratings are subject to revision or withdrawal at any time by the rating agencies, including withdrawal initiated at the request of AGM in its sole discretion. Any downward revision or withdrawal of any of the above ratings may have an adverse effect on the market price of any security guaranteed by AGM. AGM does not guarantee the market price of the securities it insures, nor does it guarantee that the ratings on such securities will not be revised or withdrawn.

### *Current Financial Strength Ratings*

On June 13, 2011, S&P issued a release stating that it had affirmed the “AA+” financial strength rating of AGM, with a stable outlook. Reference is made to the release, a copy of which is available at [www.standardandpoors.com](http://www.standardandpoors.com), for the complete text of S&P’s comments.

On January 24, 2011, S&P published a Request for Comment: Bond Insurance Criteria (the “Bond Insurance RFC”) in which it requested comments on its proposed changes to its bond insurance ratings criteria. In the Bond Insurance RFC, S&P notes that it could lower its financial strength ratings on existing investment-grade bond insurers (including AGM) by one or more rating categories if the proposed bond insurance ratings criteria are adopted, unless those bond insurers (including AGM) raise additional capital or reduce risk. Reference is made to the Bond Insurance RFC, a copy of which is available at [www.standardandpoors.com](http://www.standardandpoors.com), for the complete text of S&P’s comments.

On December 18, 2009, Moody’s issued a press release stating that it had affirmed the “Aa3” insurance financial strength rating of AGM, with a negative outlook. Reference is made to the press release, a copy of which is available at [www.moody.com](http://www.moody.com), for the complete text of Moody’s comments.

There can be no assurance as to any further ratings action that Moody’s or S&P may take with respect to AGM.

For more information regarding AGM’s financial strength ratings and the risks relating thereto, see AGL’s Annual Report on Form 10-K for the fiscal year ended December 31, 2010, which was filed by AGL with the Securities and Exchange Commission (the “SEC”) on March 1, 2011, and AGL’s Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2011, which was filed by AGL with the SEC on May 10, 2011.

### *Capitalization of AGM*

At March 31, 2011, AGM’s consolidated policyholders’ surplus and contingency reserves were approximately \$3,058,791,206 and its total net unearned premium reserve was approximately \$2,285,987,748, in each case, in accordance with statutory accounting principles.

## THE SYSTEM

### General

The City owns and operates the Electric System and the Gas System which together constitute the System. Set forth below is a description of both the Electric System and the Gas System. As stated elsewhere in this Official Statement, the Net Revenues generated from the operation of the System are pledged to pay principal of and interest on the Bonds.

### The Electric System

Facilities. The Electric System consists of a 138kV transmission line, 138kV interconnection substation, 138–12.47Y/7.2kV north substation, and 12.47Y/7.2kV distribution system. The Electric System presently includes approximately 150 miles of 138kV overhead transmission and 12.47Y/7.2kV overhead and underground distribution. Most of the existing distribution system is installed underground. The City's 138kV overhead transmission line is connected to a PacifiCorp 138kV overhead transmission line at the interconnection substation.

The Electrical System currently supplies up to 21 MW during the summertime. The City's current substation is capable of reliably supplying up to 33 MW. The existing transmission line and interconnection substation have the capacity to handle up to 170 MW.

As part of the Series 2011 Project, the City will construct a new substation in the southern portion of the City and a new 138kV transmission line. With the completion of the south substation, the distribution system will be able to supply an additional 33 MW for a total distribution system capacity of 66 MW. Completion of the 138kV transmission line will provide a redundant source of power delivery to the City in case of equipment failure or damage to the existing 138 kV line.

Operations. The City currently employs a staff of seven full-time employees to operate and maintain the Electric System. The Electric System has received recognition for its innovation in operating and maintaining a reliable and efficient power system. It has also received awards such as the Utah Associated Municipal Power Systems System Improvements Award 2009, UAMPS Smart Energy Innovation Award 2010, and Intermountain Power Superintendant Association 1st Place Safety Award 2009-2010 with no lost time accidents. The City is also a member of the American Public Power Association.

*Adam Ferre* serves as the City's Energy Division Director. As Energy Division Director, Mr. Ferre oversees the management of the System. Mr. Ferre has worked in the City since its incorporation in 1996. As an employee of Tasco Engineering, he was part of the team that installed the City's energy utilities in 1997. He has been an employee of the City since March 1999. Mr. Ferre attended Utah Valley State College and Northwest Lineman College and earned a Journeyman Lineman Degree. He also sits on the board of directors for the Utah Association of Municipal Power Systems.

*John Hendrickson* is the City Administrator. Mr. Hendrickson has over 35 years experience in city management, having served in California, Idaho, Wyoming, and Utah. He has served as City Administrator the last four years and has helped guide the City's rapid growth and build its infrastructure capabilities to more than double their former capacity. He has been involved in the formation of several electrical management organizations including UAMPS, Southern Utah Valley Power Authority and the Tri-State Intervention Group. He helped negotiate the first power exchange agreement with Bonneville Power Administration in 1981 and has worked with several federal power agencies on electrical issues. Mr. Hendrickson has a Bachelor of Science Degree (Zoology) and a Master of Public Administration Degree from Brigham Young University. Prior to his city management career, Mr. Hendrickson worked for the Central Intelligence Agency, military intelligence, and the Environmental Protection Agency.

Power Supplies. In 2005, the City entered into a power purchase agreement (the "Power Purchase Agreement") with Utah Municipal Power Agency (the "Agency"), an interlocal agency made up of various Utah municipalities. However, the City is not a member of the Agency. The Agency manages all of the power resources

of its member cities, the largest of those being Provo, Utah. The total electric resource of the Agency far exceeds the demand of its member cities, thereby allowing the Agency to market excess power. The City, through its membership with Utah Associated Municipal Power Systems ("UAMPS") has the ability to enter into energy purchase agreements with the Agency for the Agency's excess power. As previously stated, the City has availed itself of that opportunity by entering into the Power Purchase Agreement. The Power Purchase Agreement is currently under negotiation for renewal and extension through June 30, 2015, with renewal thereafter on a year to year basis. The City anticipates all of its current energy requirements will be satisfied pursuant to the Power Purchase Agreement and does not anticipate any difficulties finalizing the same.

The City also has the ability to purchase electric power and energy through its membership in UAMPS, a Utah interlocal cooperative and a separate legal entity and a political subdivision of the State. UAMPS currently consists of 45 members in eight states and was created pursuant to a July 19, 1998 agreement (the "UAMPS Agreement") which includes two separate appendices that provide for different ways to purchase power (respectively, "Appendix 1" and "Appendix 2"). Under Appendix 1 arrangements, UAMPS purchases power for the City on the spot market and provides that power to the City over PacifiCorp's system to the City's distribution system. Under the arrangements in Appendix 2, the City is able to purchase power at a fixed price and at a rate consistent with the cost of power to other power participants in the Intermountain Power Project. Power available under Appendix 2 is purchased in blocks for specific periods of time at a fixed rate which is generally lower than the spot market purchase rate. Appendix 2 is what allows the City to purchase power from the Agency since that power is delivered pursuant to operational arrangements between the Agency and UAMPS. Power purchased from the Agency or UAMPS is wheeled by UAMPS to the City's electric distribution system through facilities owned by PacifiCorp pursuant to regulations promulgated under the Federal Energy Regulatory Commission ("FERC") rules.

Power Pooling Agreement. UAMPS has entered into power pooling agreements (the "Pooling Agreements") with 40 of its 45 members, including the City (collectively, the "Pool Participants") pursuant to which UAMPS acts as agent of each Pool Participant for: (1) the scheduling and dispatch of power and energy; (2) the purchase of any power and energy required to meet such Pool Participant's electric system loads or to provide reserves therefor; (3) the sale of any power and energy available to a Pool Participant which is deemed surplus to meet its electric system loads; (4) the utilization of transmission rights and provision of transmission service to effect power and energy deliveries to, and sales by, each Pool Participant; (5) the administration of payments with respect to each Pool Participant's purchase and sale of power and energy and transmission services; and (6) conducting power supply and transmission studies and developing of programs for the acquisition or construction of power and transmission resources.

Under the Pooling Agreements, each Pool Participant may purchase from the pool all of its power and energy requirements in excess of its purchased or owned resources. Power supplied by the pool is priced according to whether the purchase is "planned" or "unplanned" within the meaning of the Pooling Agreements. "Planned" purchases are those amounts of power and/or energy that a Pool Participant has scheduled through UAMPS at least one hour before such power and/or energy is required. Planned purchases are sold on a firm basis with the price based upon negotiation at the time the power and/or energy is scheduled. "Unplanned" purchases are those amounts of power and/or energy that the Pool Participant required, as determined by the Pool Participant's meter(s), which do not come from the Pool Participant's own resources, including planned purchases under the Pooling Agreements.

Each Pool Participant may participate in the "All-In Cost Pool" that provides for participants to sell surplus resources at the all-in cost or purchase their deficit resource needs at an all-in cost from other participants. After all of the participants have satisfied their resource needs, any unutilized resource surplus is purchased by the unplanned pool and any deficit resource need is purchased from the unplanned pool. In addition to the Power Pool, UAMPS operates a power exchange through which its members are able to enter into forward transactions with one another or with UAMPS for the purchase and sale of power and energy.

The resources presently dedicated to the UAMPS Power Pool consist of power and energy from the following resources: (1) the Pool Participants' allocations of Colorado River Storage Project power and energy; (2) electric generating facilities owned and operated by certain of the Pool Participants; (3) power and energy generated by UAMPS' at generating stations located in San Juan, New Mexico, Hunter, Utah, and Payson, Utah; (4) power and energy purchased by UAMPS under long-term firm power purchase contracts with various wholesale suppliers;

and (5) non-firm contracts with, and market purchases from, power suppliers, marketers and others throughout the West.

Future Additional Sources. The City has decided to participate in the Horse Butte Wind Project of UAMPS. The Horse Butte Wind Project consists of UAMPS' right to purchase all of the output of a 57.6 MW wind powered electric generating facility located on over 17,000 acres of land in Bonneville County, Idaho, just outside of Idaho Falls, Idaho. The Horse Butt Wind Project is currently under construction and UAMPS is acting as the developer of the project. Commercial operation of the Horse Butte Wind Project is expected in December 2011.

The output of the Horse Butte Wind Project will be sold by UAMPS to members of UAMPS who have decided to participate in the project, including the City. The City has committed to acquire 5 MW of power from the Horse Butte Wind Project under a power sales contract pursuant to which the City has agreed to make payments to UAMPS in respect of all of the costs of the Horse Butte Wind Project on a "take-or-pay" basis and in amounts proportionate to the City's entitlement share in the Horse Butte Wind Project. The payment obligations of the City under the Horse Butte Wind Project power sales contracts constitute operating expenses of the City's Electric System, payable solely from the available revenues of the related system prior to payment of debt service on the Bonds. The City expects to pay approximately \$1,060,000 per annum for its purchase of power from the Horse Butte Wind Project. The purchase of power from this source will decrease purchases from other sources.

Electric System Customers. The following table sets forth the number and type of customers (reflected in ERUs) served by the Electric System for the fiscal years set forth below:

<u>Fiscal Year</u>	<u>Residential</u>	<u>Commercial</u>	<u>Total</u>

Electric System Requirements and Cost. The City's cost to purchase electric power and energy is dependent upon its overall and peak demand requirements during each month and the cost per kWh charged by its electric power providers. Prior to July 1, 2005, the City purchased its electric power and energy under the UAMPS Agreement. The cost to purchase such power was fixed on a per kWh basis during the months of July through September each year and varied during the remaining months of the year. Under the Power Purchase Agreement, the City's cost to purchase power is fixed on a per kWh basis all year long. Energy is purchased on a calendar-month basis while energy is sold on a variable month-to-month basis. Thus, it is not possible to compare the monthly amount of energy purchased with the amount sold. The following table sets forth the total energy purchased by the City and its cost for such energy for each month indicated for the period ending June 30, 2010.

Electric System Sales. The total sales to the Electric System customers for the Fiscal Years ending June 30, 2009, 2010, and 2011 (unaudited) amounted to 52,030,849 kWh, 57,713,091 kWh, and 58,023,643 kWh, respectively. The revenues from such energy sales for the fiscal years ending June 30, 2009, 2010, and 2011 (unaudited) totaled \$5,645,855, \$5,978,503, and \$6,257,045, respectively. The following tables set forth the customer sales by class for the fiscal years ending June 30, 2009, 2010, and 2011 (unaudited):

Fiscal Year Ending June 30, 2009

	<u>kWh Sales<sup>(1)</sup></u>	<u>Revenues<sup>(2)</sup></u>

Total:	58,023,643	\$6,257,045

<sup>(1)</sup> Consumption (kWh Sales) does not include final billings and other billings outside of the City's normal billing cycles.

<sup>(2)</sup> Revenues are net of any adjustments made to individual accounts (i.e., results of billing disputes) which will affect total revenues. No adjustment has been made to kWh consumption to reflect a corresponding adjustment to revenues. Therefore, a simple calculation to multiply consumption by the rate for energy to arrive at the sales figure will be erroneous.

<sup>(3)</sup> Figures for fiscal year 2011 are unaudited and subject to change.

### **The Gas System**

Facilities. The Gas System includes a 6-inch high pressure gas line that serves as a distribution line from the Kern River Gas Tap located in the southern area of the City. The City has entered into a contract with the Kern River Pipeline Company to provide a constant gas supply to the City. The construction of a tap to the Kern River gas line, regulator stations, and 6-inch steel gas line from the tap to the northern portion of the City were financed with proceeds of prior bonds and the proceeds of an assessment bond issued in connection with the creation of a special improvement district. The Gas System currently serves approximately 5,524 ERUs. The City's current distribution system has the capacity to serve approximately 25,000 ERUs. The total capacity of the 6-inch high pressure gas line is approximately 50,000 ERUs.

Gas Supply. The City entered into a Natural Gas Sales Agreement on June 5, 1998 (the "Natural Gas Agreement") with Wasatch Energy Corporation, a gas marketer ("Wasatch"). Wasatch has since been acquired by British Petroleum ("BP") and the Natural Gas Sales Agreement was renegotiated in November 2010. The Natural Gas Agreement can be canceled by the City or BP upon 30 days written notice. Pursuant to the Natural Gas Sales Agreement, the City and BP will reach agreement on the quantities of natural gas to be purchased and sold during a particular period and the purchase price therefor. Historically, the City has purchased gas on a month to month basis at a rate in effect for that particular month.

Natural gas is delivered to the City by way of the Kern River Pipeline pursuant to an Operating Agreement dated May 12, 1998 (the "Gas Delivery Agreement") between the City and Kern River Gas Transmission Company ("Kern River"). The Gas Delivery Agreement remains in full force and effect until such time that either (1) Kern River is ordered by the Federal Energy Regulatory Commission to abandon such facilities or (2) Kern River, at its sole discretion, upon 180 days written notice, elects to terminate the Gas Delivery Agreement. Pursuant to the Gas Delivery Agreement the City has a flow range consisting of a minimum flow of 50 decatherms ("DTH") per day at 1,050 pounds per square inch gauge ("psig") and a maximum flow of 1,600 DTH per day at 650 psig. The maximum rate for such transportation is the posted full rate for firm transportation on the Kern River pipeline, plus fuel and fees. Such costs, including any discounts, are passed on to the City by BP.

The cost of natural gas fluctuates from year to year and seasonally during the year. The cost of natural gas increases during the winter months. The fluctuations are part of the instability of the gas market due to supply and demand forces. The impact of instability can be reduced through the execution of long-term gas supply contracts, although such long-term contracts do not allow the purchasers to gain any benefit in the event gas prices decrease. Pursuant to the Natural Gas Sales Agreement, the City can establish purchase periods of varying terms. The City monitors the gas markets and attempts to establish gas purchase periods pursuant to the Natural Gas Sales Agreement at prices that will be beneficial to the users of the Gas System.

Operations. The City staff operates and maintains the Gas System.

Gas System Customers. The following table sets forth the number and type of customers (reflected in ERUs) served by the Gas System for the Fiscal Years set forth:

Gas Demand Requirements and Cost. The City's cost to purchase natural gas is dependent upon its overall requirements during each month and the cost per DTH charged by its natural gas provider. Natural gas is purchased on a calendar-month basis but sold on a variable month-to-month basis, thus it is not possible to compare the monthly amount of natural gas purchased with the amount sold. The following table sets forth the total gas purchased by the City and its cost for such gas for each month indicated for the period ending June 30, 2010:

<u>Month</u>	<u>Total Gas Purchased (DTH)</u>	<u>Total Cost Per DTH</u>	<u>Total Gas Cost (\$)</u>	<u>No. of Connections</u>	<u>Average Cost per Connection</u>

Natural Gas Sales. The total sales to Gas System customers for the Fiscal Years ending June 30, 2009, 2010, and 2011 (unaudited) amounted to 381,657 DTH, 441,629 DTH, and 491,507, respectively. The revenues from such gas sales for the Fiscal Years ending June 30, 2009, 2010, and 2011 (unaudited) totaled \$4,389,328, \$4,429,397, and \$4,798,115, respectively. The following tables set forth the customer sales by class for the Fiscal Years ending June 30, 2009 and 2010 (customer sales by class are not currently available for Fiscal Year 2011):

(1) Consumption (DTH Sales) does not include final billings and other billings outside of the City's normal billing cycles.

(2) Revenues are net of any adjustments made.

Note: The City uses special multipliers for each type of gas meter used in order to determine the amount billed and charged. A simple calculation to multiply consumption by the gas rate to arrive at the sales figure will be erroneous without the special multiplier.

## Rates

As described above under "SECURITY FOR THE BONDS—Rate Covenant," the City has covenanted in the Indenture that it will establish and continue in effect at all times while Bonds are outstanding, rates and charges for System services which are reasonably expected to yield Net Revenues at least equal to 125% of the Aggregate Annual Debt Service on all outstanding Bonds.

Rates and charges for System services are established by the City Council and are not subject to review or approval by any federal or state regulatory agency.

The City adopted its current rate structure on July 1, 2010. The following table sets forth the current rates and charges imposed by the City for the services offered by the System.

<u>Utility</u>		<u>Usage Rate</u>	<u>Connection Fee</u>	<u>Effective Impact Fee</u>
Electric	Base Rate (Res./Com.):	\$9.00/\$25.00 mo.	\$989.10/Connection	\$2,215/Connection
	Usage Rate (Res./Com.):	\$0.0995/\$0.0687/kWh		
Gas	Base Rate:	\$16.00/mo.	\$1,167.96/Connection	\$0*/Connection
	Usage Rate:	\$8.00/DTH		

\* The City is not authorized to charge impact fees for the Gas System according to the Utah Impact Fee Law.

The City employs a combined billing statement for all of its utilities, including the System. Customer accounts are due and payable by the end of the month in which the billing occurred. Customers who do not pay the full amount of the bill within the allotted time period are in default and are subject to disconnection and collection of the delinquent amounts.

Each utility invoice not paid when due is considered delinquent and the delinquent customer is provided a final account notice the month following the due date. Any unpaid balance from the prior month becomes delinquent at the time the next bill is generated, is assessed a \$25 late fee, and is sent a notice alerting the user to the possibility of a disruption in services if not paid. Customers are invited to contact City staff during the final account notice period to arrange a deferred payment schedule which may be approved by the City. Services terminated for non-payment of delinquent accounts shall not be reinstated until payment of the delinquent account is received or an acceptable deferred payment contract is approved by the City and the initial payment required under the deferred payment schedule is received by the City together with the reconnect fee of \$50 to reimburse the City for the professional services necessary to reinstate the utility service. A deferred payment schedule contract may be entered with a delinquent customer, provided that the deferred payment schedule does not extend for a period of more than one year, provides for a specific amount to be paid each month together with interest at the rate of 1 % per month. Customers who do not comply with the terms of an executed deferred payment schedule contract are subject to termination of service after the City provides the final account notice. Service terminated after default on a deferred payment contract form shall not be reinstated until the entire past due amount is paid in full. The City may, at its discretion, require an additional utility deposit be paid up to an amount equal to two times the average monthly billing for the utility service.

The City reports that less than 2% of its utility receivable accounts become uncollectable. The City's utility "shut-off" procedures ensure that most customers' accounts do not become excessively large before they are collected. Delinquent accounts are submitted to the City's collection agency at 90 days past due.

## Comparable Rates

The following table sets forth the gas and electric rates for municipalities located near the City. The rates and charges tend to vary from the City's due to several factors, including age of the respective systems and existing prior contractual commitments for purchase of these resources at rates that are not currently available.

### **Impact Fees**

Under State law, a municipality is allowed to impose impact fees in connection with the operation of public utilities. "Impact fees" are defined to mean a payment of money imposed upon development activity as a condition of development approval to mitigate the impact of the new development on public infrastructure. The impact fee must be a reasonable charge for the facilities provided. Before imposing an impact fee, a municipality must establish an impact fee facilities plan that identifies the demands placed upon existing public facilities by new development activity and the proposed means by which the municipality will meet those demands. Municipalities may only expend impact fees for (i) system improvements for public facilities identified in the impact fee facilities plan, (ii) system improvements for the specific public facility type for which the fee was collected, or (iii) debt service on obligations used to finance such system improvements. The impact fees cannot be used to pay operation and maintenance expenses of the related public facility.

In 1998, the City adopted an impact fee ordinance imposing impact fees as a condition of development approval for its utilities and for some public facilities, such as streets. The 1998 Impact Fee Ordinance was revised in 1999 and re-enacted in February 2000 to significantly reduce impact fees and to require direct developer contributions for public facilities in substitution for facilities financed by the City using impact fees. Impact fees on telephone and gas public facilities were also eliminated because under the Utah Impact Fee Act, the City is not authorized to charge impact fees for these utilities. The City reviews and revises its impact fee schedule from time to time to reflect the growth of development and the cost to pay for future infrastructure in the City and to assure that developers pay a fair share of the debt service for new electric facilities in the future. Impact fees can be dedicated specifically to debt service on bonds.

#### **Licenses, Permits and Approvals**

The City reports that it holds all licenses, permits and approvals necessary for the operation of the System. The City has applied to the Bureau of Land Management ("BLM") for a permit relating to the construction a new transmission line (part of the Series 2011 Project) that will be constructed on federal land. The City expects to receive BLM approval in time to begin construction in the fall of 2011.

## Management's Discussion and Analysis of Revenues

The City's audited financial statements for the Fiscal Year ending June 30, 2010 and the auditors' report thereon in APPENDIX A of this Official Statement contain a Management Discussion and Analysis in connection with the annual financial report of the City.

The operating results of the System reflect the results of past operations and are not necessarily indicative of results of operations for any future period. Future operations will be affected by factors relating to changes in rates, fuel and other operating costs, utility industry regulation and deregulation, environmental regulation, economic growth of the community, population, weather and other matters, the nature and effect of which cannot at present be determined. See "FORWARD-LOOKING STATEMENTS."

All revenues of the City are accounted for within the General Fund, Special Revenue Funds, or Enterprise Funds. The General Fund includes governmental services such as municipal administration, law enforcement and emergency services, planning and building services, streets maintenance, parks and recreation, and various community and cultural programs. The Special Revenue Funds consist of four separate Special Improvement Districts (SIDs), which were created to fund certain City infrastructure and landscaping needs through special assessments of property owners within each of the SIDs. The Enterprise Funds account for the public utility operations of the City, including water, sewer, electric power, natural gas energy, and telecommunications services.

General Fund. Revenues in the General Fund increased approximately 63% from FY 2005 to FY 2006, increased approximately 28.5% from FY 2006 to FY 2007, decreased approximately 26% from FY 2007 to FY 2008, and decreased approximately 2% from FY 2008 to FY 2009. The decrease in revenue from FY 2007 to FY 2008 was due mainly to decreases in licenses and permits as well as the fact that impact fees are now recorded as Non-major Governmental Revenue. In FY 2009, charges for services and Intergovernmental revenue increased while taxes, licenses and permits decreased. General Fund revenues increased approximately 7.5% from FY 2009 to FY 2010. That increase was due to revenue stream increases across the board. The City anticipates General Fund revenue growth to remain constant for the next one or two years. This reflects the stabilization of the national economy and the effect that should have on development and building activity in the city which mirrors the national trend.

The City has experienced an increase in sales tax revenue as well as road fund revenue received from the State. Property tax revenue is expected to decrease as a percentage of total General Fund revenue as new residential, and to a lesser extent, commercial property suffers affects from the current economic conditions.

Special Revenue Funds. The City received \$4,166,034 in special assessments and other related miscellaneous revenue in FY 2005, and \$7,606,561 in FY 2006, \$7,198,224 in FY 2007, \$585,043 in FY 2008, \$419,457 in FY 2009, and \$657,738 in FY 2010. This is restricted revenue that is pledged for repayment of special assessment bonds.

At the end of Fiscal Year 2010, the City had two special assessment bond issues outstanding: \$4,224,000 Town of Eagle Mountain Special Assessment Bonds Series 2006 (SID 2000-1) and the \$1,396,000 Eagle Mountain City Special Assessment Refunding Bonds, Series 2005A (SID 98-1). The Special Assessment Bond 1998-3 was paid off during FY 2008. The City may create additional special assessment districts and issue special assessment bonds in the future to finance certain infrastructure improvements.

Enterprise Funds. Operating revenues for the combined Enterprise Funds, which consist of the Water, Sewer, Electric, Natural Gas, and Solid Waste Collection, are generated from utility usage charges, connection fees, investment earnings, and other miscellaneous sources. Combined Enterprise Fund operating revenue increased approximately 27% from FY 2005 to FY 2006, 18% from FY 2006 to FY 2007, 13% from FY 2007 to FY 2008, decreased 8.3% from FY 2008 to FY 2009, and increased 13% from FY 2009 to FY 2010. This increase in revenue was basically due to the stabilization of the current market conditions have had on residential and commercial occupation of property within the city. The City estimates that new utility connections will grow at an average rate of approximately 10 connections per month, resulting in combined Enterprise Fund operating revenue growth at a comparatively modest rate of about 5% in FY 2011.

Electric and Natural Gas Funds Operating Revenue and Expenses. Electric Fund operating revenue increased, 39% from FY 2005 to FY 2006, and 28% from FY 2006 to FY 2007, 13% from FY 2007 to FY 2008, decreased 10% from FY 2008 to FY 2009 and increased 15% from FY 2009 to FY 2010. Natural Gas Fund operating revenue increased 39% from FY 2004 to FY 2005, 60% from FY 2005 to FY 2006, 25% from FY 2006 to FY 2007, 12.5% from FY 2007 to FY 2008, decreased 10% from FY 2008 to FY 2009, and 9% from FY 2009 to FY 2010. The revenue increases from FY 2004 to FY 2009 correspond to an increase from approximately 2,511 electric connections and 2,324 natural gas connections in service at the end of FY 2004 to 5,221 electric and 5,110 gas connections in service at the end of FY 2009. The increase from FY 2009 to FY 2010 represents increases in connections as well as higher occupation rates due to the stabilization of the national economy. Electric and Natural Gas combined revenues are projected to increase about 5% in FY 2010. Revenue growth projections are subject to weather conditions and the economy.

## EAGLE MOUNTAIN CITY

### Introduction

Eagle Mountain City was incorporated December 3, 1996. The City covers approximately 52.7 square miles. Prior to incorporation, the City consisted of two residential subdivisions with agriculture being the predominant land use. As of the date of its incorporation, the City had an initial population of 175 people. As of June 30, 2010, the City's population was approximately 24,000 people. The City estimates that it is currently 15% built out and estimates reaching full build-out in the next 50 years with a population of 225,000. The City is located in Utah County, 30 miles northwest of Provo City and approximately 40 miles southwest of Salt Lake City, Utah and Salt Lake Counties are the two most populated counties in the State.

### Existing and Contemplated Development

At incorporation, the City had no commercial center. The City now has one business park with real estate offices and medical offices. The City has issued 69 building permits year-to-date (as of June 30, 2011). During the calendar year 2010, the City issued a total of 209 building permits.

### Utilities

In addition to the System, the City currently owns and operates the water, sewer and telecommunications utilities (each a "Utility" and collectively, the "Utilities") serving the City. The City has completed expansion of water, electrical power and natural gas systems to meet the required utility capacity. All Utility facilities are maintained and operated by City employees or by independent contractors under management contracts with the City.

### Form of Government

Utah statutes detail the functions to be performed by Utah municipalities. The City is organized under general law and governed by a Mayor and five Council members elected for staggered four-year terms. The Mayor presides over all meetings.

Department heads are full-time employees of the City and responsible for day-to-day operations within the policy framework of the governing body. Department heads report to the City Administrator.

The principal powers and duties of Utah municipalities are to maintain law and order, abate nuisances, guard public health and sanitation, promote recreation, provide fire protection, and to construct and maintain streets, sidewalks, waterworks and sewers. Municipalities may also operate electric, natural gas and telecommunications systems. Municipalities also regulate commercial and residential development within their boundaries by means of zoning ordinances, building codes and licensing procedures.

Current members of the legislative body and city administration along with their respective terms in office are as follows:

## FINANCIAL INFORMATION

### Fund Structure; Accounting Basis

The accounts of the City are organized on the basis of funds or groups of accounts, each of which is considered to be a separate accounting entity. The operations of each fund or account group are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, fund balance, revenues and expenditures or expenses. The various funds are grouped by type in the combined financial statements.

Revenues and expenditures are recognized using the modified accrual basis of accounting in all governmental funds. Revenues are recognized in the accounting period in which they become both measurable and available. "Measurable" means that amounts can be reasonably determined within the current period. "Available" means that amounts are collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Revenues on cost-reimbursement grants are accrued when the related expenditures are incurred.

In proprietary funds, revenues and expenses are recognized using the accrual basis of accounting. Revenues are recognized in the accounting period in which they are earned and become measurable, and expenses are recognized in the period incurred. See "APPENDIX A—BASIC FINANCIAL STATEMENTS WITH INDEPENDENT AUDITOR'S REPORT FOR THE YEAR ENDED JUNE 30, 2010—Notes to the Financial Statements—Note 1—Summary of Significant Accounting Policies" below.

### Budget and Appropriation Process

The budget and appropriation process of the City is governed by the Uniform Fiscal Procedures Act for Utah Cities (the "Fiscal Procedures Act"). Pursuant to the Fiscal Procedures Act, the budget officer of the City is required to prepare budgets for the general fund, special revenue funds, debt service funds and capital improvement funds. These budgets are to provide a complete financial plan for the budget (ensuing fiscal) year. Each budget is required to specify, in tabular form, estimates of anticipated revenues and appropriations for expenditures. Under the Fiscal Procedures Act, the total of anticipated revenues must equal the total of appropriated expenditures.

On or before the first regular meeting of the City Council of the City in May of each year, the budget officer is required to submit to the City Council tentative budgets for all funds for the fiscal year commencing July 1. Various actual and estimated budget data are required to be set forth in the tentative budgets. The budget officer may revise the budget requests submitted by the heads of City departments, but must file these submissions with the City Council together with the tentative budget. The budget officer is required to estimate in the tentative budget the revenue from non-property tax sources available for each fund and the revenue from general property taxes required by each fund. The tentative budget is then tentatively adopted by the City Council, with any amendments or revisions that the City Council deems advisable prior to the public hearing on the tentative budget. After public notice and hearing, the tentative budget is adopted by the City Council, subject to further amendment or revisions by the City Council prior to adoption of the final budget.

Prior to June 22 in each year, the final budgets for all funds are adopted by the City Council. The Fiscal Procedures Act prohibits the City Council from making any appropriation in the final budget of any fund in excess of the estimated expendable revenue of such fund. The adopted final budget is subject to amendment by the City Council during the fiscal year. However, in order to increase the budget total of any fund, public notice and hearing must be provided. Intra- and inter- department transfers of appropriation balances are permitted upon compliance with the Fiscal Procedures Act.

The amount set forth in the final budget as the total amount of estimated revenue from property taxes constitutes the basis for determining the property tax levy to be set by the City Council for the succeeding tax year.

### **Employee Work Force and Retirement System**

The City currently employs approximately 75 full-time employees and approximately 31 part-time employees for a total employment of approximately 106 employees. The City is a member of the Utah State Retirement System and participates in a deferred compensation plan. The City does not currently have any unfunded pension liability. See "APPENDIX A— BASIC FINANCIAL STATEMENTS WITH INDEPENDENT AUDITOR'S REPORT FOR THE YEAR ENDED JUNE 30, 2010—Notes to the Financial Statements—Note 13— Retirement Plan" below. For more information regarding the Utah State Retirement Systems (of which the City is a member) and the funding status of its programs, see its annual report at its website [www.urs.org](http://www.urs.org).

### **Other Post-Employment Benefits**

The City reports that it has no liabilities relating to post-employment benefits.

### **Risk Management**

The City provides for its general liability risks through insurance contracts which are issued annually to private insurance underwriters. Property insurance is provided by individual policies of insurance. The City believes its risk management policies and coverages are normal and within acceptable coverage limits for the type of services the City provides. See "APPENDIX A— BASIC FINANCIAL STATEMENTS WITH INDEPENDENT AUDITOR'S REPORT FOR THE YEAR ENDED JUNE 30, 2010—Notes to the Financial Statements Note 12— Risk Management" below.

### **Investment of Funds**

Investment of Operating Funds: The Utah Money Management Act. The Utah Money Management Act, Title 51, Chapter 7, Utah Code Annotated 1953, as amended (the "Money Management Act"), governs the investment of all public funds held by public treasurers in the State of Utah (the "State"). It establishes criteria for investment of public funds with an emphasis on safety, liquidity, yield, matching strategy to fund objectives, and matching the term of investments to the availability of funds. The Money Management Act provides a limited list of approved investments including qualified in-state and permitted out-of-state financial institutions, approved government agency securities and investments in corporate securities carrying "top credit ratings." The Money Management Act also provides for pre-qualification of broker dealers by requiring that broker dealers agree in writing to comply with the Money Management Act and certify that they have read and understand the Money Management Act. The Money Management Act establishes the Money Management Council (the "Money Management Council") to exercise oversight of public deposits and investments. The law requires all securities to be delivered versus payment to the public treasurer's safekeeping bank. It requires diversification of investments, especially in securities of corporate issuers. Not more than 5% of the portfolio may be invested with any one issuer. Investments in mortgage pools and mortgage derivatives or any security making unscheduled periodic principal payments are prohibited. The Money Management Act also defines the State's prudent investor rules. The Money Management Council is comprised of five members appointed by the Governor of the State for terms of four years, after consultation with the State Treasurer and with the advice and consent of the State Senate.

The City is currently complying with all of the provisions of the Money Management Act for all City operating funds. A majority of City funds are invested in the Utah Public Treasurers' Investment Fund (the "Utah Treasurer's Fund"), as discussed below.

The Utah Public Treasurers' Investment Fund. The Utah Treasurers' Fund is a public treasurers' investment fund, established in 1981, and is managed by the Treasurer of the State of Utah. The Utah Treasurers' Fund invests to ensure safety of principal, liquidity and a competitive rate of return on short-term investments. All moneys transferred to the Utah Treasurers' Fund are promptly invested in securities authorized by the Money Management Act. Safe-keeping and audit controls for all investments owned by the Utah Treasurers' Fund must comply with the Money Management Act.

All investments in the Utah Treasurers' Fund must comply with the Money Management Act and rules of the Money Management Council. The Utah Treasurers' Fund invests primarily in money market securities including time certificates of deposit, top rated commercial paper, treasuries and certain agencies of the U.S. Government. The maximum weighted average adjusted life of the portfolio, by policy, is not to exceed 90 days. The maximum final maturity of any security purchased by the Utah Treasurers' Fund is limited to three years, except for a maximum maturity of five years is allowed for treasury or agency securities whose rate adjusts at least annually.

By law, investment transactions are conducted only through certified dealers, qualified depositories or directly with issuers of the securities. All securities purchased are delivered via payment to the custody of the State Treasurer or the State Treasurer's safekeeping bank, assuring a perfected interest in the securities. Securities owned by the Utah Treasurers' Fund are completely segregated from securities owned by the State. The State has no claim on assets owned by the Utah Treasurers' Fund except for any investment of State moneys in the Utah Treasurers' Fund. Deposits are not insured or otherwise guaranteed by the State.

Securities in the Utah Treasurers' Fund include certificates of deposit, commercial paper, short-term corporate notes, obligations of the U.S. Treasury and securities of certain agencies of the U.S. Government. These short-term securities must be rated "first tier" ("A-1," "P1," for short-term investments and "A" or better for long-term investments) by two nationally recognized statistical rating organizations, one of which must be Moody's Investors Service, Inc. or Standard & Poor's Ratings Group, a division of The McGraw-Hill Companies, Inc. These securities represent limited risks to governmental institutions investing with the Utah Treasurers' Fund. Variable rate securities in the Utah Treasurers' Fund must have an index or rate formula that has a correlation of at least 94% of the effective Federal Funds rate.

Investment activity of the State Treasurer in the management of the Utah Treasurer's Fund is reviewed monthly by the State's Money Management Council and audited by the State Auditor.

The City has never failed to pay principal and interest when due on any of its bonds, notes or other financial obligations.

**Future Debt Plans**

The City does not presently contemplate the issuance of additional Bonds in the next three years. However, the City reserves the right to issue additional bonds as its needs may require.

## BONDHOLDERS' RISKS

*The purchase of the Series 2011 Bonds involves certain investment risks that are discussed throughout this Official Statement.* No prospective purchaser of the Series 2011 Bonds should make a decision to purchase any of the Series 2011 Bonds without first reading and considering the entire Official Statement, including all Appendices, and making an independent evaluation of all such information. Certain of those investment risks are described below. The list of risks described below is not intended to be definitive or exhaustive and the order in which the following factors are presented is not intended to reflect the relative importance of any such risks.

### General

The Series 2011 Bonds are payable from and secured by a pledge and assignment of Net Revenues from the System and moneys on deposit in the funds and accounts held by the Trustee under the Indenture. Future economic and other conditions, the demand for gas and electric services within the City and the surrounding areas, economic and employment trends and events, demographic changes, changes in governmental regulations and policies and other factors may adversely affect the future financial condition of the System, and, consequently, the availability of Net Revenues. **No assurance can be made that the Net Revenues of the System will be realized by the City in amounts sufficient to pay debt service on the Series 2011 Bonds when due.**

### Operation of the System

In order for the City to make timely payment of the principal and interest requirements of the Series 2011 Bonds and to meet its other obligations under the Indenture, it will be necessary for the City to manage, operate and maintain the System in an efficient and economical manner that is consistent with prudent utility practice. The City is exempt from regulation by the Utah Public Service Commission but the operation of the System is subject to the requirements of various governmental rules and regulations and the System must be operated in compliance with these requirements. In the event that the System is not operated or is not capable of operation as required by the provisions of such governmental rules and regulations, the City may be subject to certain penalties.

In addition, the System is a relatively new enterprise and has a limited history of operation. The City believes that the System will be operated in a manner that will allow it to pay Operation and Maintenance Expenses for the System, as well as debt service on the Series 2011 Bonds. However, due to the lack of operational history, certain factors affecting the System such as dependability, efficiency, useful life of components and costs of operation are unknown.

To the extent the System develops operational problems, Operation and Maintenance Expenses may need to be reduced or rates for the System may need to be increased to produce sufficient Revenues unless other sources of funds are obtained. In the event that Revenues need to be increased for the continued operation of the System (and to pay debt service on the Series 2011 Bonds), it may be necessary to increase rates for the System. The City has covenanted in the Indenture that it will ensure that the rates, including connection fees, for all services supplied by the System to all customers within or without the boundaries of the City when combined with other Revenues, shall be sufficient to pay the Operation and Maintenance Expenses for the System, and to provide Net Revenues for each Bond Fund Year of not less than 125% of the Aggregate Annual Debt Service Requirement for such Bond Fund Year plus an amount sufficient to fund the Debt Service Reserve Fund in the time, rate and manner specified in the Indenture; provided, however, that pursuant to State law such rates must be reasonable rates for the type, kind and character of the service rendered. Furthermore, the City may decide not make any rate increases due to political, feasibility or other concerns.

### Electric and Gas Prices

The sources of electric power and natural gas are limited and their availability can be further restricted by a variety of factors, including production activities, political decisions and environmental factors. As scarce resources, their prices are affected by supply and demand. The supply and demand nature of the electric and gas markets can and do cause those markets to fluctuate from time to time, sometimes quite significantly. The City cannot predict whether such prices will increase in the future. An increase in the cost of natural gas or power could

negatively impact upon Net Revenues of the City and may affect the City's ability to pay debt service on the Series 2011 Bonds.

### **Destruction of the System**

The Indenture requires that the City, in its operation of the System, maintain insurance in such amounts and to such extent as is normally carried by other municipalities operating public utilities of the same size and type. In the event of any loss or damage, the Indenture requires that the proceeds of any insurance shall be used first for the purpose of restoring or replacing the property lost or damaged. Any remainder is to be paid into the Bond Fund. However, there can be no assurance that the proceeds of such insurance will be sufficient to restore or replace the lost or damaged property.

Damage to or destruction of the System may prevent the City from providing gas and electric service to some or all of its customers. In such event, the Net Revenues may decrease.

### **Changes in the Electrical Utility Industry**

General. The electric utility industry has been, and in the future will be, affected by a number of factors that will have an impact on the business, affairs and financial condition of both public and private electric utilities, including the City's Electric System.

One of the most significant of these factors is the effort on both the national and local levels to restructure the electric utility industry from a heavily regulated, vertically integrated monopoly to an industry in which there is a separation of control between generation and transmission and open competition for power supply service on both the wholesale and retail level.

In addition, such factors include, among others (i) effects of compliance with rapidly changing environmental, safety, licensing, regulatory and legislative requirements, (ii) changes resulting from conservation and demand-side management programs on the timing and use of electric energy, (iii) changes that might result from a regional or national energy pool, (iv) increasing competition from independent power producers, marketers and brokers, (v) "self generation" by certain industrial and commercial customers, (vi) issues relating to the ability to issue tax-exempt obligations, (vii) changes from projected future load requirements, (viii) increases in costs, and (ix) shifts in the availability and relative costs of different fuels. Any of these factors (as well as other factors) could have an effect on the financial condition of any given electric utility and likely will affect individual utilities in different ways.

Energy Policy Act of 2005. On August 8, 2005, the Energy Policy Act of 2005 (the "2005 Energy Policy Act") was signed into law. The Energy Policy Act of 2005 provides incentives for traditional energy production as well as newer, more efficient energy technologies, and conservation. The 2005 Energy Policy Act provides for, among other things: (i) the repeal of the Public Utility Holding Company Act ("PUHCA"), although some responsibilities under PUHCA are transferred to FERC and state regulatory commissions; (ii) a grant to FERC of authority to site transmission facilities if states are unwilling or unable to approve siting; (iii) a directive to FERC to permit incentive rate policies as a means to encourage transmission expansion; (iv) revisions to the Public Utility Regulatory Policies Act; (v) the establishment of service obligation protections for native load customers of utilities in certain areas of the country; (vi) the creation of limited FERC jurisdiction over interstate transmission assets of municipal utilities, cooperatives and federal utilities, to permit FERC to order those entities to provide transmission services on rates and terms comparable to those that the entities charge and provide to themselves; (vii) the establishment of mandatory electric reliability rules for all market participants and the creation of a self regulatory reliability organization, subject to oversight by FERC; and (viii) the provision of certain tax incentives to encourage expansion of transmission facilities and improvement of environmental standards. As directed by the 2005 Energy Policy Act, FERC has adopted many of the applicable implementing regulations.

FERC continues to issue regulations and decisions interpreting and implementing the various provisions of the 2005 Energy Policy Act. The City is not able to predict at this time the effects, if any, that the 2005 Energy Policy Act or the adoption of such regulations will have on the City or the System.

**Utah Legislative Activities.** In March 2008 the Utah Legislature adopted Senate Bill 202–Energy Resource and Carbon Emission Reduction Initiative (“S.B. 202”), which provides that 20% of a municipal electric utility’s or electrical corporation’s adjusted retail electric sales beginning in 2025 come from renewable energy resources or renewable energy certificates, if cost effective. S.B. 202 does not provide for any incremental targets or goals before 2025, but does require reports concerning a municipal electric utility’s progress in acquiring qualifying resources. S.B. 202 does not require an electric utility to (i) substitute renewable energy resources for existing energy sources, including existing power purchase contracts and generation units or (ii) enter into any additional power sales contracts or any other arrangement for the sale or disposition of electricity that such electric utility would not otherwise enter into. The financial and operational impact, if any, on the City and the System resulting from, the adoption of S.B. 202 is not known at this time.

In recent legislative sessions, the Utah Legislature has considered and adopted several other bills and resolutions relating to various energy policy matters, including economic development incentives for alternative energy projects, encouragement of municipally-owned utilities to consider participating in renewable energy projects and encouragement of the State of Utah to withdraw from the Western Climate Initiative. During the 2011 general session, the Utah Legislature passed House Joint Resolution 19, which expressed the Legislature’s opposition to the EPA’s regulation of greenhouse gases without Congressional approval.

The financial and operational impact, if any, on the City and the System resulting from the bills and resolutions adopted by the Utah Legislature is not known at this time.

#### **Need For City To Expand Utilities**

In order to meet current projections in population growth, it will be necessary for the City to expand not only the System, but its water, sewer and telecommunications utilities as well. The City anticipates that the costs of any such expansions could be paid from a variety or combination of sources including debt instruments, developer contributions, growth moneys, impact fees or revenues produced from the respective utilities. In the event the City could not obtain moneys from the aforementioned sources or other sources to pay for expansions to the City’s utilities, it is unlikely that such expansions would be undertaken and development and growth within the City would be adversely affected.

### **NO DEFAULTED OBLIGATIONS**

#### **General**

The City has never failed to pay principal of or interest on its financial obligations when due.

### **INDEPENDENT AUDITORS**

The financial statements of the City as of June 30, 2010 and for the year then ended, included in this Official Statement, have been audited by Gilbert & Stewart (“Gilbert & Stewart”), Provo, Utah, Certified Public Accountants, as stated in their report in APPENDIX A of this Official Statement. Gilbert & Stewart has not been asked to consent to the use of its name and audited financial report of the City for fiscal year ended June 30, 2010, in this Official Statement.

### **CONTINUING DISCLOSURE**

The City has undertaken for the benefit of the Owners and the Beneficial Owners of the Series 2011 Bonds to provide certain annual financial information and operating data to the Municipal Security Rulemaking Board (the “MSRB”) and the City has undertaken for the benefit of the Owners and Beneficial Owners of the Series 2011 Bonds to provide notice of certain material events to the MSRB all in order to assist the Underwriter in complying with Rule 15c2-12(b)(5) of the Securities and Exchange Commission (the “Rule”). See APPENDIX E attached hereto and incorporated herein by reference for a form of the Continuing Disclosure that will be executed and delivered by the City.

A failure by the City to comply with the Continuing Disclosure will not constitute an event of default under the Indenture and owners of the Series 2011 Bonds are limited to the remedies described in the Continuing Disclosure. See "Appendix E—FORM OF CONTINUING DISCLOSURE UNDERTAKING." A failure by the City to comply with the Continuing Disclosure must be reported in accordance with the Rule and must be considered by any broker, dealer or municipal securities dealer before recommending the purchase or sale of the Series 2011 Bonds in the secondary market. Consequently, such a failure may adversely affect the transferability and liquidity of the Series 2011 Bonds and their market price.

The City reports that for the last five years it has been in compliance with all disclosure undertakings.

## LEGAL MATTERS

### Absence of Litigation

Parsons, Kinghorn, Harris will issue an opinion dated the date of closing, that will state, among other things that there is no action, suit, proceeding, inquiry, or any other litigation or investigation at law or in equity, before or by any court, public board or body, which is pending or threatened, (a) challenging the creation, organization, or existence of the City; (b) the titles of its officers to their respective offices; (c) seeking to restrain or enjoin the issuance, sale, or delivery of the Series 2011 Bonds; (d) directly or indirectly contesting or affecting the proceedings or the authority by which the Series 2011 Bonds are issued; (e) the validity of the Series 2011 Bonds or the issuance thereof or (f) which if determined adversely to the City would have a materially adverse effect on the financial condition of the City or its ability to meet the debt service requirements on the Series 2011 Bonds.

### General

All legal matters incident to the authorization and issuance of the Series 2011 Bonds are subject to the approval of Ballard Spahr LLP, Bond Counsel to the City. Certain matters relating to disclosure will be passed upon by Ballard Spahr LLP, Disclosure Counsel to the City. Certain legal matters will be passed upon for the City by Parsons, Kinghorn, Harris, Salt Lake City, Utah. The approving opinion of Bond Counsel will be delivered with the Series 2011 Bonds. A form of the opinion of Bond Counsel is set forth in APPENDIX D of this Official Statement.

## TAX MATTERS

**Federal Income Tax.** In the opinion of Ballard Spahr LLP, Bond Counsel to the City, interest on the Series 2011 Bonds is excludable from gross income for purposes of federal income tax under existing laws as enacted and construed on the date of initial delivery of the Series 2011 Bonds, assuming the accuracy of the certifications of the City and continuing compliance by the City with the requirements of the Internal Revenue Code of 1986. Interest on the Series 2011 Bonds is not an item of tax preference for purposes of either individual or corporate federal alternative minimum tax ("AMT"); however, interest on Series 2011 Bonds held by a corporation (other than an S corporation, regulated investment company, or real estate investment trust) may be indirectly subject to federal AMT because of its inclusion in the adjusted current earnings of a corporate holder.

**Original Issue Premium.** Certain of the Series 2011 Bonds may be offered at a premium ("original issue premium") over principal amount. Original issue premium is amortizable periodically over the term of a Series 2011 Bond through reductions in the holder's tax basis for the Series 2011 Bond for determining taxable gain or loss from sale or from redemption prior to maturity. Amortizable premium is accounted for as reducing the tax-exempt interest on the Series 2011 Bond rather than creating a deductible expense or loss. Bondholders should consult their tax advisors for an explanation of the amortization rules.

**Original Issue Discount.** Certain of the Series 2011 Bonds may be offered at a discount ("original issue discount") equal generally to the difference between public offering price and principal amount. Original issue discount on a Series 2011 Bond accrues as tax-exempt interest periodically over the term of the Series 2011 Bond. The accrual of original issue discount increases the holder's tax basis in the Series 2011 Bond for determining taxable gain or loss from sale or from redemption prior to maturity. Bondholders should consult their tax advisors for an explanation of the accrual rules.

State Of Utah Income Tax. Bond Counsel is also of the opinion that interest on the Series 2011 Bonds is exempt from State of Utah individual income taxes under currently existing law.

No Further Opinion. Bond Counsel expresses no opinion regarding any other tax consequences relating to ownership or disposition of, or the accrual or receipt of interest on, the Series 2011 Bonds.

### **BOND RATINGS**

The Series 2011 Bonds are expected to be rated "AA+" (stable outlook) by Standard & Poor's Ratings Services ("S&P"), a Standard & Poor's Financial Services LLC business, with the understanding that upon delivery of the Series 2011 Bonds the Policy insuring the payment when due of principal of and interest on the Series 2011 Bonds will be issued by the Insurer. See "BOND INSURANCE" herein. S&P has assigned an underlying rating (without respect to the Policy) of "A" to the Series 2011 Bonds. In addition Fitch Ratings ("Fitch") has assigned an underlying rating (without respect to the Policy) of "A" to the Series 2011 Bonds.

Such ratings reflect only the views of such organizations and any desired explanation of the significance of such ratings should be obtained from the rating agency furnishing the same. The ratings are not a recommendation to buy, sell or hold the Series 2011 Bonds and there is no assurance such ratings will continue for any given period of time or that such ratings will not be revised downward or withdrawn entirely by the rating agency, if in the judgment of such rating agency, circumstances so warrant. Any such downward revision or withdrawal of such ratings may have an adverse effect on the market price of the Series 2011 Bonds. **INDEPENDENT AUDITOR'S REPORT**

The Honorable Mayor and City Council  
Eagle Mountain, Utah

December 3, 2010

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Eagle Mountain City, Utah as of and for the year ended June 30, 2010, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Eagle Mountain City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

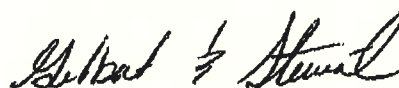

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Eagle Mountain City as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have issued our report dated December 3, 2010 on our consideration of Eagle Mountain City's internal control over financial reporting and on our test of its compliance with certain provision of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Eagle Mountain City's financial statements as a whole. The introductory section, combining and individual non-major fund financial statements, budgetary comparison schedules, capital asset schedules, and statistical tables are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual non-major fund financial statements, budgetary comparison schedules, and capital assets schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of Eagle Mountain City, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2010. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

### Financial Highlights

- As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$6,446,874. Of this amount, \$1,065,240 is reserved and must only be spent on projects for which the money is reserved. The remaining \$5,381,634 is divided as follows: \$1,030,020 is unreserved in the General Fund, \$1,120,288 is unreserved in the General Fund Capital Projects Fund and \$3,231,326 is unreserved in the Special Revenue (Special Assessment) and Non-major Governmental Funds.
- The total net assets of \$101,070,787 are made up of \$75,898,999 in capital assets net of related debt and \$25,171,788 in other net assets. Total net assets increased by \$5,162,036 from the prior year.
- In the Enterprise (Proprietary) Funds operating revenues decreased \$1,857,728 (13.4%). Corresponding operating expenses increased by \$548,805 (12.7%).

### Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

### Government-wide Financial Statements:

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business.

- The *statement of net assets* presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. However, other non-financial factors also need to be considered.
- The *statement of activities* presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, streets, storm water, economic development, and parks and recreation. The business-type activities of the City include water, sewer, electric, gas, and solid waste.

The government-wide financial statements can be found on pages 25-26 of this report.

**Reporting the City's Most Significant Funds:**

A fund is grouping of related accounts, used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other states and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

- *Governmental Funds*- These funds are used to account for the same functions reported as governmental activities in the government-wide financial statements. These fund statements focus on how money flows into and out of these funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps users determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in a reconciliation included with the fund financial statements.

The governmental fund financial statements can be found on pages 27-30 of this report.

The major governmental funds (as determined by generally accepted accounting principles) are the General Fund and certain Special Revenue Funds. The balance of the governmental funds is determined to be non-major and is included in the combined statements within this report.

- *Proprietary Funds.* Eagle Mountain City maintains one type of proprietary funds. *Enterprise funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. Eagle Mountain City uses enterprise funds to account for its Water Utility, Sewer Utility, Gas Utility, and Electric Utility.
- The basic proprietary fund financial statements can be found on pages 31-33 of this report.
- Additionally the City reports the following fund types:

Internal Service Fund accounts for the fleet management services provided to other departments of the government, on a cost reimbursement basis.

## Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of Eagle Mountain City, assets exceed liability by \$101,070,787.

One of the largest portion's of Eagle Mountain City's net assets (74%) reflects its investment in capital assets (e.g., land, buildings, infrastructure assets, and machinery and equipment), less any related debt used to acquire those assets that are still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The following table summarizes the City's net assets. Comparative figures for Fiscal Years 2010 and 2009 are shown below:

### Financial Analysis of the Government's Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements.

At the end of the current fiscal year, the City's governmental funds reported combined fund balances of \$6,446,874. Of this total amount (89%) constitutes unreserved fund balance, which is available for spending at the government's discretion. The majority of this unreserved fund balance is in the Special Revenue Funds. The remainder of fund balances \$1,065,240 is reserved to indicate that it is not available for new spending because it has already been committed.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unreserved fund balance of the general fund was \$1,030,020 an increase of \$457,295 from Fiscal Year 2009. Total fund balance is \$1,360,050, an increase of \$560,650 from the prior year. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 11% of total general governmental fund expenditures, while total fund balance represents 15% of that same amount.

The City maintains enterprise funds to account for the business-type activities of the City. The information is found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the combined Enterprise funds at the end of the year amounted to \$11,302,137. The value of capital assets net of related debt in these same funds is \$31,480,947.

As mentioned in the financial highlights, operational revenues and expenditures in the Enterprise funds increased by \$1,857,728 (13.4%) and \$548,805 (12.7%), respectively.

#### General Fund Budgetary Highlights

During the fiscal year, the General Fund's original budget was amended from an original budget expenditure total of \$8,440,314 to a final budget of \$9,215,370, an increase of \$775,056. The increase reflects higher than anticipated expenditures within the General Fund.

#### Capital Asset and Debt Administration

**Capital assets.** Eagle Mountain City's investment in capital assets for its governmental and business-type activities as of June 30, 2010, amounts to \$122,563,658 (net of accumulated depreciation). The investment in capital assets includes land, buildings, improvements, machinery and equipment, infrastructure and construction in progress.

Additional information on the City's capital assets can be found in the footnotes to this financial report.

**Long-term debt.** At the end of the current year, the City has total bonded debt outstanding of \$48,650,000. Of this amount \$5,620,000 is from Special Assessment Bonds. The remaining \$43,030,000 is secured solely by specific revenues sources (i.e., revenue bonds or excise tax road bond).

#### Eagle Mountain City's Outstanding Debt (Bonded Debt):

	Governmental Activities		Business-type Activities		Total	
	2010	2009	2010	2009	2010	2009
Special assessment bonds	\$ 5,620,000	\$ 5,843,000	\$ -	\$ -	\$ 5,620,000	\$ 5,843,000

Revenue bonds	-	-	42,360,000	40,633,171	42,360,000	40,633,171
Total bonds	\$ 6,290,000	\$ 6,632,000	\$ 42,360,000	\$ 40,633,171	\$ 48,650,000	\$ 47,265,171

The City's total outstanding debt increased by a net amount of \$1,384,829 during Fiscal Year 2010. The City issued a bond to construct a waste water treatment plant expansion.

State statutes limit the amount of general obligation debt a governmental entity may issue to 4% of its total taxable value. The current limitations for the City are \$29,226,968, which is significantly in excess of the City's outstanding general obligation debt. In addition, state statutes allow for an additional 4% to be used for water, sewer, or other projects thus resulting in a debt limit of 8% of

total taxable value. Total limitation is \$58,453,936, which again significantly exceeds the outstanding general obligation debt.

Additional information on the City's long-term debt can be found in note 9 on pages 55-57 of this report.

- The City issued just over 300 residential building permits in fiscal year 2010. This is an approximate 5.5% growth rate. Much of the growth in building permits issued can be attributed to the federal government stimulus package. The City anticipates that growth in residential construction will slow during fiscal year 2011.
- The City continues to be very conservative in estimating budgeted revenues. In the general fund, budgeted revenues for fiscal year 2011 are up 6.5% from budgeted revenues in fiscal year 2010. During fiscal year 2010, the City received 10% more in sales tax revenue based on our original budget estimates. The City is working hard to maintain a balanced budget while still providing adequate service levels for the residents.
- In the Enterprise funds, the City has been able to keep the utility rates at current levels. The only exception to this is where the City has had to raise sewer rates to reflect the increases from our sewer special service district. This increase affected the residents in the North Service Area who are serviced by the Timpanogos Special Service District. The increase in fees will fund upgrades and expansion of the district.
- During the latter part of fiscal year 2009, the City adjusted the gas rate structure. Prior to this change, the City had two different rates: one for summer, one for winter. The City has been able to take advantage of more stable gas rates and therefore chose the lower of the two rates to use winter and summer.
- During fiscal year 2011, the City will complete a review of its water and sewer utility rates. The review will focus on the long term utility rates to ensure that the rates are adequate to guarantee the continued viability and profitability of each utility, to maintain the existing infrastructure and to ensure that the rates are competitive with other utility companies.
- The City completed the expansion of the wastewater treatment plant in the South Service Area in fiscal year 2010. With the expansion, the wastewater treatment plant will now be able to serve approximately 5,000 homes, or an increase of approximately 3,500 service connections.

**EAGLE MOUNTAIN CITY**  
**Statement of Changes Reconciliation to**  
**Statement of Activities**  
**For the Year Ended June 30, 2010**

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances - total governmental funds	\$ 1,564,552.00
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	\$ (555,984.00)
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to increase (decrease) net assets.	
- Current year capital contributions from developers	\$ 4,174,105.00
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	\$ (228,960.00)
The issuance of long-term debt (e.g., bonds, leases) provide current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	\$ 271,702.00
Internal service funds are used by management to charge the cost of the fleet management to the individual funds. The net revenue of certain activities of internal service funds is reported with governmental activities.	\$ (24,226.00)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	<u>\$ (39,153.25)</u>
Change in net assets of governmental activities	<u>\$ 5,162,035.75</u>

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The City of Eagle Mountain (the City) financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict the GASB pronouncements. The City applies FASB pronouncements issued after that date to its business-type activities and enterprise funds. The more significant accounting policies established by GAAP and used by the City are discussed below.

**A. Reporting Entity**

Eagle Mountain City was incorporated December 1996, under laws of the State of Utah. Under the present form of government, administrative and legislative powers are vested in a governing body, consisting of the Mayor and a five-member City Council. They are assisted by a City Administrator, who also is the City's budget officer. The treasurer is currently responsible for the financial matters of the City, including money management, accounts payable, financial statements, utility billing, and accounts receivable. The City provides the following services as mandated by law: Public Safety, Highways and Streets, Sanitation, Parks, Water, Public Improvements, Planning and Zoning, and General Administrative Services.

The General Purpose Financial Statements of the City include the financial statements for all activities of the City based upon the criteria set forth in Governmental Accounting Standards Board (GASB) Statement 14. The primary criteria for including a board or agency in this report is financial accountability, which determines whether an entity is a component unit of the financial reporting entity. Blended component units, although legally separate entities, are in substance part of the government's operations and therefore data from these units are combined with data of the primary government. Discretely presented component units are reported in a separate column in the combined financial statements to emphasize they are legally separate from the City. The City reports no component units.

**B. Government-wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

**CITY OF EAGLE MOUNTAIN**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**YEAR ENDING JUNE 30, 2010**

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

**C. Measurement Focus, Basis of Accounting and Presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified basis of accounting. Revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The government considers all revenues available if they are collected within 60 days after the year-end. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on general long-term debt as well as expenditures related to compensated absences, claims, and judgments, which are recorded only when payment is due.

Property taxes, sales taxes, franchise taxes, and earned but unreimbursed state and federal grants associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

NOTES TO THE FINANCIAL STATEMENTS  
YEAR ENDING JUNE 30, 2010

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

The government reports the following **major governmental funds**:

The *general fund* is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

The *Special Improvement Districts Special Revenue Fund, 2001-1*, is used to account for the proceeds of specific revenue sources (other than expendable trusts, or capital projects) that are legally restricted to expenditures for specified purposes.

The government reports the following **major proprietary funds**:

The *water fund* accounts for the activities of the City's water operations.

The *sewer fund* accounts for the activities of the City's sewer operations.

The *electric fund* accounts for the activities of the City's electric operations.

The *gas fund* accounts for the activities of the City's gas operations.

The *golf course fund* accounts for the activities of the golf course.

Additionally the government reports the following fund types:

The *internal service fund* accounts for the fleet management services provided to other departments of the government, on a cost reimbursement basis.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments to the general fund by the various enterprise funds for providing administrative services for such funds. Elimination of these charges would distort the direct costs and program revenue reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**D. Cash and Investments**

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

The City's temporary cash investments consist of amounts deposited with Utah Public Treasurers' Investment Fund and money market funds. Investments are stated at cost, which approximates fair value.

**E. Interfund Transactions**

During the course of normal operations, the City has transactions between funds to distribute administrative costs and distribute grant proceeds. These transactions are generally reflected as operating transfers, which are transfers from a fund authorized to receive certain revenues to the fund through which the resources are to be expended. The General Fund billed the respective enterprise funds for administrative costs associated with billing and collection of utility charges. These charges are reflected as revenues and expenses in the respective funds.

**F. Restricted Assets**

The City maintains cash balances as required by bond covenants. These amounts are reflected in the financial statements as restricted cash. It is the City's policy to use restricted assets first and then unrestricted assets.

**G. Capital Assets**

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

**CITY OF EAGLE MOUNTAIN**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**YEAR ENDING JUNE 30, 2010**

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant and equipment of the primary government is depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and structures	30-50
Improvements other than buildings	20-50
Infrastructure	30-50
Machinery and equipment	5-10
Furniture and fixtures	5-10

**H. Compensated Absences**

City employees accrue earned vacation, sick leave, long-term sick leave, and comp time throughout the year. They are allowed to carry forward into the next calendar year all accrued comp, long term sick leave, and up to 240 hours of vacation time, but are encouraged to take their vacation leave within the calendar year in which it is earned. Upon termination of employment, an employee will be compensated for up to 240 hours of unused vacation leave, comp time, long-term sick leave but forfeits any accumulated sick leave.

Vacation pay is accrued when incurred in proprietary funds and reported as a fund liability. Vacation pay that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it.

**I. Taxes**

In Utah, county governments assess, levy, collect and disburse two principal types of tax: (1) personal property tax, which is assessed on business assets other than real estate, and (2) tax on real estate and improvements. Business personal property and real estate taxes attach as an enforceable lien on property as of January 1. Taxes are levied on all business personal property on January 1, and real estate and improvement taxes are levied on January 1 and are payable by November 30. The real property taxes, which are due in November, are reported as a receivable from property taxes on the financial statements. Because these taxes are not considered available to liquidate liabilities of the current period, they are offset by deferred revenue.

**CITY OF EAGLE MOUNTAIN**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**YEAR ENDING JUNE 30, 2010**

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

The City Council is authorized by state statute to levy a tax against all real and personal property located within its boundaries. The Council must set a tax rate by June 22 each year.

The County Treasurer, acting as a tax collector, must settle and disburse all tax collections to all taxing entities on a routine basis.

**J. Long-Term Obligations**

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the accrual debt proceeds received, are reported as debt service expenditures. Interest expense is not included in the functions of governmental activities.

**K. Fund Equity**

Reservations of fund balance represent amounts that are not appropriable or are legally segregated for a specific purpose. Reservations of net assets are limited to outside third party restrictions. Appropriations of net assets are amounts that are specifically set aside for a particular expense in the following year. Designations of fund balance represent tentative management plans that are subject to change.

**L. Use of Estimates**

Presenting financial statements in conformity with Generally Accepted Accounting Principles requires management to make certain estimates concerning assets, liabilities, revenues, and expenses. Actual results may vary from these estimates.

**NOTE 2 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

**A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets**

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets.

This difference primarily results from the long-term economic focus of the statement of net assets versus the current financial resources focus of the governmental fund balance sheets.

**1. Capital related items:**

When capital assets (property, plant, and equipment) that are to be used in governmental activities are purchased or constructed, the cost of these assets are reported as expenditures in governmental funds. However, the statement of net assets includes those capital assets among the assets of the city as a whole.

Cost of capital assets	\$66,889,057
Accumulated depreciation	<u>( 15,952,628)</u>
Net adjustment to increase <i>fund balance – total governmental funds to arrive at net-assets - governmental activities</i> )	<u>\$50,936,429</u>

**2. Long-term assets:**

Long-term assets applicable to the City's governmental activities are not available to pay for expenditures of the current period and are, therefore, deferred in the governmental balance sheet.

Special assessment revenue	\$5,599,106
Delinquent property taxes	<u>212,266</u>

**B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities**

The governmental fund statement of revenues, expenditures and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that “governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.”

Capital outlay	\$1,246,675
Depreciation expense	<u>( 1,802,659)</u>
Net adjustment to increase <i>net changes in fund</i> <i>balances – total governmental funds</i> to arrive at <i>changes in net assets of governmental activities</i>	( <u>\$ 555,984</u> )

Another element of that reconciliation states, “The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.”

**NOTE 3 - BUDGETS AND BUDGETARY ACCOUNTING**

Annual budgets are prepared and adopted in accordance with the Uniform Fiscal Procedures Act adopted by the State of Utah. Once a budget has been adopted, it remains in effect until it has been formally revised. Furthermore, in accordance with state law, all appropriations lapse at the end of the budget year. If any obligations are contracted for and are in excess of adopted budget, they are not a valid or enforceable claim against the City. Budgets are adopted on a basis consistent with generally accepted accounting principles.

The City adheres to the following procedures in establishing the budgetary data reflected in the financial statements:

- A. On or before the first regularly scheduled meeting of the City Council in May, the City Administrator, authorized under state statute to be appointed budget officer, submits a proposed operating budget. The operating budget includes proposed expenditures and the means of financing them.
- B. A public hearing is held at which time the taxpayers' comments are heard. Notice of the hearing is given in the local newspaper at least seven days prior to the hearing. Copies of the proposed budget are made available for public inspection ten days prior to the public hearing.
- C. On or before June 22, a final balanced budget must be adopted through passage of a resolution for the subsequent fiscal year beginning July 1.
- D. Control of budgeted expenditures is exercised, under state law, at the departmental level. The City Administrator, however, acting as budget officer, has the authority to transfer budget appropriations between line items within any department of any budgetary fund. The City Council, by resolution, has the authority to transfer budget appropriations between the individual departments of any budgetary fund.
- E. Budget appropriations for any department may be reduced by resolution.
- F. A public hearing, as required in (B) above, must be held to increase the total appropriations of any one governmental fund type; however, after the original public hearing, operating and capital budgets of proprietary fund types may be increased by resolution without an additional hearing.
- G. Encumbrances lapse at year end. Encumbered amounts carry over to the following year and are subject to reappropriation. Therefore, no encumbrances are presented in the financial statements.

During the budget year, the City modified the budget using the above procedures.

**NOTE 4 – CASH EQUIVALENTS AND INVESTMENTS (Continued)**

A. Deposits

Deposits – Custodial Credit Risk. Custodial risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City follows the requirements of the Utah Money Management Act in handling its depository and investing transactions. The City considers the actions of the State Money Management Council to be necessary and sufficient for adequate protection of its uninsured bank deposits. City funds are deposited in qualified depositories as defined by the Act. The City does not have a deposit policy for custodial credit risk. As of June 30, 2010, the City's custodial credit risk for deposits were as follows:

Depository Account	Custodial Credit Risk	Balance June 30, 2010
Checking and savings	Insured and collateralized	\$ 350,000
Checking and savings	Uninsured and uncollateralized	816,454
Investment sweep	Uninsured and uncollateralized	4,140,070
Total deposits		\$ 5,306,524

B. Investments

<b>Total investments</b>	<b>\$ 14,688,286</b>	<b>\$ -</b>	<b>\$ -</b>	<b>\$ -</b>

Investments – Interest Rate Risk. The City does not have a formal investment policy that limits investment maturities as a means of increasing interest managing its exposure to fair value losses arising from rates. However, interest rate risk is managed by compliance with the Utah Money Management Act, which provides guidance for handling depository and investing transactions in order to minimize interest rate risk.

Investments – Credit Risk. The City follows the requirements of the Utah Money Management Act in handling its depository and investing transactions. The City funds are deposited in qualified depositories as defined by the Act. The Act also authorizes the City to invest in the Utah Public Treasurers Investment Fund (PTIF), certificates of deposit, U.S. Treasury obligations, U.S. agency issues, restricted mutual funds, and obligations of governmental entities within the State of Utah. The City's investments are invested in accordance with the Act. The State Money Management Council provides regulatory oversight for the investments. The degree of risk of the investments depends on the underlying portfolio. The Act and Council rules govern the financial reporting requirements of qualified depositories in which public funds may be deposited and prescribe the conditions under which the designation of a depository shall remain in effect. If a qualified depository should become ineligible to hold public funds, public treasurers are notified immediately. The City considers the actions of the Council to be necessary and sufficient for adequate protection of its investments. The City has no investment policy that would further limit its investment choices.

Investments Custodial Credit Risk. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Of the City's \$14,688,286 investment in a trust arrangement, and the Utah State Treasurers Investment Pool, the entire amount of underlying securities are held by the Investment's counterparty, not in the City's name and are not insured. The City's investment arrangements primarily invest in Utah State Treasurers investment pool, obligations of the United States Treasury, agencies, or instrumentalities of the United States that meet the allowable investments of the Utah Money Management Act. The City does not have an investment policy for custodial credit risk.

**NOTE 11 - LITIGATION**

The City is a defendant in certain legal actions and pending actions, or in process for miscellaneous claims. The ultimate liability that might result from the final resolution of the above matters is not presently determinable. **NOTE 12 - RISK MANAGEMENT**

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. (2) when calculating interest payable during such Bond Fund Year for any Series of Variable Rate Bonds which are issued with a floating rate and with respect to which an Interest Rate Swap is in effect in which the Issuer has agreed to pay a fixed interest rate, such Series of Variable Rate Bonds shall be deemed to bear interest at the effective fixed annual rate thereon as a result of such Interest Rate Swap; provided that such effective fixed annual rate may be utilized only if such Interest Rate Swap does not result in a reduction or withdrawal of any rating then in effect with respect to the Bonds and so long as such Interest Rate Swap is contracted to remain in full force and effect;

(3) when calculating interest payable during such Bond Fund Year for any Series of Bonds which are issued with a fixed interest rate and with respect to which an Interest Rate Swap is in effect in which the Issuer has agreed to pay a floating amount, Debt Service shall include the interest payable on such Series of Bonds, less fixed amounts to be received by the Issuer under such Interest Rate Swap plus the amount of the floating payments (using the market rate in a manner similar to that described in (1) above, unless another method of estimation is more appropriate, in the opinion of the Issuer's financial advisor, underwriter or similar agent with the approval of each Rating Agency, for such floating payments) to be made by the Issuer under the Interest Rate Swap; provided that the above described calculation of Debt Service may be utilized only if such Interest Rate Swap does not result in a reduction or withdrawal of any rating then in effect with respect to the Bonds and so long as such Interest Rate Swap is contracted to remain in full force and effect;

(4) when calculating interest payable during such Bond Fund Year with respect to any Commercial Paper Program, Debt Service shall include an amount equal to the sum of all principal and interest payments that would be payable during such Bond Fund Year assuming that the Authorized Amount of such Commercial Paper Program is amortized on a level debt service basis over a period of 30 years beginning on the date of calculation or, if later, the last day of the period during which obligations can be issued under such Commercial Paper Program, and bearing interest at such market rate of interest applicable to such Commercial Paper Program as shall be established for this purpose in the opinion of the Issuer's financial advisor, underwriter or similar agent (which market rate of interest may be based upon a recognized comparable market index, an average of interest rates for prior years or otherwise);

(5) when calculating interest payable on Bonds that are Paired Obligations, the interest rate on such Bonds shall be the resulting linked rate or effective fixed interest rate to be paid by the Issuer with respect to such Paired Obligations;

and further provided, that there shall be excluded from Debt Service (x) interest on Bonds (including Cross-over Refunding Bonds or Cross-over Refunded Bonds) to the extent that Escrowed Interest or capitalized interest is available to pay such interest, (y) Principal on Cross-over Refunded Bonds to the extent that the proceeds of Cross-over Refunding Bonds are on deposit in an irrevocable escrow in satisfaction of the requirements of Section 11-27-3, Utah Code, as amended, and such proceeds or the earnings thereon are required to be applied to pay such Principal (subject to the possible use to pay the Principal of the Cross-over Refunding Bonds under certain circumstances) and such amounts so required to be applied are sufficient to pay such Principal, and (z) Repayment Obligations to the extent that payments on Pledged Bonds relating to such Repayment Obligations satisfy the Issuer's obligation to pay such Repayment Obligations.

(6) Amortization of Balloon Bonds may be assumed on a level debt service basis over a twenty-year period at the interest rate based on the Revenue Bond Index as last published in *The Bond Buyer*, provided that the full amount of Balloon Bonds shall be included in the calculation if the calculation is made within twelve (12) months of the actual maturity of such Balloon Bonds and no credit facility exists.

(b) On the maturity date of any Term Bonds, the Trustee shall apply the moneys on hand in the Sinking Fund Account for the payment of the principal of such Term Bonds.

#### Use of Debt Service Reserve Fund

Except as otherwise provided in this section and subject to the immediately following sentence, moneys in each account in the Debt Service Reserve Fund shall at all times be maintained in an amount not less than the applicable Debt Service Reserve Requirement, if any. In calculating the amount on deposit in each account in the Debt Service Reserve Fund, the amount of any Reserve Instrument Coverage will be treated as an amount on deposit in such account in the Debt Service Reserve Fund. Each Supplemental Indenture authorizing the issuance of a Series of Bonds shall specify the Debt Service Reserve Requirement, if any, applicable to such Series which amount shall either be (i) deposited immediately upon the issuance and delivery of such Series from (a) proceeds from the sale thereof or from any other legally available source, or (b) by a Reserve Instrument or Instruments, or (c) any combination thereof, (ii) deposited from available Net Revenues over the period of time specified, or (iii) deposited from any combination of (i) and (ii) above; provided however, the foregoing provisions shall be subject to the requirements of any Security Instrument Issuer set forth in any Supplemental Indenture. If at any time the amount on deposit in any account of the Debt Service Reserve Fund is less than the minimum amount to be maintained in the Indenture under this section, the Issuer is required, pursuant to the Indenture and the provisions of any Supplemental Indenture, to make payments totaling the amount of any such deficiency directly to the Trustee for deposit into the Debt Service Reserve Fund.

In the event funds on deposit in an account of the Debt Service Reserve Fund are needed to make up any deficiencies in the Bond Fund as aforementioned, and there is insufficient cash available in such account of the Debt Service Reserve Fund to make up such deficiency and Reserve Instruments applicable to such Series are in effect, the Trustee shall immediately make a demand for payment on such Reserve Instruments, to the maximum extent authorized by such Reserve Instruments, in the amount necessary to make up such deficiency, and immediately deposit such payment upon receipt thereof into the Bond Fund. Thereafter, the Issuer shall be obligated to reinstate the Reserve Instrument as provided in the Indenture.

No Reserve Instrument shall be allowed to expire or terminate while the related Series of Bonds are Outstanding unless and until cash has been deposited into the related account of the Debt Service Reserve Fund, or a new Reserve Instrument has been issued in place of the expiring or terminating Reserve Instrument, or any combination thereof in an amount or to provide coverage, as the case may be, at least equal to the amount required to be maintained in the related account of the Debt Service Reserve Fund.

Moneys at any time on deposit in the account of the Debt Service Reserve Fund in excess of the amount required to be maintained therein (taking into account the amount of related Reserve Instrument Coverage) shall be transferred by the Trustee to the Bond Fund at least once each year.

Moneys on deposit in any account of the Debt Service Reserve Fund shall be used to make up any deficiencies in the Bond Fund only for the Series of Bonds secured by said account and any Reserve Instrument shall only be drawn upon with respect to the Series of Bonds for which such Reserve Instrument was obtained.

The Issuer may, upon obtaining approving opinion of bond counsel to the effect that such transaction will not adversely affect the tax-exempt status of any outstanding Bonds, replace any amounts required to be on deposit in the Debt Service Reserve Fund with a Reserve Instrument.

#### Use of Reserve Instrument Fund

There shall be paid into the Reserve Instrument Fund the amounts required by the Indenture and by a Supplemental Indenture to be so paid. The amounts in the Reserve Instrument Fund shall, from time to time, be applied by the Trustee on behalf of the Issuer to pay the Reserve Instrument Repayment Obligations which are due and payable to any Reserve Instrument Provider under any applicable Reserve Instrument Agreement. The Issuer may, with the approving opinion of bond counsel that such transaction will not adversely affect the tax-exempt status of any outstanding Bonds, replace any amounts required to be on deposit in the Debt Service Reserve Fund with a Reserve Instrument.

### Use of Repair and Replacement Fund

All moneys in the Repair and Replacement Fund may be drawn on and used by the Issuer for the purpose of (a) paying the cost of unusual or extraordinary maintenance or repairs of the System; (b) paying the costs of any renewals, renovation, improvements, expansion or replacements to the System; and (c) paying the cost of any replacement of buildings, lines, equipment and other related facilities, to the extent the same are not paid as part of the ordinary and normal expense of the operation of the System.

Funds shall be deposited monthly from available Net Revenues in such amounts as may be required from time to time by each Supplemental Indenture until the Repair and Replacement Fund has an amount equivalent to the Repair and Replacement Requirement. Any deficiencies below the Repair and Replacement Requirement shall be made up from Net Revenues of the System available for such purposes. Funds at any time on deposit in the Repair and Replacement Fund in excess of the amount required to be maintained in the Indenture may, at any time, be used by the Issuer for any lawful purpose.

### Investment of Funds

Any moneys in the Bond Fund, the Acquisition/Construction Fund, the Reserve Instrument Fund, the Rebate Fund, the Debt Service Reserve Fund shall, at the discretion and authorization of the Issuer, be invested by the Trustee in Qualified Investments; provided, however, that moneys on deposit in the Bond Fund, the Reserve Instrument Fund, and Debt Service Reserve Fund may only be invested in Qualified Investments described in (a), (b), or (c) of the definition thereof having a maturity date of one year or less. If no written authorization is given to the Trustee, moneys shall be held uninvested. Such investments shall be held by the Trustee, and when the Trustee determines it necessary to use the moneys in the Funds for the purposes for which the Funds were created, it shall liquidate at prevailing market prices as much of the investments as may be necessary and apply the proceeds to such purposes. All income derived from the investment of the Acquisition/Construction Fund, the Bond Fund, the Reserve Instrument Fund and the Rebate Fund shall be maintained in said respective Funds and disbursed along with the other moneys on deposit therein as provided in the Indenture. All income derived from the investment of the Debt Service Reserve Fund shall be disbursed in accordance with "Use of Debt Service Reserve Fund." All moneys in the Revenue Fund may, at the discretion of the Issuer, be invested by the Issuer in Qualified Investments.

The Trustee shall have no liability or responsibility for any loss resulting from any investment made in accordance with the provisions of this Section. The Trustee shall be entitled to assume that any investment, which at the time of purchase is a Qualified Investment, remains a Qualified Investment thereafter, absent receipt of written notice or information to the contrary.

The Trustee may, to the extent permitted by the State Money Management Act of 1974, Title 51, Chapter 7, Utah Code, make any and all investments permitted by the provisions of the Indenture through its own or any of its affiliate's investment departments.

The Issuer acknowledges that to the extent regulations of the comptroller of the currency or any other regulatory entity grant the Issuer the right to receive brokerage confirmations of the security transactions as they occur, the Issuer specifically waives receipt of such confirmations to the extent permitted by law. The Trustee will furnish the Issuer periodic cash transaction statements which include the detail for all investment transactions made by the Trustee under the Indenture.

The Issuer may invest the amounts on deposit in the Repair and Replacement Fund as permitted by applicable law.

In the event the Issuer shall be advised by nationally recognized municipal bond counsel that it is necessary to restrict or limit the yield on the investment of any moneys paid to or held by the Trustee in order to avoid the Bonds, or any Series thereof, being considered "arbitrage bonds" within the meaning of the Code or the Treasury Regulations proposed or promulgated thereunder, or to otherwise preserve the exclusion of interest payable or paid on any Bonds from gross income for federal income tax purposes, the Issuer may require in writing the Trustee to take such steps as it may be advised by such counsel are necessary so to restrict or limit the yield on such

investment, irrespective of whether the Trustee shares such opinion, and the Trustee agrees that it will take all such steps as the Issuer may require.

### Trust Funds

All moneys and securities received by the Trustee under the provisions of the Indenture shall be trust funds under the terms hereof and shall not be subject to lien or attachment of any creditor of the State or any political subdivision, body, agency, or instrumentality thereof or of the Issuer and shall not be subject to appropriation by any legislative body or otherwise. Such moneys and securities shall be held in trust and applied in accordance with the provisions of the Indenture. Except as provided otherwise in the Indenture, unless and until disbursed pursuant to the terms of the Indenture, all such moneys and securities (and the income therefrom) shall be held by the Trustee as security for payment of the principal of, premium, if any, and interest on the Bonds and the fees and expenses of the Trustee payable under the Indenture.

### Method of Valuation and Frequency of Valuation

In computing the amount in any fund or account, Qualified Investments shall be valued at market, exclusive of accrued interest. With respect to all funds and accounts, valuation shall occur quarterly, except in the event of a withdrawal from the Debt Service Reserve Fund, whereupon securities shall be valued immediately after such withdrawal.

### **General Covenants**

#### General Covenants

The Issuer hereby covenants and agrees with each and every Registered Owner of the Bonds issued under the Indenture, Security Instrument Issuer and Reserve Instrument Provider as follows:

(a) While any of the principal of and interest on the Bonds are outstanding and unpaid, or any Repayment Obligations are outstanding, any resolution or other enactment of the Governing Body of the Issuer, applying the Net Revenues for the payment of the Bonds and the Repayment Obligations shall be irrevocable until the Bonds and/or any Repayment Obligations have been paid in full as to both principal and interest, and is not subject to amendment in any manner which would impair the rights of the holders of those Bonds or the Repayment Obligations which would in any way jeopardize the timely payment of principal or interest when due. Furthermore, the rates including connection fees, for all services supplied by the System to the Issuer and to its inhabitants and to all customers within or without the boundaries of the Issuer, shall be sufficient to pay the Operation and Maintenance Expenses for the System, and to provide Net Revenues for each Bond Fund Year of not less than 125% of the Aggregate Annual Debt Service Requirement for such Year, plus an amount sufficient to fund the Debt Service Reserve Fund in the time, rate and manner specified in the Indenture, provided, however, that such rates must be reasonable rates for the type, kind and character of the service rendered. There shall be no free gas or electric service, and such rates shall be charged against all users of the System, including the Issuer. The Issuer agrees that should its annual financial statement made in accordance with the provisions of paragraph (d) below disclose that during the period covered by such financial statement the Net Revenues and Other Available Funds were not at least equal to the above requirement, the Issuer shall request that a Qualified Engineer make recommendations as to the revision of the rates, charges and fees and that the Issuer on the basis of such recommendations will revise the schedule of rates, charges and fees insofar as is practicable and further revise Operation and Maintenance Costs so as to produce the necessary Net Revenues as required in the Indenture.

(b) The Issuer will maintain the System in good condition and operate the same in an efficient manner.

(c) Each Registered Owner, Security Instrument Issuer and Reserve Instrument Provider shall have a right, in addition to all other rights afforded it by the laws of the State, to apply to and obtain from any court of competent jurisdiction such decree or order as may be necessary to require the Issuer to charge or collect reasonable

rates for services supplied by the System sufficient to meet all requirements of the Indenture and of any applicable Reserve Instrument Agreement.

(d) So long as any principal and interest payments of the Bonds are Outstanding, or any Repayment Obligations are outstanding, proper books of record and account will be kept by the Issuer separate and apart from all other records and accounts, showing complete and correct entries of all transactions relating to the System. Each Registered Owner, Security Instrument Issuer and Reserve Instrument Provider, or any duly authorized agent or agents thereof shall have the right at all reasonable times to inspect all records, accounts and data relating thereto and to inspect the System. Except as otherwise provided in the Indenture, the Issuer further agrees that it will within one hundred eighty (180) days following the close of each Bond Fund Year cause an audit of such books and accounts to be made by an independent firm of certified public accountants, showing the receipts and disbursements for account of the Net Revenues and the System, and that such audit will be available for inspection by each Registered Owner, Security Instrument Issuer and Reserve Instrument Provider.

All expenses incurred in compiling the information required by this Section shall be regarded and paid as an Operation and Maintenance Expense.

#### First Lien Bonds; Equality of Liens

The Bonds and any Security Instrument Repayment Obligations constitute an irrevocable first lien upon the Net Revenues. The Issuer covenants that the Bonds and Security Instrument Repayment Obligations hereafter authorized to be issued and from time to time outstanding are equitably and ratably secured by a first lien on the Net Revenues and shall not be entitled to any priority one over the other in the application of the Net Revenues regardless of the time or times of the issuance of the Bonds or delivery of Security Instruments, it being the intention of the Issuer that there shall be no priority among the Bonds or the Security Instrument Repayment Obligations regardless of the fact that they may be actually issued and/or delivered at different times.

Any assignment or pledge from the Issuer to a Reserve Instrument Provider of (i) proceeds of the issuance and sale of Bonds, (ii) Net Revenues, or (iii) Funds established by the Indenture, including investments, if any, thereof, is and shall be subordinate to the assignment and pledge effected hereby to the Registered Owners of the Bonds and to the Security Instrument Issuers.

#### Payment of Principal and Interest

The Issuer covenants that it will punctually pay or cause to be paid the Principal of and interest on every Bond issued under the Indenture, any Security Instrument Repayment Obligations and any Reserve Instrument Repayment Obligations, in strict conformity with the terms of the Bonds, the Indenture, any Security Instrument Agreement and any Reserve Instrument Agreement, according to the true intent and meaning of the Indenture. The Principal of and interest on the Bonds, any Security Instrument Repayment Obligations and any Reserve Instrument Repayment Obligations are payable solely from the Net Revenues (except to the extent paid out of moneys attributable to Bond proceeds or other funds created under the Indenture or the income from the temporary investment thereof), which Net Revenues are specifically pledged and assigned to the payment thereof in the manner and to the extent specified in the Indenture, and nothing in the Bonds, the Indenture, any Security Instrument Agreement or any Reserve Instrument Agreement should be considered as pledging any other funds or assets of the Issuer for the payment thereof.

#### Expeditious Construction

The Issuer shall complete the acquisition and construction of each Project with all practical dispatch and will cause all construction to be effected in a sound and economical manner.

#### Management of System

The Issuer, in order to assure the efficient management and operation of the System and to assure each Registered Owner, Security Instrument Issuer and Reserve Instrument Provider from time to time that the System

will be operated on sound business principles, will employ competent and experienced management for the System, will use its best efforts to see that the System is at all times operated and maintained in first-class repair and condition and in such manner that the operating efficiency thereof shall be of the highest character.

#### Use of Legally Available Moneys

Notwithstanding any other provisions of the Indenture, nothing in the Indenture shall be construed to prevent the Issuer from (i) paying all or any part of the Operation and Maintenance Expenses from any funds available to the Issuer for such purpose, (ii) depositing any funds available to the Issuer for such purpose in any account in the Bond Fund for the payment of the interest on, premium, if any, or the principal of any Bonds issued under provisions of the Indenture or for the redemption of any such Bonds, or (iii) depositing any funds available to the Issuer for such purpose in the Reserve Instrument Fund for the payment of any amounts payable under any applicable Reserve Instrument Agreement.

#### Payment of Taxes and Other Charges

The Issuer covenants that all taxes and assessments or other municipal or governmental charges lawfully levied or assessed upon the System or upon any part thereof or upon any income therefrom will be paid when the same shall become due, that no lien or charge upon the System or any part thereof or upon any Revenues thereof, except for the lien and charge thereon created under the Indenture and securing the Bonds, will be created or permitted to be created ranking equally with or prior to the Bonds (except for the parity lien thereon of Additional Bonds issued from time to time under the Indenture and under Supplemental Indentures to the Indenture), and that all lawful claims and demands for labor, materials, supplies or other objects which, if unpaid, might by law become a lien upon the System or any part thereof or upon the Revenues thereof will be paid or discharged, or adequate provision will be made for the payment or discharge of such claims and demands within 60 days after the same shall accrue; provided, however, that nothing in this Section shall require any such lien or charge to be paid or discharged or provision made therefor so long as the validity of such lien or charge shall be contested in good faith and by appropriate legal proceedings.

#### Insurance

The Issuer, in its operation of the System, will self-insure or carry insurance, including, but not limited to, workmen's compensation insurance and public liability insurance, in such amounts and to such extent as is normally carried by others operating public utilities of the same type. The cost of such insurance shall be considered an Operation and Maintenance Expense of the System. In the event of loss or damage, insurance proceeds shall be used first for the purpose of restoring or replacing the property lost or damaged. Any remainder shall be paid into the Bond Fund. The Issuer shall obtain the consent of the Security Instrument Issuer insuring a particular Series of Bonds prior to obtaining self-insurance under this Section.

#### Covenant Not to Sell

The Issuer will not sell, lease, mortgage, encumber, or in any manner dispose of the System or any substantial part thereof, including any and all extensions and additions that may be made thereto, until all principal of and interest on the Bonds, and all Repayment Obligations, have been paid in full, and, if required, until the Security Instrument Issuer's prior consent has been obtained, except as follows:

(a) The Issuer may sell any portion of said property (i) which shall have been replaced by other property of at least equal value, (ii) which shall cease to be necessary for the efficient operation of the System and the disposition of which will not, as determined by the governing body of the Issuer, result in a material reduction in Net Revenues in any year; or (iii) the value, as determined by the governing body of the Issuer, of the property to be sold, leased, abandoned, mortgaged, or otherwise disposed of (together with any other property similarly disposed of within the 12 calendar months preceding the proposed disposition) does not exceed 5% of the value of the System assets, as determined by the governing body of the Issuer, provided, however, that in the event of any sale as aforesaid, the proceeds of such sale not needed to acquire other System property shall be paid into the Bond Fund.

(b) The Issuer may lease or make contracts or grant licenses for the operation of, or make arrangements for the use of, or grant easements or other rights with respect to, any part of the System, provided that any such lease, contract, license, arrangement, easement or right does not impede the operation of the System; and any payment received by the Issuer under or in connection with any such lease, contract, license, arrangement, easement or right in respect of the System or any part thereof shall constitute Revenues.

#### Billing Procedure

The Issuer shall submit a monthly billing for services rendered to persons who are liable for the payment of charges for such services, and shall require that each such bill be paid in full as a unit, and refuse to permit payment of a portion without payment of the remainder. Any bill not paid within thirty (30) days from the date it is mailed to the customer shall be deemed delinquent. The Issuer agrees that if any bill remains delinquent for more than sixty (60) days, it will initiate proceedings to cause all electric services to the user concerned to be cut off immediately.

#### **Events Of Default; Remedies**

##### Events of Default

Each of the following events is an "Event of Default" under the Indenture:

(a) if payment of any installment of interest on any of the Bonds shall not be made by or on behalf of the Issuer when the same shall become due and payable, or

(b) if payment of the principal of or the redemption premium, if any, on any of the Bonds shall not be made by or on behalf of the Issuer when the same shall become due and payable, either at maturity or by proceedings for redemption in advance of maturity or through failure to fulfill any payment to any fund under the Indenture or otherwise; or

(c) if the Issuer shall for any reason be rendered incapable of fulfilling its obligations under the Indenture; or

(d) if an order or decree shall be entered, with the consent or acquiescence of the Issuer, appointing a receiver or custodian for any of the Revenues of the Issuer, or approving a petition filed against the Issuer seeking reorganization of the Issuer under the federal bankruptcy laws or any other similar law or statute of the United States of America or any state thereof, or if any such order or decree, having been entered without the consent or acquiescence of the Issuer shall not be vacated or discharged or stayed on appeal within 30 days after the entry thereof; or

(e) if any proceeding shall be instituted, with the consent or acquiescence of the Issuer, for the purpose of effecting a composition between the Issuer and its creditors or for the purpose of adjusting the claims of such creditors pursuant to any federal or state statute now or hereafter enacted, if the claims of such creditors are or may be under any circumstances payable from Revenues; or

(f) if (i) the Issuer is adjudged insolvent by a court of competent jurisdiction, or (ii) an order, judgment or decree be entered by any court of competent jurisdiction appointing, without the consent of the Issuer, a receiver, trustee or custodian of the Issuer or of the whole or any part of the Issuer's property and any of the aforesaid adjudications, orders, judgments or decrees shall not be vacated or set aside or stayed within 60 days from the date of entry thereof; or

(g) if the Issuer shall file a petition or answer seeking reorganization, relief or any arrangement under the federal bankruptcy laws or any other applicable law or statute of the United States of America or any state thereof; or

(h) if, under the provisions of any other law for the relief or aid of debtors, any court of competent jurisdiction shall assume custody or control of the Issuer or of the whole or any substantial part of the property of the

Issuer, and such custody or control shall not be terminated within 30 days from the date of assumption of such custody or control; or

(i) if the Issuer shall default in the due and punctual performance of any other of the covenants, conditions, agreements and provisions contained in the Bonds, or in the Indenture or any Supplemental Indenture of the Indenture on the part of the Issuer to be performed, other than as set forth above in this Section, and such Default shall continue for 30 days after written notice specifying such Event of Default and requiring the same to be remedied shall have been given to the Issuer by the Trustee, which may give such notice in its discretion and shall give such notice at the written request of the Registered Owners of not less than 25% in aggregate Principal amount of the Bonds then Outstanding under the Indenture; or

(j) any event specified in a Supplemental Indenture as constituting an Event of Default.

#### Remedies: Rights of Registered Owners

Upon the occurrence of an Event of Default, the Trustee, upon being indemnified pursuant to the Indenture, may pursue any available remedy by suit at law or in equity to enforce the payment of the principal of, premium, if any, and interest on the Bonds then Outstanding or to enforce any obligations of the Issuer under the Indenture.

If an Event of Default shall have occurred, and if requested so to do by (i) Registered Owners of not less than 25% in aggregate Principal amount of the Bonds then Outstanding, (ii) Security Instrument Issuers at that time providing Security Instruments which are in full force and effect and not in default on any payment obligation and which secure not less than 25% in aggregate Principal amount of Bonds at the time Outstanding, or (iii) any combination of Registered Owners and Security Instrument Issuers described in (i) and (ii) above representing not less than 25% in aggregate Principal amount of Bonds at the time Outstanding, and indemnified as provided in the Indenture, the Trustee shall be obligated to exercise such one or more of the rights and powers conferred by this Section as the Trustee, being advised by counsel, shall deem most expedient in the interest of the Registered Owners and the Security Instrument Issuers.

No remedy by the terms of the Indenture conferred upon or reserved to the Trustee (or to the Registered Owners or to the Security Instrument Issuers) is intended to be exclusive of any other remedy, but each and every such remedy shall be cumulative and shall be in addition to any other remedy given to the Trustee, the Registered Owners or the Security Instrument Issuers or now or hereafter existing at law or in equity or by statute.

No delay or omission to exercise any right or power accruing upon any Event of Default shall impair any such right or power or shall be construed to be a waiver of any Event of Default or acquiescence therein; and every such right and power may be exercised from time to time and as often as may be deemed expedient.

No waiver of any Event of Default under the Indenture, whether by the Trustee or by the Registered Owners or the Security Instrument Issuers, shall extend to or shall affect any subsequent Event of Default or shall impair any rights or remedies consequent thereon.

#### Right of Registered Owners to Direct Proceedings

Anything in the Indenture to the contrary notwithstanding, unless a Supplemental Indenture provides otherwise, either (i) the Registered Owners of a majority in aggregate Principal amount of the Bonds then Outstanding, (ii) the Security Instrument Issuers at the time providing Security Instruments which are in full force and effect and not in default on any payment obligation and which secure not less than 50% in aggregate Principal amount of Bonds at the time Outstanding, or (iii) any combination of Registered Owners and Security Instrument Issuers described in (i) and (ii) above representing not less than 50% in aggregate Principal amount of Bonds at the time Outstanding, shall have the right, at any time, by an instrument or instruments in writing executed and delivered to the Trustee, to direct the time, method and place of conducting all proceedings to be taken in connection with the enforcement of the terms and conditions of the Indenture, or for the appointment of a receiver or any other proceedings under the Indenture; provided, that such direction shall not be otherwise than in accordance with the provisions of law and of the Indenture.

### Application of Moneys

All moneys received by the Trustee pursuant to any right given or action taken under the provisions of this Section shall, after payment of Trustee's fees and expenses including the fees and expenses of its counsel for the proceedings resulting in the collection of such moneys and of the expenses and liabilities and advances incurred or made by the Trustee, be deposited in the Bond Fund and all moneys so deposited in the Bond Fund shall be applied in the following order:

(a) To the payment of the principal of, premium, if any, and interest then due and payable on the Bonds and the Security Instrument Repayment Obligations as follows:

(i) Unless the Principal of all the Bonds shall have become due and payable, all such moneys shall be applied:

FIRST—To the payment to the persons entitled thereto of all installments of interest then due on the Bonds and the interest component of any Security Instrument Repayment Obligations then due, in the order of the maturity of the installments of such interest and, if the amount available shall not be sufficient to pay in full any particular installment, then to the payment ratably, according to the amounts due on such installment, to the persons entitled thereto, without any discrimination or privilege; and

SECOND—To the payment to the persons entitled thereto of the unpaid Principal of and premium, if any, on the Bonds which shall have become due (other than Bonds called for redemption for the payment of which moneys are held pursuant to the provisions of the Indenture), in the order of their due dates, and the Principal component of any Security Instrument Repayment Obligations then due, and, if the amount available shall not be sufficient to pay in full all the Bonds and the Principal component of any Security Instrument Repayment Obligations due on any particular date, then to the payment ratably, according to the amount of Principal due on such date, to the persons entitled thereto without any discrimination or privilege.

(ii) If the principal of all the Bonds shall have become due and payable, all such moneys shall be applied to the payment of the Principal and interest then due and unpaid upon the Bonds and Security Instrument Repayment Obligations, without preference or priority of Principal over interest or of interest over Principal, or of any installment of interest over any other installment of interest, or of any Bond or Security Instrument Repayment Obligation over any other Bond or Security Instrument Repayment Obligation, ratably, according to the amounts due respectively for Principal and interest, to the persons entitled thereto without any discrimination or privilege.

(iii) To the payment of all obligations owed to all Reserve Instrument Providers, ratably, according to the amounts due without any discrimination or preference under any applicable agreement related to any Reserve Instrument Agreement.

Whenever moneys are to be applied pursuant to the provisions of this Section, such moneys shall be applied at such times, and from time to time, as the Trustee shall determine, having due regard to the amounts of such moneys available for such application and the likelihood of additional moneys becoming available for such application in the future. Whenever the Trustee shall apply such funds, it shall fix the date (which shall be an Interest Payment Date unless it shall deem another date more suitable) upon which such application is to be made and upon such date interest on the amounts of principal paid on such dates shall cease to accrue.

### Remedies Vested in Trustee

All rights of action (including the right to file proof of claims) under the Indenture or under any of the Bonds may be enforced by the Trustee without the possession of any of the Bonds or the production thereof in any trial or other proceedings related thereto and any such suit or proceedings instituted by the Trustee shall be brought in its name as Trustee without the necessity of joining as plaintiffs or defendants any Registered Owners of the Bonds, and any recovery of judgment shall be for the equal benefit of the Registered Owners of the Outstanding Bonds.

### Rights and Remedies of Registered Owners

Except as provided in the last sentence of this Section, no Registered Owner of any Bond or Security Instrument Issuer shall have any right to institute any suit, action or proceeding in equity or at law for the enforcement of the Indenture or for the execution of any trust thereof or for the appointment of a receiver or any other remedy under the Indenture, unless an Event of Default has occurred of which the Trustee has been notified or it is deemed to have notice, nor unless also Registered Owners of 25% in aggregate principal amount of the Bonds then Outstanding or Security Instrument Issuers at the time providing Security Instruments which are in full force and effect and are not in default on any payment obligation and which secure not less than 25% in aggregate principal amount of Bonds at the time Outstanding shall have made written request to the Trustee and shall have offered reasonable opportunity either to proceed to exercise the powers granted in the Indenture or to institute such action, suit or proceeding in its own name, nor unless also they have offered to the Trustee indemnity as provided in the Indenture nor unless the Trustee shall thereafter fail or refuse to exercise the powers granted in the Indenture, or to institute such action, suit or proceeding in its own name or names. Such notification, request and offer of indemnity are declared by the Indenture in every case at the option of the Trustee to be conditions precedent to the execution of the powers and trust of the Indenture, and to any action or cause of action for the enforcement of the Indenture, or for the appointment of a receiver or for any other remedy under the Indenture; it being understood and intended that no one or more Registered Owner of the Bonds or Security Instrument Issuer shall have any right in any manner whatsoever to affect, disturb or prejudice the lien of the Indenture by its action or to enforce any right under the Indenture except in the manner provided in the Indenture, and that all proceedings at law or in equity shall be instituted, had and maintained in the manner provided in the Indenture and for the equal benefit of the Registered Owners of all Bonds then Outstanding and all Security Instrument Issuers at the time providing Security Instruments. Nothing contained in the Indenture shall, however, affect or impair the right of any Registered Owner or Security Instrument Issuer to enforce the covenants of the Issuer to pay the principal of, premium, if any, and interest on each of the Bonds issued under the Indenture held by such Registered Owner and Security Instrument Repayment Obligations at the time, place, from the source and in the manner in said Bonds or Security Instrument Repayment Obligations expressed.

### Termination of Proceedings

In case the Trustee, any Registered Owner or any Security Instrument Issuer shall have proceeded to enforce any right under the Indenture by the appointment of a receiver, or otherwise, and such proceedings shall have been discontinued or abandoned for any reason, or shall have been determined adversely to the Trustee, the Registered Owner, or Security Instrument Issuer, then and in every such case the Issuer and the Trustee shall be restored to their former positions and rights under the Indenture, and all rights, remedies and powers of the Trustee shall continue as if no such proceedings had been taken.

### Waivers of Events of Default

Subject to "THE TRUSTEE—Notice," the Trustee may in its discretion, and with the prior written consent of all Security Instrument Issuers at the time providing Security Instruments, waive any Event of Default under the Indenture and its consequences and shall do so upon the written request of the Registered Owners of (a) a majority in aggregate Principal amount of all the Bonds then Outstanding or Security Instrument Issuers at the time providing Security Instruments which are in full force and effect and are not in default on any payment obligation and which secure not less than 50% in aggregate Principal amount of Bonds at the time Outstanding in respect of which an Event of Default in the payment of principal and interest exist, or (b) a majority in aggregate principal amount of the Bonds then Outstanding or Security Instrument Issuers at the time providing Security Instruments which are in full force and effect and are not in default on any payment obligation and which secure not less than 50% in aggregate Principal amount of Bonds at the time Outstanding in the case of any other Event of Default; provided, however, that there shall not be waived (i) any default in the payment of the principal of any Bonds at the date that a Principal Installment is due, or (ii) any default in the payment when due of the interest on any such Bonds, unless prior to such waiver or rescission, all arrears of interest, with interest (to the extent permitted by law) at the rate borne by the Bonds in respect of which such Event of Default shall have occurred on overdue installments of interest and all arrears of payments of principal and premium, if any, when due and all expenses of the Trustee, in connection with such Event of Default shall have been paid or provided for, and in case of any such waiver or rescission, or in case any proceeding taken by the Trustee on account of any such Event of Default shall have been discontinued or

abandoned or determined adversely, then and in every such case the Issuer, the Trustee, the Registered Owners and the Security Instrument Issuers shall be restored to their former positions and rights under the Indenture, respectively, but no such waiver or rescission shall extend to any subsequent or other Event of Default, or impair any right consequent thereon.

### **The Trustee**

#### Notice

The Trustee shall not be required to take notice or be deemed to have notice of any Event of Default under the Indenture, except an Event of Default described in paragraphs (a) and (b) under the heading "EVENTS OF DEFAULT; REMEDIES—Events of Default," unless the Trustee shall be specifically notified in writing of such Default by the Issuer, a Security Instrument Issuer or by the Registered Owners of at least 25% in the aggregate principal amount of any Series of the Bonds then Outstanding and all notices or other instruments required to be delivered to the Trustee must, in order to be effective, be delivered at the Principal Corporate Trust Office of the Trustee, and in the absence of such notice so delivered, the Trustee may conclusively assume there is no Event of Default except as aforesaid.

#### Indemnity

The Trustee shall be under no obligation to exercise any of the rights or powers vested in it by the Indenture at the request, order or direction of any of the Registered Owners, Security Instrument Issuers or Reserve Instrument Providers, pursuant to the provisions of the Indenture, unless such Registered Owners, Security Instrument Issuers or Reserve Instrument Providers shall have offered to the Trustee reasonable security or indemnity against the costs, expenses and liabilities which may be incurred therein or thereby.

#### Fees, Charges and Expenses of Trustee

The Trustee shall be entitled to payment and/or reimbursement for reasonable fees for its services rendered as Trustee under the Indenture and all advances, counsel fees, and other expenses reasonably and necessarily made or incurred by the Trustee in connection with such services. The Trustee shall be entitled to payment and reimbursement for the reasonable fees and charges of the Trustee as Paying Agent and Registrar for the Bonds as provided in the Indenture. Upon an Event of Default, but only upon an Event of Default, the Trustee shall have a right of payment prior to payment on account of interest or principal of, or premium, if any, on any Bond for the foregoing advances, fees, costs and expenses incurred. The Trustee's rights under this Section will not terminate upon its resignation or removal or upon payment of the Bonds and discharge of the Indenture.

#### Notice to Registered Owners if Event of Default Occurs

If an Event of Default occurs of which the Trustee is required to take notice or if notice of an Event of Default be given to the Trustee as provided in the Indenture, then the Trustee shall give written notice thereof by registered or certified mail to all Security Instrument Issuers or to Registered Owners of all Bonds then Outstanding shown on the registration books of the Bonds kept by the Trustee as Registrar for the Bonds.

#### Removal of the Trustee

The Trustee may be removed at any time, by an instrument or concurrent instruments (i) in writing delivered to the Trustee, and signed by the Issuer, unless there exists any Event of Default, or (ii) in writing delivered to the Trustee and the Issuer, and signed by the Registered Owners of a majority in aggregate Principal amount of Bonds then Outstanding if an Event of Default exists; provided that such instrument or instruments concurrently appoint a successor Trustee meeting the qualifications set forth in the Indenture.

#### Appointment of Successor Trustee; Temporary Trustee

In case the Trustee under the Indenture shall resign or be removed, or be dissolved, or shall be in course of dissolution or liquidation, or otherwise become incapable of acting under the Indenture, or in case it shall be taken under the control of any public officer or officers, or of a receiver appointed by a court, a successor may be appointed by the Issuer (or, if an Event of Default exists, by the Registered Owners of a majority in aggregate principal amount of Bonds then Outstanding, by an instrument or concurrent instruments in writing signed by such Owners, or by their attorneys in fact, duly authorized; provided, nevertheless, that in case of such vacancy the Issuer by an instrument executed by an Authorized Representative under its seal, may appoint a temporary Trustee to fill such vacancy until a successor Trustee shall be appointed by the Registered Owners in the manner above provided; and any such temporary Trustee so appointed by the Issuer shall immediately and without further act be superseded by the Trustee so appointed by such Registered Owners). Every successor Trustee appointed pursuant to the provisions of this Section or otherwise shall be a trust company or bank in good standing having a reported capital and surplus of not less than \$50,000,000.

#### Annual Accounting

The Trustee shall prepare an annual accounting for each Bond Fund Year by the end of the month following each such Bond Fund Year showing in reasonable detail all financial transactions relating to the funds and accounts held by the Trustee under the Indenture during the accounting period and the balance in any funds or accounts created by the Indenture as of the beginning and close of such accounting period, and shall mail the same to the Issuer, and to each Reserve Instrument Provider requesting the same. The Trustee shall also make available for inspection by any Registered Owner a copy of said annual accounting (with the names and addresses of Registered Owners receiving payment of debt service on the Bonds deleted therefrom) and shall mail the same if requested in writing to do so by Registered Owners of at least 25% in aggregate principal amount of Bonds then Outstanding to the designee of said Owners specified in said written request at the address designated in the Indenture. On or before the end of the month following each Bond Fund Year, the Trustee shall, upon written request, provide to the Issuer and the Issuer's independent auditor representations as to the accuracy of the facts contained in the financial reports concerning the transactions described in the Indenture that were delivered by the Trustee during the Bond Fund Year just ended.

#### Trustee's Right to Own and Deal in Bonds

The bank or trust company acting as Trustee under the Indenture, and its directors, officers, employees or agents, may in good faith buy, sell, own, hold and deal in any of the Bonds issued under and secured by the Indenture, and may join in any action which any Bondholder may be entitled to take with like effect as if such bank or trust company were not the Trustee under the Indenture.

#### **Supplemental Indentures**

##### Supplemental Indentures Not Requiring Consent of Registered Owners, Security Instrument Issuers and Reserve Instrument Providers

The Issuer and the Trustee may, without the consent of, or notice to, any of the Registered Owners, Reserve Instrument Providers or Security Instrument Issuers, enter into an indenture or indentures supplemental to the Indenture, as shall not be inconsistent with the terms and provisions of the Indenture, for any one or more of the following purposes:

- (a) To provide for the issuance of Additional Bonds in accordance with the provisions of the Indenture;
- (b) To cure any ambiguity or formal defect or omission in the Indenture;
- (c) To grant to or confer upon the Trustee for the benefit of the Registered Owners, any Security Instrument Issuers and any Reserve Instrument Providers any additional rights, remedies, powers or authority that

may lawfully be granted to or conferred upon the Registered Owners or any of them which shall not adversely affect the interests of any Reserve Instrument Providers or Security Instrument Issuers without its consent;

(d) To subject to the Indenture additional Revenues or other revenues, properties, collateral or security;

(e) To provide for the issuance of the Bonds pursuant to a book-entry system or as uncertificated registered public obligations pursuant to the provisions of the Registered Public Obligations Act, Title 15, Chapter 7 of the Utah Code, or any successor provisions of law;

(f) To make any change which shall not materially adversely affect the rights or interests of the Owners of any Outstanding Bonds, any Security Instrument Issuers or any Reserve Instrument Provider, requested or approved by a Rating Agency in order to obtain or maintain any rating on the Bonds or requested or approved by a Security Instrument Issuer or Reserve Instrument Provider in order to insure or provide other security for any Bonds;

(g) To make any change necessary (A) to establish or maintain the exclusion from gross income for federal income tax purposes of interest on any Series of Bonds as a result of any modifications or amendments to Section 148 of the Code or interpretations by the Internal Revenue Service of Section 148 of the Code or of regulations proposed or promulgated thereunder, or (B) to comply with the provisions of Section 148(f) of the Code, including provisions for the payment of all or a portion of the investment earnings of any of the Funds established under the Indenture to the United States of America;

(h) If the Bonds affected by any change are rated by a Rating Agency, to make any change which does not result in a reduction of the rating applicable to any of the Bonds so affected, provided that if any of the Bonds so affected are secured by a Security Instrument, such change must be approved in writing by the related Security Instrument Issuer;

(i) If the Bonds affected by any change are secured by a Security Instrument, to make any additional change approved in writing by the related Security Instrument Issuer, provided that if any of the Bonds so affected are rated by a Rating Agency, such change shall not result in a reduction of the rating applicable to any of the Bonds so affected;

(j) Unless otherwise provided by a Supplemental Indenture authorizing a Series of Bonds, the designation of the facilities to constitute a Project by such Supplemental Indenture may be modified or amended if the Issuer delivers to the Trustee (i) a Supplemental Indenture designating the facilities to comprise the Project, (ii) an opinion of Bond Counsel to the effect that such amendment will not adversely affect the tax-exempt status (if applicable) or validity of the Bonds and (iii) a certificate of the Issuer to the effect that such amendment will not adversely affect the Issuer's ability to comply with the provisions of the Indenture; and

(k) To correct any references contained in the Indenture to provisions of the Act, the Code or other applicable provisions of law that have been amended so that the references in the Indenture are correct.

Supplemental Indentures Requiring Consent of Registered Owners and Reserve Instrument Providers; Waivers and Consents by Registered Owners

Exclusive of Supplemental Indentures covered above and subject to the terms and provisions contained in this Section, and not otherwise, the Registered Owners of 66 2/3% in aggregate Principal amount of the Bonds then Outstanding shall have the right, from time to time, anything contained in the Indenture to the contrary notwithstanding, to (i) consent to and approve the execution by the Issuer and the Trustee of such other indenture or indentures supplemental to the Indenture as shall be deemed necessary and desirable by the Issuer for the purpose of modifying, altering, amending, adding to or rescinding, in any particular, any of the terms or provisions contained in the Indenture or in any Supplemental Indenture, or (ii) waive or consent to the taking by the Issuer of any action prohibited, or the omission by the Issuer of the taking of any action required, by any of the provisions of the Indenture or of any indenture supplemental to the Indenture; provided, however, that nothing in this section

contained shall permit or be construed as permitting (a) an extension of the date that a Principal Installment is due at maturity or mandatory redemption or reduction in the principal amount of, or reduction in the rate of or extension of the time of paying of interest on, or reduction of any premium payable on the redemption of, any Bond, without the consent of the Registered Owner of such Bond, or (b) a reduction in the amount or extension of the time of any payment required by any Fund established under the Indenture applicable to any Bonds without the consent of the Registered Owners of all the Bonds which would be affected by the action to be taken, or (c) a reduction in the aforesaid aggregate principal amount of Bonds, the Registered Owners of which are required to consent to any such waiver or Supplemental Indenture, or (d) affect the rights of the Registered Owners of less than all Bonds then outstanding, without the consent of the Registered Owners of all the Bonds at the time Outstanding which would be affected by the action to be taken. In addition, no supplement to the Indenture shall modify the rights, duties, or immunities of the Trustee, without the written consent of the Trustee. If a Security Instrument or a Reserve Instrument is in effect with respect to any Series of Bonds Outstanding and if a proposed modification or amendment would affect such Series of Bonds, then, except as provided in the immediately preceding paragraph, neither the Indenture nor any Supplemental Indenture with respect to such Series of Bonds shall be modified or amended at any time without the prior written consent of the related Security Instrument Issuer or Reserve Instrument Provider, as applicable.

#### **Discharge Of Indenture**

If the Issuer shall pay or cause to be paid, or there shall be otherwise paid or provision for payment made, to or for the Registered Owners of the Bonds, the principal of and interest due or to become due thereon at the times and in the manner stipulated in the Indenture, and shall pay or cause to be paid to the Trustee all sums of moneys due or to become due according to the provisions of the Indenture, and to all Security Instrument Issuers and all Reserve Instrument Providers all sums of money due or to become due according to the provisions of any Security Instrument Agreements, Reserve Instrument Agreements, as applicable, then these presents and the estate and rights hereby granted shall cease, terminate and be void, whereupon the Trustee shall cancel and discharge the lien of the Indenture, and release, assign and deliver unto the Issuer any and all the estate, right, title and interest in and to any and all rights assigned or pledged to the Trustee, held by the Trustee, or otherwise subject to the lien of the Indenture, except moneys or securities held by the Trustee for the payment of the principal of and interest on the Bonds, the payment of amounts pursuant to any Security Instrument Agreements or the payment of amounts pursuant to any Reserve Instrument Agreements.

Any Bond shall be deemed to be paid within the meaning of the Indenture when payment of the principal of such Bond, plus interest thereon to the due date thereof (whether such due date be by reason of maturity or upon redemption as provided in the Indenture, or otherwise), either (a) shall have been made or caused to have been made in accordance with the terms thereof, or (b) shall have been provided by irrevocably depositing with or for the benefit of the Trustee, in trust and irrevocably setting aside exclusively for such payment, (i) moneys sufficient to make such payment, or (ii) Direct Obligations, maturing as to principal and interest in such amount and at such times as will insure the availability of sufficient moneys to make such payment, and all necessary and proper fees, compensation and expenses of the Trustee and any paying agent pertaining to the Bond with respect to which such deposit is made shall have been paid or the payment thereof provided for to the satisfaction of the Trustee. At such times as a Bond shall be deemed to be paid under the Indenture, as aforesaid, it shall no longer be secured by or entitled to the benefits of the Indenture, except for the purposes of any such payment from such moneys or Direct Obligations.

Notwithstanding the foregoing, in the case of Bonds, which by their terms may be redeemed prior to their stated maturity, no deposit under the immediately preceding paragraph shall be deemed a payment of such Bonds as aforesaid until the Issuer shall have given the Trustee, in form satisfactory to the Trustee, irrevocable instructions:

(a) stating the date when the principal of each such Bond is to be paid, whether at maturity or on a redemption date (which shall be any redemption date permitted by the Indenture);

(b) directing the Trustee to call for redemption pursuant to the Indenture any Bonds to be redeemed prior to maturity pursuant to the provisions of the Indenture; and

(c) if the Bonds to be redeemed will not be redeemed within 90 days of such deposit, directing the Trustee to mail, as soon as practicable, in the manner prescribed by the Indenture, a notice to the Registered Owners of such Bonds and to each related Security Instrument Issuer that the deposit required by the Indenture has been made with the Trustee and that such Bonds are deemed to have been paid in accordance with the Indenture and stating the maturity or redemption date upon which moneys are to be available for the payment of the principal or redemption price, if applicable, on said Bonds as specified in subparagraph (a) above.

Any moneys so deposited with the Trustee as provided in the Indenture may at the direction of the Issuer also be invested and reinvested in Direct Obligations, maturing in the amounts and times as set forth above, and all income from all Direct Obligations in the hands of the Trustee pursuant to the Indenture which is not required for the payment of the Bonds and interest thereon with respect to which such moneys shall have been so deposited, shall be deposited in the Bond Fund as and when realized and collected for use and application as are other moneys deposited in that fund; provided, however, that before any excess moneys shall be deposited in the Bond Fund, the Trustee shall first obtain a written verification from a certified public accountant that the moneys remaining on deposit with the Trustee and invested in Direct Obligations after such transfer to the Bond Fund shall be sufficient in amount to pay principal and interest on the Bonds when due and payable.

No such deposit under the Indenture shall be made or accepted under the Indenture and no use made of any such deposit unless the Trustee shall have received an opinion of nationally recognized municipal bond counsel to the effect that such deposit and use would not cause any tax-exempt Bonds to be treated as arbitrage bonds within the meaning of Sections 148 of the Code.

Notwithstanding any provision of the Indenture which may be contrary to the provisions relating to discharge of the Indenture, all moneys or Direct Obligations set aside and held in trust pursuant to the provisions of the Indenture for the payment of Bonds (including interest thereon) shall be applied to and used solely for the payment of the particular Bonds (including interest thereon) with respect to which such moneys or Direct Obligations have been so set aside in trust.

Anything in the Indenture relating to events of default and remedies to the contrary notwithstanding, if moneys or Direct Obligations have been deposited or set aside with the Trustee pursuant to the Indenture for the payment of Bonds and such Bonds shall not have in fact been actually paid in full, no amendment to the provisions of the Indenture shall be made without the consent of the Registered Owner of each Bond affected thereby.

### FORM OF OPINION OF BOND COUNSEL

Upon the issuance of the Series 2011 Bonds, Ballard Spahr LLP, Bond Counsel to the City, proposes to issue its approving opinion in substantially the following form:

We have acted as bond counsel for Eagle Mountain City, Utah (the "Issuer") in connection with the issuance by the Issuer of its \$ \_\_\_\_\_ Gas and Electric Revenue Bonds, Series 2011 (the "Series 2011 Bonds"). The Series 2011 Bonds are being issued pursuant to (i) the Local Government Bonding Act, Title 11, Chapter 14, Utah Code Annotated 1953, as amended; (ii) resolutions of the Issuer adopted May 3, 2011 and August \_\_, 2011 (together, the "Resolution"); and (iii) a General Indenture of Trust dated as of September 1, 2005, as heretofore amended and supplemented (the "General Indenture"), and as further supplemented by a Second Supplemental Indenture of Trust dated as of August 1, 2011 (the "Second Supplemental Indenture" and together with the General Indenture, the "Indenture") between the Issuer and U.S. Bank National Association, as trustee. The Series 2011 Bonds are being issued to (i) finance the costs of improvements to the Issuer's gas and electric system, (ii) acquire a reserve fund surety for deposit to a debt service reserve fund, and (iii) pay costs of issuance of the Series 2011 Bonds.

Our services as bond counsel have been limited to the preparation of the legal proceedings and supporting certificates authorizing the issuance of the Series 2011 Bonds under the applicable laws of the State of Utah and to a review of the transcript of such proceedings and certificates. As to questions of fact material to our opinion, we have relied upon certified proceedings and other certifications of public officials furnished to us without undertaking to verify the same by independent investigation. Our examination has been limited to the foregoing as they exist or are in effect as of the date hereof. Our opinion is limited to the matters expressly set forth herein, and we express no opinion concerning any other matters.

Based on our examination and the foregoing, we are of the opinion as of the date hereof and under existing law, as follows:

1. The Issuer is a political subdivision and body politic of the State of Utah created and validly existing under the laws of the State of Utah.
2. The Indenture has been authorized, executed and delivered by the Issuer and constitutes a valid and binding obligation of the Issuer enforceable upon the Issuer.
3. The Indenture creates a valid lien on the Net Revenues (as defined in the Indenture) and other amounts pledged for the security of the Series 2011 Bonds.
4. The Series 2011 Bonds are valid and binding special obligations of the Issuer payable solely from the Net Revenues and other amounts pledged therefor in the Indenture, and the Series 2011 Bonds do not constitute a general obligation indebtedness of the Issuer within the meaning of any State of Utah constitutional provision or statutory limitation, or a charge against the general credit or taxing power of the Issuer.
5. Interest on the Series 2011 Bonds is excludable from gross income for purposes of federal income tax under existing laws as enacted and construed on the date of initial delivery of the Series 2011 Bonds, assuming the accuracy of the certifications of the Issuer and continuing compliance by the Issuer with the requirements of the Internal Revenue Code of 1986 (the "Code"). Interest on the Series 2011 Bonds is not an item of tax preference for purposes of either individual or corporate federal alternative minimum tax ("AMT"); however, interest on Series 2011 Bonds held by a corporation (other than an S corporation, regulated investment company, or real estate investment trust) may be indirectly subject to federal AMT because of its inclusion in the adjusted current earnings of a corporate holder.
6. Interest on the Series 2011 Bonds is exempt from State of Utah individual income taxes.

In rendering our opinion, we wish to advise you that:

(a) The rights of the holders of the Series 2011 Bonds and the enforceability thereof and of the documents identified in this opinion may be subject to bankruptcy, insolvency, reorganization, arrangement, fraudulent conveyance, moratorium and other laws relating to or affecting creditors' rights heretofore or hereafter enacted to the extent constitutionally applicable, and their enforcement may also be subject to the application of equitable principles and the exercise of judicial discretion in appropriate cases;

(b) We express no opinion herein as to the accuracy, adequacy, or completeness of the Official Statement or any other offering material relating to the Series 2011 Bonds; and

(c) Except as set forth above, we express no opinion regarding any other tax consequences relating to the ownership or disposition of, or the accrual or receipt of interest on, the Series 2011 Bonds.

Respectfully submitted,

## APPENDIX E

If the City chooses to include any information in any Annual Disclosure Report or notice of occurrence of a Listed Event in addition to that which is specifically required by this Disclosure Agreement, the City shall have no obligation under this Disclosure Agreement to update such information or include it in any future Annual Report or notice of occurrence of a Listed Event.

## APPENDIX F

### PROVISIONS REGARDING BOOK-ENTRY ONLY SYSTEM

DTC will act as securities depository for the Series 2011 Bonds. The Series 2011 Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Bond certificate will be issued for each maturity of the Series 2011 Bonds, each in the aggregate principal amount of such maturity, and will be deposited with DTC or its agent.

DTC and its Participants. DTC, the world's largest depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is a wholly owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has Standard & Poor's highest rating: AAA. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at [www.dtcc.com](http://www.dtcc.com) and [www.dtc.org](http://www.dtc.org).

Purchases of Series 2011 Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Series 2011 Bonds on DTC's records. The ownership interest of each actual purchaser of each Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Series 2011 Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Series 2011 Bonds, except in the event that use of the book-entry system for the Series 2011 Bonds is discontinued.

To facilitate subsequent transfers, all Series 2011 Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Series 2011 Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Series 2011 Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Series 2011 Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Series 2011 Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Series 2011 Bonds, such as redemptions, tenders, defaults, and proposed amendments to the Bond documents. For example, Beneficial Owners of Series 2011 Bonds may wish to

ascertain that the nominee holding the Series 2011 Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners.

Redemption notices shall be sent to DTC. If less than all of the Series 2011 Bonds within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Series 2011 Bonds unless authorized by a Direct Participant in accordance with DTC's Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts Series 2011 Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds, distributions, and dividend payments on the Series 2011 Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the Issuer or the Paying Agent, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Paying Agent, or the Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and interest payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the Issuer or the Paying Agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Series 2011 Bonds at any time by giving reasonable notice to the Issuer or the Paying Agent. Under such circumstances, in the event that a successor depository is not obtained, Bond certificates are required to be printed and delivered.

The City may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Bond certificates will be printed and delivered to DTC.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the City believes to be reliable, but the City takes no responsibility for the accuracy thereof.

ASSURED GUARANTY MUNICIPAL CORP. ("AGM"), for consideration received, hereby UNCONDITIONALLY AND IRREVOCABLY agrees to pay to the trustee (the "Trustee") or paying agent (the "Paying Agent") (as set forth in the documentation providing for the issuance of and securing the Bonds) for the Bonds, for the benefit of the Owners or, at the election of AGM, directly to each Owner, subject only to the terms of this Policy (which includes each endorsement hereto), that portion of the principal of and interest on the Bonds that shall become Due for Payment but shall be unpaid by reason of Nonpayment by the Issuer.

On the later of the day on which such principal and interest becomes Due for Payment or the Business Day next following the Business Day on which AGM shall have received Notice of Nonpayment, AGM will disburse to or for the benefit of each Owner of a Bond the face amount of principal of and interest on the Bond that is then Due for Payment but is then unpaid by reason of Nonpayment by the Issuer, but only upon receipt by AGM, in a form reasonably satisfactory to it, of (a) evidence of the Owner's right to receive payment of the principal or interest then Due for Payment and (b) evidence, including any appropriate instruments of assignment, that all of the Owner's rights with respect to payment of such principal or interest that is Due for Payment shall thereupon vest in AGM. A Notice of Nonpayment will be deemed received on a given Business Day if it is received prior to 1:00 p.m. (New York time) on such Business Day; otherwise, it will be deemed received on the next Business Day. If any Notice of Nonpayment received by AGM is incomplete, it shall be deemed not to have been received by AGM for purposes of the preceding sentence and AGM shall promptly so advise the Trustee, Paying Agent or Owner, as appropriate, who may submit an amended Notice of Nonpayment. Upon disbursement in respect of a Bond, AGM shall become the owner of the Bond, any appurtenant coupon to the Bond or right to receipt of payment of principal of or interest on the Bond and shall be fully subrogated to the rights of the Owner, including the Owner's right to receive payments under the Bond, to the extent of any payment by AGM hereunder. Payment by AGM to the Trustee or Paying Agent for the benefit of the Owners shall, to the extent thereof, discharge the obligation of AGM under this Policy.

Except to the extent expressly modified by an endorsement hereto, the following terms shall have the meanings specified for all purposes of this Policy. "Business Day" means any day other than (a) a Saturday or Sunday or (b) a day on which banking institutions in the State of New York or the Insurer's Fiscal Agent are authorized or required by law or executive order to remain closed. "Due for Payment" means (a) when referring to the principal of a Bond, payable on the stated maturity date thereof or the date on which the same shall have been duly called for mandatory sinking fund redemption and does not refer to any earlier date on which payment is due by reason of call for redemption (other than by mandatory sinking fund redemption), acceleration or other advancement of maturity unless AGM shall elect, in its sole discretion, to pay such principal due upon such acceleration together with any accrued interest to the date of acceleration and (b) when referring to interest on a Bond, payable on the stated date for payment of interest. "Nonpayment" means, in respect of a Bond, the failure of the Issuer to have provided sufficient funds to the Trustee or, if there is no Trustee, to the Paying Agent for payment in full of all principal and interest that is Due for Payment on such Bond. "Nonpayment" shall also include, in respect of a Bond, any payment of principal or interest that is Due for Payment made to an Owner by or on behalf of the Issuer which has been recovered from such Owner pursuant to the

United States Bankruptcy Code by a trustee in bankruptcy in accordance with a final, nonappealable order of a court having competent jurisdiction. "Notice" means telephonic or telecopied notice, subsequently confirmed in a signed writing, or written notice by registered or certified mail, from an Owner, the Trustee or the Paying Agent to AGM which notice shall specify (a) the person or entity making the claim, (b) the Policy Number, (c) the claimed amount and (d) the date such claimed amount became Due for Payment. "Owner" means, in respect of a Bond, the person or entity who, at the time of Nonpayment, is entitled under the terms of such Bond to payment thereof, except that "Owner" shall not include the Issuer or any person or entity whose direct or indirect obligation constitutes the underlying security for the Bonds.

AGM may appoint a fiscal agent (the "Insurer's Fiscal Agent") for purposes of this Policy by giving written notice to the Trustee and the Paying Agent specifying the name and notice address of the Insurer's Fiscal Agent. From and after the date of receipt of such notice by the Trustee and the Paying Agent, (a) copies of all notices required to be delivered to AGM pursuant to this Policy shall be simultaneously delivered to the Insurer's Fiscal Agent and to AGM and shall not be deemed received until received by both and (b) all payments required to be made by AGM under this Policy may be made directly by AGM or by the Insurer's Fiscal Agent on behalf of AGM. The Insurer's Fiscal Agent is the agent of AGM only and the Insurer's Fiscal Agent shall in no event be liable to any Owner for any act of the Insurer's Fiscal Agent or any failure of AGM to deposit or cause to be deposited sufficient funds to make payments due under this Policy.

To the fullest extent permitted by applicable law, AGM agrees not to assert, and hereby waives, only for the benefit of each Owner, all rights (whether by counterclaim, setoff or otherwise) and defenses (including, without limitation, the defense of fraud) whether acquired by subrogation, assignment or otherwise, to the extent that such rights and defenses may be available to AGM to avoid payment of its obligations under this Policy in accordance with the express provisions of this Policy.

This Policy sets forth in full the undertaking of AGM, and shall not be modified, altered or affected by any other agreement or instrument, including any modification or amendment thereto. Except to the extent expressly modified by an endorsement hereto, (a) any premium paid in respect of this Policy is nonrefundable for any reason whatsoever, including payment, or provision being made for payment, of the Bonds prior to maturity and (b) this Policy may not be canceled or revoked. THIS POLICY IS NOT COVERED BY THE PROPERTY/CASUALTY INSURANCE SECURITY FUND SPECIFIED IN ARTICLE 76 OF THE NEW YORK INSURANCE LAW.

**The Series 2011 Bonds**

This Official Statement, including the cover page, introduction and appendices, provides information in connection with the issuance and sale by the City of its \$11,085,000 Gas and Electric Revenue Bonds, Series 2011 (the "Series 2011 Bonds"), initially issued in book-entry form only. The Series 2011 Bonds will mature in the amounts and bear interest at the rates set forth on the inside cover page of this Official Statement. The Series 2011 Bonds are subject to optional and mandatory sinking fund redemption as described herein. See "THE SERIES 2011 BONDS" herein.

**The Project and Uses of Proceeds**

Proceeds of the Series 2011 Bonds will be used to (a) finance the acquisition of property for rights of way and the construction of a substation, power lines, and related improvements (collectively, the "Series 2011 Project"), (b) acquire a reserve fund surety for deposit to a debt service reserve fund, and (c) pay costs of issuance related to the Series 2011 Bonds. See "ESTIMATED SOURCES AND USES OF FUNDS" herein.

**The City**

The City was incorporated on December 3, 1996. The City covers approximately 52.7 square miles and is located approximately 30 miles northwest of Provo City and approximately 40 miles southwest of Salt Lake City. At the time the City was incorporated, it consisted primarily of agricultural land, had no commercial area and had a population of approximately 175 people. The City has experienced steady development and estimates that it is

approximately 15% built-out and anticipates reaching full build-out in the next 50 years with a population of approximately 225,000. The City estimates that its population in 2010 was approximately 24,000. For more information with respect to the City, see "EAGLE MOUNTAIN CITY," "APPENDIX A— BASIC FINANCIAL STATEMENTS WITH INDEPENDENT AUDITOR'S REPORT FOR THE YEAR ENDED JUNE 30, 2010," and "APPENDIX C—GENERAL INFORMATION REGARDING THE CITY AND UTAH COUNTY" herein.

### **The System**

The Gas System includes a 6-inch high pressure gas line from the Kern River Gas Tap located in the southern area of the City. The gas is delivered to the City's distribution system under a transportation contract with the Kern River Pipeline Company. The Gas System currently serves approximately 5,524 equivalent residential units (ERUs). The City's current distribution system has the capacity to serve approximately 25,000 ERUs. The total capacity of the 6-inch high pressure gas line is approximately 50,000 ERUs. See "THE SYSTEM—The Gas System" herein.

The Electric System consists of a 138 kiloVolt ("kV") transmission line, 138kV interconnection substation, 138–12.47Y/7.2kV substation, and 12.47Y/7.2kV distribution system. The Electric System presently includes approximately 150 miles of 138kV overhead transmission and 12.47Y/7.2kV overhead and underground distribution. The City's 138kV overhead transmission line is connected to a PacifiCorp 138kV overhead transmission line at the interconnection substation.

The Electrical System currently supplies up to 21 megawatts ("MW") during the summertime. The City's current substation is capable of reliably supplying up to 33 MW. The existing transmission line and interconnection substation have the capacity to handle up to 170 MW. See "THE SYSTEM—The Electric System" herein.

As part of the Series 2011 Project, the City will construct a new substation in the southern portion of the City and a new 138kV transmission line. See "THE SERIES 2011 PROJECT."

### **Authority for the Series 2011 Bonds**

The Series 2011 Bonds are being issued pursuant to (i) the Local Government Bonding Act, Title 11, Chapter 14, Utah Code Annotated 1953, as amended (the "Act"); (ii) a General Indenture of Trust dated as of September 1, 2005 (the "General Indenture"), as heretofore amended and supplemented, between the City and U.S. Bank National Association, as trustee (the "Trustee"); (iii) a Second Supplemental Indenture of Trust dated as of August 1, 2011 (the "Second Supplemental Indenture" and together with the General Indenture, the "Indenture"); (iv) Resolutions of the City Council of the City (the "City Council") adopted on May 3, 2011 and August 2, 2011 (together, the "Resolution"); and (v) other applicable provisions of law.

### **Security and Sources of Payment**

The Series 2011 Bonds will be payable from and secured solely by a pledge and assignment of the Net Revenues of the System and moneys on deposit in the funds and accounts held by the Trustee under the Indenture (except the Rebate Fund). The Revenues of the System will be applied to pay the System's Operation and Maintenance Expenses before being applied to pay principal of and interest on the Bonds. See "SECURITY FOR THE BONDS" herein. The Series 2011 Bonds are secured on a lien parity with the Outstanding Parity Bonds (as defined below) and any additional bonds, notes or other obligations (the "Additional Bonds") which may be issued from time to time under the Indenture. See "SECURITY FOR THE BONDS" herein.

*The Series 2011 Bonds are special limited obligations of the City payable solely from the Net Revenues of the System (except to the extent paid out of moneys attributable to Bond proceeds or other funds created under the Indenture and held by the Trustee (except the Rebate Fund) or the income from the temporary investment thereof). The Series 2011 Bonds will not be a general obligation of the City, the State of Utah or any agency, instrumentality or political subdivision thereof. Neither the faith and credit nor the taxing power of the City, the State of Utah or any agency, instrumentality or political subdivision thereof will be assigned or pledged for payment of the Series*

*2011 Bonds. The Indenture does not pledge any properties of the System. THE CITY WILL NOT MORTGAGE OR GRANT A SECURITY INTEREST IN THE SYSTEM TO SECURE PAYMENT OF THE SERIES 2011 BONDS.*

#### **Bond Insurance**

The scheduled payment of principal of and interest on the Series 2011 Bonds when due will be guaranteed under a municipal bond insurance policy (the "Policy") to be issued concurrently with the delivery of the Series 2011 Bonds by Assured Guaranty Municipal Corp. (referred to herein as "AGM" or the "Insurer"). See "BOND INSURANCE" herein.

#### **Outstanding Parity Bonds**

The City has previously issued its Gas and Electric Refunding Bonds, Series 2005 (the "Outstanding Parity Bonds"), which are currently outstanding in the aggregate principal amount of \$19,275,000. Said Bonds were issued to finance certain improvements to the System and refund certain prior obligations. The Outstanding Parity Bonds are payable from and secured by the Net Revenues on a parity with the Series 2011 Bonds. See "SECURITY FOR THE BONDS" herein.

#### **Additional Bonds**

The Indenture permits the issuance of Additional Bonds secured by the Net Revenues on a parity with the Series 2011 Bonds and Outstanding Parity Bonds, but requires that the City provide certain certificates and opinions as a condition to the issuance of Additional Bonds. Included in these conditions is the requirement that the Net Revenues for the most recent Bond Fund Year were not less than 125% of the sum of the Aggregate Annual Debt Service Requirement on Bonds then outstanding and the Additional Bonds proposed to be issued. See "SECURITY FOR THE BONDS—Additional Bonds" herein. The Series 2011 Bonds, the Outstanding Parity Bonds, and any Additional Bonds issued under the Indenture are referred to collectively herein as the "Bonds."

#### **Registration, Denominations, Manner of Payment**

The Series 2011 Bonds are issuable only as fully registered bonds and, when initially issued, will be registered in the name of Cede & Co., as nominee for The Depository Trust Company, New York, New York ("DTC"). DTC will act as securities depository for the Series 2011 Bonds. Purchases of Series 2011 Bonds will be made in book-entry form only in the principal amount of \$5,000 minimum denominations and integral multiples of \$5,000 (collectively, "Authorized Denominations"); through brokers and dealers who are, or who act through, DTC Participants. Beneficial Owners of the Series 2011 Bonds will not be entitled to receive physical delivery of bond certificates so long as DTC or a successor securities depository acts as the securities depository with respect to the Series 2011 Bonds.

Principal of and interest on the Series 2011 Bonds (interest payable on each June 1 and December 1, commencing June 1, 2012) shall be paid by U.S. Bank National Association, Corporate Trust Services, Salt Lake City, Utah, as Paying Agent, to the Registered Owners of the Series 2011 Bonds. So long as DTC is the Registered Owner, it will, in turn, remit such principal and interest payments to its Participants, for subsequent disbursements to the Beneficial Owners of the Series 2011 Bonds as described under the caption "THE SERIES 2011 BONDS—Book-Entry Only System" below.

#### **Transfer or Exchange**

So long as the book-entry system is in effect, Beneficial Owners may transfer their interests in the Series 2011 Bonds through the book-entry system. In the event the book-entry system is discontinued, the Series 2011 Bonds may be transferred or exchanged as described below. See "THE SERIES 2011 BONDS—General" below.

### **Tax-Exempt Status**

**Federal Income Tax.** In the opinion of Ballard Spahr LLP, Bond Counsel to the City, interest on the Series 2011 Bonds is excludable from gross income for purposes of federal income tax, assuming continuing compliance with the requirements of the federal tax laws. Interest on the Series 2011 Bonds is not a preference item for purposes of either individual or corporate federal alternative minimum tax ("AMT"); however, interest paid to corporate holders of the Series 2011 Bonds may be indirectly subject to AMT under circumstances described under "TAX MATTERS" herein.

Bond Counsel expresses no opinion regarding any other federal tax consequences relating to ownership or disposition of or the accrual or receipt of interest on the Series 2011 Bonds.

**State Income Tax.** Bond Counsel is also of the opinion that, under currently existing laws, interest on the Series 2011 Bonds is exempt from State of Utah individual income taxes. See "TAX MATTERS" herein.

### **THE SERIES 2011 BONDS**

#### **General**

The Series 2011 Bonds will be dated the date of their issuance and will mature on June 1, of the years and in the amounts as set forth on the inside front cover page of this Official Statement.

The Series 2011 Bonds shall bear interest from their date at the rates set forth on the inside front cover page of this Official Statement. Interest on the Series 2011 Bonds is payable on June 1, 2012, and semiannually thereafter on June 1 and December 1 of each year (each in "Interest Payment Date"). Interest on the Series 2011 Bonds shall be computed on the basis of a 360-day year of twelve 30-day months. U.S. Bank National Association, Corporate Trust Department, Salt Lake City, Utah, is the Bond Registrar, Paying Agent and Trustee for the Series 2011 Bonds under the Indenture (in such respective capacities, the "Bond Registrar," "Paying Agent" and "Trustee").

The interest on the Series 2011 Bonds so payable, and punctually paid and duly provided for, on any Interest Payment Date will be paid to the Registered Owner (initially DTC) thereof at the close of business on the Regular Record Date for such interest, which shall be the fifteenth day (whether or not a Business Day) immediately preceding such Interest Payment Date. Any such interest not so punctually paid or duly provided for shall forthwith cease to be payable to the Registered Owner of any Series 2011 Bonds on such Regular Record Date, and may be paid to the Registered Owner thereof at the close of business on a Special Record Date for the payment of such defaulted interest to be fixed by the Trustee, notice thereof to be given to such Registered Owner not less than ten days prior to such Special Record Date.

The Series 2011 Bonds will be issued as fully registered bonds, initially in book-entry form, in the denomination of \$5,000 or any integral multiple thereof (an "Authorized Denomination"), not exceeding the amounts of each maturity.

Upon surrender for transfer of any Series 2011 Bond at the principal corporate trust office of the Trustee, duly endorsed by, or accompanied by a written instrument or instruments of transfer in form satisfactory to the Trustee and duly executed by, the Registered Owner or his attorney duly authorized in writing, the City shall execute and the Trustee shall authenticate and deliver in the name of the transferee or transferees, a new Series 2011 Bond or Series 2011 Bonds of the same Series and the same maturity for a like aggregate principal amount as the Series 2011 Bond surrendered for transfer. Series 2011 Bonds may be exchanged at the principal corporate trust office of the Trustee for a like aggregate principal amount of Series 2011 Bonds of the same maturity. The

execution by the City of any Series 2011 Bond of any authorized denomination shall constitute full and due authorization of such denomination, and the Trustee shall thereby be authorized to authenticate and deliver such Series 2011 Bond. The City and the Trustee shall not be required to transfer or exchange any Series 2011 Bond (i) during the period from and including any Regular Record Date, to and including the next succeeding Interest Payment Date, (ii) during the period from and including the day fifteen days prior to any Special Record Date, to and including the date of the proposed payment pertaining thereto, (iii) during the period from and including the day fifteen days prior to the mailing of notice calling any Series 2011 Bonds for redemption, to and including the date of such mailing, or (iv) at any time following the mailing of notice calling such Series 2011 Bond for redemption.

The City, the Registrar and the Paying Agent may treat and consider the person in whose name each Series 2011 Bond is registered on the registration books kept by the Registrar as the holder and absolute owner thereof for the purpose of receiving payment of, or on account of, the principal or redemption price thereof and interest due thereon and for all other purposes whatsoever, and neither the City, nor the Registrar nor the Paying Agent shall be affected by any notice to the contrary. Payment of or on account of either principal of or interest on any Series 2011 Bond shall be made only to or upon order of the Registered Owner thereof or such person's legal representative, but such registration may be changed as provided in the Indenture. All such payments shall be valid and effectual to satisfy and discharge the liability upon such Series 2011 Bond to the extent of the sum or sums so paid.

The Trustee shall require the payment by the Bondholder requesting exchange or transfer of Series 2011 Bonds of any tax or other governmental charge and by the City of any service charge of the Trustee as Registrar which are required to be paid with respect to such exchange or transfer and such charges shall be paid before such new Series 2011 Bond shall be delivered.

**Book-Entry Only System**

The Depository Trust Company, New York, New York ("DTC") will act as securities depository for the Series 2011 Bonds. The Series 2011 Bonds will be issued as fully registered bonds registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully registered Series 2011 Bond certificate will be issued for each maturity of the Series 2011 Bonds, in the aggregate principal amount of such issue, and will be deposited with DTC. See "APPENDIX F—PROVISIONS REGARDING BOOK-ENTRY ONLY SYSTEM," herein.

**Redemption Provisions**

Optional Redemption. The Series 2011 Bonds maturing on or prior to June 1, 2021 are not subject to redemption prior to maturity. The Series 2011 Bonds maturing on or after June 1, 2022 are subject to redemption at the option of the City on June 1, 2021, and on any date thereafter prior to maturity, in whole or in part, from such maturities of parts thereof as may be selected by the City at a redemption price equal to 100% of the principal amount of the Series 2011 Bonds to be redeemed plus accrued interest thereon to the date of redemption.

Mandatory Sinking Fund Redemption. The Series 2011 Bonds maturing on June 1, 2031 are subject to mandatory sinking fund redemption by the Trustee at a price of 100% of the principal amount thereof plus accrued interest to the redemption date on the dates and in the principal amounts as follows:

Mandatory Sinking Fund Redemption Date (June 1)	Sinking Fund Requirements
2027	\$615,000
2028	645,000
2029	670,000
2030	700,000
2031 <sup>†</sup>	730,000

<sup>†</sup> Stated Maturity.

Upon redemption of any Series 2011 Bonds maturing on June 1, 2031, other than pursuant to a mandatory sinking fund redemption, the principal amount so redeemed shall be credited toward a part or all of any one or more such Mandatory Sinking Fund amounts for the Series 2011 Bonds maturing on June 1, 2031 in such order as shall be determined by the City.

**Selection for Redemption.** Except for redemption pursuant to mandatory sinking fund requirements above, if fewer than all Series 2011 Bonds are to be redeemed, the particular maturities of such Series 2011 Bonds and the principal amount of such maturities to be redeemed shall be selected by the City. If fewer than all of the Series 2011 Bonds of any one maturity called for redemption, the particular units of Series 2011 Bonds to be redeemed shall be selected by the Trustee in such manner as the Trustee in its discretion may deem fair and appropriate. The portion of any Series 2011 Bond of a denomination of more than an Authorized Denomination to be redeemed will be in the principal amount of an Authorized Denomination or any integral multiple thereof, and in selecting portions of such bonds for redemption, each such bond shall be treated as representing that number of Series 2011 Bonds of an Authorized Denomination which is obtained by dividing the principal amount of such Series 2011 Bonds by the minimum Authorized Denomination.

**Notice of Redemption.** So long as the Series 2011 Bonds are in book-entry only form, the Paying Agent shall notify DTC of an early redemption not less than 30 days nor more than 60 days prior to the date fixed for redemption, and shall provide such information as required by the Indenture.

**THE SERIES 2011 PROJECT**

Proceeds of the Series 2011 Bonds will be used to finance improvements to the System, including the acquisition of property for rights of way and the construction of a new substation in the southern portion of the City, a new 138kV transmission line, and related improvements. With the completion of the new southern substation, the distribution system will be able to supply an additional 33 MW for a total distribution system capacity of 66 MW. Completion of the 138kV transmission line will provide a redundant source of power delivery to the City in case of equipment failure or damage to the existing 138 kV line. Overall, the Series 2011 Project will provide redundancy to and improve reliability of the System and accommodate future growth and economic development. See "THE SYSTEM" below.

## SECURITY FOR THE BONDS

### Pledge of the Indenture

The Series 2011 Bonds, the Outstanding Parity Bonds, and any other Bonds hereafter issued pursuant to the Indenture are secured equally and ratably by a pledge of (i) the Net Revenues, (ii) all moneys in funds and accounts held by the Trustee under the Indenture (except the Rebate Fund), and (iii) all other rights granted under the Indenture. The Series 2011 Bonds are special limited obligations of the City and are payable exclusively from the Net Revenues, moneys, funds and accounts held under the Indenture. As defined under the Indenture, "Net Revenues" means the Revenues after provision has been made for the payment therefrom from Operation and Maintenance Expenses.

"Revenues" means all revenues, fees, impact fees (to the extent legally pledged by the City with respect to gas and electric improvements financed with Bond proceeds), income, rents and receipts received or earned by the City from or attributable to the ownership and operation of the System (including proceeds of business interruption insurance), together with all interest earned by and profits derived from the sale of investments in the related funds thereof.

"Operation and Maintenance Expenses" means all expenses reasonably incurred in connection with the operation and maintenance of the System, whether incurred by the City or paid to any other entity pursuant to contract or otherwise, necessary to keep the System in efficient operating condition, including the cost of required audits, payment of promotional and marketing expenses and real estate brokerage fees, payment of premiums for

required insurance, fees, premiums and expenses of any debt service reserve fund guarantees or other credit enhancement on the Bonds, rebatable arbitrage on the Bonds and, generally all expenses, exclusive of depreciation (including depreciation related expenses of any joint venture) and, any in-lieu of tax transfers to City funds and interest expense for interfund loans from City funds, which under generally accepted accounting practices are properly allocable to operation and maintenance; however, only such expenses as are reasonably and properly necessary to the efficient operation and maintenance of the System shall be included.

*Neither the faith and credit nor the taxing power of the City is pledged as security for the Series 2011 Bonds. The Series 2011 Bonds do not constitute general obligations of the City or of any other entity or body, municipal, state or otherwise. The Indenture does not pledge any System properties.*

For a description of the System, rates and charges for services provided by the System and moneys available for use in connection with the System, see "THE SYSTEM" and "THE SYSTEM—Rates" herein.

### **Debt Service Reserve**

The Indenture establishes a Debt Service Reserve Requirement and an account in the Debt Service Reserve Fund with respect to the Series 2011 Bonds. Initially the Debt Service Reserve Requirement for the Series 2011 Bonds will be \$1,019,865.62 and will be funded with the Reserve Policy. The Reserve Policy constitutes a Reserve Instrument under the Indenture. The Series 2011 Bonds will only be delivered upon the issuance of such Reserve Policy. The premium on the Reserve Policy is to be fully paid at or prior to the issuance and delivery of the Series 2011 Bonds.

The account in the Debt Service Reserve Fund for the Series 2011 Bonds secures only the Series 2011 Bonds and may not be drawn upon to pay debt service on any other Series of Bonds outstanding under the Indenture. In connection with the issuance of Additional Bonds under the Indenture, the City shall establish an account in the Debt Service Reserve Fund for such Additional Bonds and shall fund such account in an amount equal to the Debt Service Reserve Requirement for said Additional Bonds. Additional Bonds will be secured by a separate account in the Debt Service Reserve Fund.

In the event funds on deposit in the account in the Debt Service Reserve Fund for the Series 2011 Bonds are needed to make up any deficiencies in the Bond Fund for the Series 2011 Bonds, amounts available in such account shall be transferred to the Bond Fund for such purposes and the City will be required to restore the Debt Service Reserve Fund for the Series 2011 Bonds from Net Revenues within one year with twelve substantially equal payments.

Funds on deposit in the accounts in Debt Service Reserve Fund in excess of the amount required to be maintained therein will be transferred to the Bond Fund at least once each year. Moneys held in the Debt Service Reserve Fund shall be invested, at the direction of the City, in Qualified Investments.

### **Flow of Funds**

All Revenues shall be accounted for and maintained by the City separate and apart from all other accounts of the City and which shall be expended and used by the City only in the manner and order of priority specified below:

- (a) First, to pay all Operation and Maintenance Expenses of the System as the same become due and payable;
- (b) Second, to pay the principal of, premium, if any, and interest on all Bonds outstanding under the Indenture;
- (c) Third, to the extent the Debt Service Reserve Requirement is not funded with a Reserve Instrument or Instruments, to make all payments to the account in the Debt Service Reserve Fund and, as

applicable, to the Reserve Instrument Fund in the amount required by the Indenture to be on deposit therein;

(d) Fourth, to deposit in the Repair and Replacement Fund any amount required by the Indenture, if any, to accumulate therein the Repair and Replacement Reserve Requirement (which Repair and Replacement Fund is not required to be funded in connection with the issuance of the Series 2011 Bonds);

(e) Any excess Net Revenues remaining after making the foregoing deposits are to be used for (i) the redemption of Bonds for cancellation prior to maturity by depositing the same into the Bond Fund, (ii) the refinancing, refunding, or advance refunding of any Bonds, or (iii) for any other lawful purpose; and

(f) The Net Revenues remaining after the foregoing deposits and transfers and not required to be used for remedying any defaults in the payments previously made into the funds described above may be used at any time for any lawful purpose.

#### **Rate Covenant**

So long as any Bonds or any Repayment Obligations are Outstanding, the rates, including connection fees, for all services supplied by the System to all customers within or without the boundaries of the City when combined with other Revenues, shall be sufficient to pay the Operation and Maintenance Expenses for the System, and to provide Net Revenues for each Bond Fund Year of not less than 125% of the Aggregate Annual Debt Service Requirement for such Bond Fund Year plus an amount sufficient to fund the Debt Service Reserve Fund in the time, rate and manner specified in the Indenture; provided, however, that such rates must be reasonable rates for the type, kind and character of the service rendered. There shall be no free gas or electric service, and such rates shall be charged against all users of the System, including the City. The City agrees that should its annual financial statements disclose that during the period covered by such financial statements the Net Revenues were not at least equal to the above requirement, the City shall request that a Qualified Engineer make recommendations as to the revision of the rates, charges and fees and that the City, on the basis of such recommendations, will revise the schedule of rates, charges and fees insofar as is practicable and further revise Operation and Maintenance Expenses so as to produce the necessary Net Revenues as required in the Indenture.

“Aggregate Annual Debt Service Requirement” means the total Debt Service (including any Repayment Obligations) for any one Bond Fund Year (or other specific period) on all Series of Bonds Outstanding or any specified portion thereof.

The rates and charges imposed by the City are not subject to approval or regulation by any governmental entity or agency within the State of Utah (the “State”). For a discussion of the rates and charges imposed by the City with respect to the System and for a comparison of rates and charges imposed by other municipalities located near the City, please see “THE SYSTEM—Rates” herein.

#### **Outstanding Parity Bonds**

The City has previously issued the Outstanding Parity Bonds which are currently outstanding in the aggregate principal amount of \$19,275,000. Said Bonds were issued to finance certain improvements to the System and refund certain prior obligations. The Outstanding Parity Bonds are payable from and secured by the Net Revenues on a parity with the Series 2011 Bonds.

#### **Additional Bonds**

The City is permitted to issue Additional Bonds secured by the Net Revenues in accordance with the terms of the Indenture. See “APPENDIX B—EXTRACTS OF CERTAIN PROVISIONS OF THE INDENTURE—Additional Bonds.” The City does not have any current plans to issue any Additional Bonds within the next three years.

## BOND INSURANCE

### Bond Insurance Policy

Concurrently with the issuance of the Series 2011 Bonds, Assured Guaranty Municipal Corp. ("AGM" or the "Insurer") will issue its Municipal Bond Insurance Policy for the Series 2011 Bonds (the "Policy"). The Policy guarantees the scheduled payment of principal of and interest on the Series 2011 Bonds when due as set forth in the form of the Policy included as APPENDIX G to this Official Statement.

The Policy is not covered by any insurance security or guaranty fund established under New York, California, Connecticut or Florida insurance law.

### The Insurer

AGM is a New York domiciled financial guaranty insurance company and a wholly owned subsidiary of Assured Guaranty Municipal Holdings Inc. ("Holdings"). Holdings is an indirect subsidiary of Assured Guaranty Ltd. ("AGL"), a Bermuda-based holding company whose shares are publicly traded and are listed on the New York Stock Exchange under the symbol "AGO." AGL, through its operating subsidiaries, provides credit enhancement products to the U.S. and global public finance, infrastructure and structured finance markets. No shareholder of AGL, Holdings or AGM is liable for the obligations of AGM.

AGM's financial strength is rated "AA+" (negative outlook) by Standard and Poor's Ratings Services, a Standard & Poor's Financial Services LLC business ("S&P") and "Aa3" (negative outlook) by Moody's Investors Service, Inc. ("Moody's"). An explanation of the significance of the above ratings may be obtained from the applicable rating agency. The above ratings are not recommendations to buy, sell or hold any security, and such ratings are subject to revision or withdrawal at any time by the rating agencies, including withdrawal initiated at the request of AGM in its sole discretion. Any downward revision or withdrawal of any of the above ratings may have an adverse effect on the market price of any security guaranteed by AGM. AGM does not guarantee the market price of the securities it insures, nor does it guarantee that the ratings on such securities will not be revised or withdrawn.

### *Current Financial Strength Ratings*

On August 8, 2011, S&P published a Research Update in which it affirmed the "AA+" financial strength rating of AGM. At the same time, S&P revised the rating outlook on AGM to negative from stable. Reference is made to the Research Update, a copy of which is available at [www.standardandpoors.com](http://www.standardandpoors.com), for the complete text of S&P's comments.

On January 24, 2011, S&P published a Request for Comment: Bond Insurance Criteria (the "Bond Insurance RFC") in which it requested comments on its proposed changes to its bond insurance ratings criteria. In the Bond Insurance RFC, S&P notes that it could lower its financial strength ratings on existing investment-grade bond insurers (including AGM) by one or more rating categories if the proposed bond insurance ratings criteria are adopted, unless those bond insurers (including AGM) raise additional capital or reduce risk. Reference is made to the Bond Insurance RFC, a copy of which is available at [www.standardandpoors.com](http://www.standardandpoors.com), for the complete text of S&P's comments.

On December 18, 2009, Moody's issued a press release stating that it had affirmed the "Aa3" insurance financial strength rating of AGM, with a negative outlook. Reference is made to the press release, a copy of which is available at [www.moody's.com](http://www.moody's.com), for the complete text of Moody's comments.

There can be no assurance as to any further ratings action that Moody's or S&P may take with respect to AGM.

For more information regarding AGM's financial strength ratings and the risks relating thereto, see AGL's Annual Report on Form 10-K for the fiscal year ended December 31, 2010, which was filed by AGL with the

Securities and Exchange Commission (the "SEC") on March 1, 2011, AGL's Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2011, which was filed by AGL with the SEC on May 10, 2011, and AGL's Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2011, which was filed by AGL with the SEC on August 9, 2011.

As stated elsewhere in this Official Statement, the Net Revenues generated from the operation of the System are pledged to pay principal of and interest on the Bonds.

### **The Electric System**

**Facilities.** The Electric System consists of a 138kV transmission line, 138kV interconnection substation, 138–12.47Y/7.2kV north substation, and 12.47Y/7.2kV distribution system. The Electric System presently includes approximately 150 miles of 138kV overhead transmission and 12.47Y/7.2kV overhead and underground distribution. Most of the existing distribution system is installed underground. The City’s 138kV overhead transmission line is connected to a PacifiCorp 138kV overhead transmission line at the interconnection substation.

The Electrical System currently supplies up to 21 MW during the summertime. The City’s current substation is capable of reliably supplying up to 33 MW. The existing transmission line and interconnection substation have the capacity to handle up to 170 MW.

As part of the Series 2011 Project, the City will construct a new substation in the southern portion of the City and a new 138kV transmission line. With the completion of the south substation, the distribution system will be able to supply an additional 33 MW for a total distribution system capacity of 66 MW. Completion of the 138kV

transmission line will provide a redundant source of power delivery to the City in case of equipment failure or damage to the existing 138 kV line.

Operations. The City currently employs a staff of seven full-time employees to operate and maintain the Electric System. The Electric System has received recognition for its innovation in operating and maintaining a reliable and efficient power system. It has also received awards such as the Utah Associated Municipal Power Systems System Improvements Award 2009, UAMPS Smart Energy Innovation Award 2010, and Intermountain Power Superintendant Association 1st Place Safety Award 2009-2010 with no lost time accidents. The City is also a member of the American Public Power Association.

*Adam Ferre* serves as the City's Energy Division Director. As Energy Division Director, Mr. Ferre oversees the management of the System. Mr. Ferre has worked in the City since its incorporation in 1996. As an employee of Tasco Engineering, he was part of the team that installed the City's energy utilities in 1997. He has been an employee of the City since March 1999. Mr. Ferre attended Utah Valley State College and Northwest Lineman College and earned a Journeyman Lineman Degree. He also sits on the board of directors for the Utah Association of Municipal Power Systems.

*John Hendrickson* is the City Administrator. Mr. Hendrickson has over 35 years experience in city management, having served in California, Idaho, Wyoming, and Utah. He has served as City Administrator the last four years and has helped guide the City's rapid growth and build its infrastructure capabilities to more than double their former capacity. He has been involved in the formation of several electrical management organizations including UAMPS, Southern Utah Valley Power Authority and the Tri-State Intervention Group. He helped negotiate the first power exchange agreement with Bonneville Power Administration in 1981 and has worked with several federal power agencies on electrical issues. Mr. Hendrickson has a Bachelor of Science Degree (Zoology) and a Master of Public Administration Degree from Brigham Young University. Prior to his city management career, Mr. Hendrickson worked for the Central Intelligence Agency, military intelligence, and the Environmental Protection Agency.

Power Supplies. In 2005, the City entered into a power purchase agreement (the "Power Purchase Agreement") with Utah Municipal Power Agency (the "Agency"), an interlocal agency made up of various Utah municipalities. However, the City is not a member of the Agency. The Agency manages all of the power resources of its member cities, the largest of those being Provo, Utah. The total electric resource of the Agency far exceeds the demand of its member cities, thereby allowing the Agency to market excess power. The City, through its membership with Utah Associated Municipal Power Systems ("UAMPS") has the ability to enter into energy purchase agreements with the Agency for the Agency's excess power. As previously stated, the City has availed itself of that opportunity by entering into the Power Purchase Agreement. The Power Purchase Agreement is currently under negotiation for renewal and extension through June 30, 2015, with renewal thereafter on a year to year basis. The City anticipates all of its current energy requirements will be satisfied pursuant to the Power Purchase Agreement and does not anticipate any difficulties finalizing the same.

The City also has the ability to purchase electric power and energy through its membership in UAMPS, a Utah interlocal cooperative and a separate legal entity and a political subdivision of the State. UAMPS currently consists of 45 members in eight states and was created pursuant to a July 19, 1998 agreement (the "UAMPS Agreement") which includes two separate appendices that provide for different ways to purchase power (respectively, "Appendix 1" and "Appendix 2"). Under Appendix 1 arrangements, UAMPS purchases power for the City on the spot market and provides that power to the City over PacifiCorp's system to the City's distribution system. Under the arrangements in Appendix 2, the City is able to purchase power at a fixed price and at a rate consistent with the cost of power to other power participants in the Intermountain Power Project. Power available under Appendix 2 is purchased in blocks for specific periods of time at a fixed rate which is generally lower than the spot market purchase rate. Appendix 2 is what allows the City to purchase power from the Agency since that power is delivered pursuant to operational arrangements between the Agency and UAMPS. Power purchased from the Agency or UAMPS is wheeled by UAMPS to the City's electric distribution system through facilities owned by PacifiCorp pursuant to regulations promulgated under the Federal Energy Regulatory Commission ("FERC") rules.

Power Pooling Agreement. UAMPS has entered into power pooling agreements (the "Pooling Agreements") with 40 of its 45 members, including the City (collectively, the "Pool Participants") pursuant to which

UAMPS acts as agent of each Pool Participant for: (1) the scheduling and dispatch of power and energy; (2) the purchase of any power and energy required to meet such Pool Participant's electric system loads or to provide reserves therefor; (3) the sale of any power and energy available to a Pool Participant which is deemed surplus to meet its electric system loads; (4) the utilization of transmission rights and provision of transmission service to effect power and energy deliveries to, and sales by, each Pool Participant; (5) the administration of payments with respect to each Pool Participant's purchase and sale of power and energy and transmission services; and (6) conducting power supply and transmission studies and developing of programs for the acquisition or construction of power and transmission resources.

Under the Pooling Agreements, each Pool Participant may purchase from the pool all of its power and energy requirements in excess of its purchased or owned resources. Power supplied by the pool is priced according to whether the purchase is "planned" or "unplanned" within the meaning of the Pooling Agreements. "Planned" purchases are those amounts of power and/or energy that a Pool Participant has scheduled through UAMPS at least one hour before such power and/or energy is required. Planned purchases are sold on a firm basis with the price based upon negotiation at the time the power and/or energy is scheduled. "Unplanned" purchases are those amounts of power and/or energy that the Pool Participant required, as determined by the Pool Participant's meter(s), which do not come from the Pool Participant's own resources, including planned purchases under the Pooling Agreements.

Each Pool Participant may participate in the "All-In Cost Pool" that provides for participants to sell surplus resources at the all-in cost or purchase their deficit resource needs at an all-in cost from other participants. After all of the participants have satisfied their resource needs, any unutilized resource surplus is purchased by the unplanned pool and any deficit resource need is purchased from the unplanned pool. In addition to the Power Pool, UAMPS operates a power exchange through which its members are able to enter into forward transactions with one another or with UAMPS for the purchase and sale of power and energy.

The resources presently dedicated to the UAMPS Power Pool consist of power and energy from the following resources: (1) the Pool Participants' allocations of Colorado River Storage Project power and energy; (2) electric generating facilities owned and operated by certain of the Pool Participants; (3) power and energy generated by UAMPS' at generating stations located in San Juan, New Mexico, Hunter, Utah, and Payson, Utah; (4) power and energy purchased by UAMPS under long-term firm power purchase contracts with various wholesale suppliers; and (5) non-firm contracts with, and market purchases from, power suppliers, marketers and others throughout the West.

Future Additional Sources. The City has decided to participate in the Horse Butte Wind Project of UAMPS. The Horse Butte Wind Project consists of UAMPS' right to purchase all of the output of a 57.6 MW wind powered electric generating facility located on over 17,000 acres of land in Bonneville County, Idaho, just outside of Idaho Falls, Idaho. The Horse Butte Wind Project is currently under construction and UAMPS is acting as the developer of the project. Commercial operation of the Horse Butte Wind Project is expected in December 2011.

The output of the Horse Butte Wind Project will be sold by UAMPS to members of UAMPS who have decided to participate in the project, including the City. The City has committed to acquire 5 MW of power from the Horse Butte Wind Project under a power sales contract pursuant to which the City has agreed to make payments to UAMPS in respect of all of the costs of the Horse Butte Wind Project on a "take-or-pay" basis and in amounts proportionate to the City's entitlement share in the Horse Butte Wind Project. The payment obligations of the City under the Horse Butte Wind Project power sales contracts constitute operating expenses of the City's Electric System, payable solely from the available revenues of the related system prior to payment of debt service on the Bonds. The City expects to pay approximately \$1,060,000 per annum for its purchase of power from the Horse Butte Wind Project. The purchase of power from this source will decrease purchases from other sources.

**Electric System Requirements and Cost.** The City's cost to purchase electric power and energy is dependent upon its overall and peak demand requirements during each month and the cost per kWh charged by its electric power providers. Prior to July 1, 2005, the City purchased its electric power and energy under the UAMPS Agreement. The cost to purchase such power was fixed on a per kWh basis during the months of July through September each year and varied during the remaining months of the year. Under the Power Purchase Agreement, the City's cost to purchase power is fixed on a per kWh basis all year long. Energy is purchased on a calendar-month basis while energy is sold on a variable month-to-month basis. Thus, it is not possible to compare the monthly amount of energy purchased with the amount sold. The following table sets forth the total energy purchased by the City and its cost for such energy for each month indicated for the period ending June 30, 2010.

**Electric System Sales.** The total sales to the Electric System customers for the Fiscal Years ending June 30, 2009, 2010, and 2011 (unaudited) amounted to 52,030,849 kWh, 57,713,091 kWh, and 58,023,643 kWh, respectively. The revenues from such energy sales for the fiscal years ending June 30, 2009, 2010, and 2011 (unaudited) totaled \$5,645,855, \$5,978,503, and \$6,257,045, respectively. The following tables set forth the customer sales by class for the fiscal years ending June 30, 2009, 2010, and 2011 (unaudited):

Fiscal Year Ending June 30, 2009

	<u>kWh Sales<sup>(1)</sup></u>	<u>Revenues<sup>(2)</sup></u>

Total:	58,023,643	\$6,257,045

(1) Consumption (kWh Sales) does not include final billings and other billings outside of the City's normal billing cycles.

(2) Revenues are net of any adjustments made to individual accounts (i.e., results of billing disputes) which will affect total revenues. No adjustment has been made to kWh consumption to reflect a corresponding adjustment to revenues. Therefore, a simple calculation to multiply consumption by the rate for energy to arrive at the sales figure will be erroneous.

(3) Figures for fiscal year 2011 are unaudited and subject to change.

**The Gas System**

Facilities. The Gas System includes a 6-inch high pressure gas line that serves as a distribution line from the Kern River Gas Tap located in the southern area of the City. The City has entered into a contract with the Kern River Pipeline Company to provide a constant gas supply to the City. The construction of a tap to the Kern River gas line, regulator stations, and 6-inch steel gas line from the tap to the northern portion of the City were financed with proceeds of prior bonds and the proceeds of an assessment bond issued in connection with the creation of a

special improvement district. The Gas System currently serves approximately 5,524 ERUs. The City's current distribution system has the capacity to serve approximately 25,000 ERUs. The total capacity of the 6-inch high pressure gas line is approximately 50,000 ERUs.

Gas Supply. The City entered into a Natural Gas Sales Agreement on June 5, 1998 (the "Natural Gas Agreement") with Wasatch Energy Corporation, a gas marketer ("Wasatch"). Wasatch has since been acquired by British Petroleum ("BP") and the Natural Gas Sales Agreement was renegotiated in November 2010. The Natural Gas Agreement can be canceled by the City or BP upon 30 days written notice. Pursuant to the Natural Gas Sales Agreement, the City and BP will reach agreement on the quantities of natural gas to be purchased and sold during a particular period and the purchase price therefor. Historically, the City has purchased gas on a month to month basis at a rate in effect for that particular month.

Natural gas is delivered to the City by way of the Kern River Pipeline pursuant to an Operating Agreement dated May 12, 1998 (the "Gas Delivery Agreement") between the City and Kern River Gas Transmission Company ("Kern River"). The Gas Delivery Agreement remains in full force and effect until such time that either (1) Kern River is ordered by the Federal Energy Regulatory Commission to abandon such facilities or (2) Kern River, at its sole discretion, upon 180 days written notice, elects to terminate the Gas Delivery Agreement. Pursuant to the Gas Delivery Agreement the City has a flow range consisting of a minimum flow of 50 decatherms ("DTH") per day at 1,050 pounds per square inch gauge ("psig") and a maximum flow of 1,600 DTH per day at 650 psig. The maximum rate for such transportation is the posted full rate for firm transportation on the Kern River pipeline, plus fuel and fees. Such costs, including any discounts, are passed on to the City by BP.

The cost of natural gas fluctuates from year to year and seasonally during the year. The cost of natural gas increases during the winter months. The fluctuations are part of the instability of the gas market due to supply and demand forces. The impact of instability can be reduced through the execution of long-term gas supply contracts, although such long-term contracts do not allow the purchasers to gain any benefit in the event gas prices decrease. Pursuant to the Natural Gas Sales Agreement, the City can establish purchase periods of varying terms. The City monitors the gas markets and attempts to establish gas purchase periods pursuant to the Natural Gas Sales Agreement at prices that will be beneficial to the users of the Gas System.

Operations. The City staff operates and maintains the Gas System.

The revenues from such gas sales for the Fiscal Years ending June 30, 2009, 2010, and 2011 (unaudited) totaled \$4,389,328, \$4,429,397, and \$4,798,115, respectively. The following tables set forth the customer sales by class for the Fiscal Years ending June 30, 2009 and 2010 (customer sales by class are not currently available for Fiscal Year 2011):

(1) Consumption (DTH Sales) does not include final billings and other billings outside of the City's normal billing cycles.

(2) Revenues are net of any adjustments made.

Note: The City uses special multipliers for each type of gas meter used in order to determine the amount billed and charged. A simple calculation to multiply consumption by the gas rate to arrive at the sales figure will be erroneous without the special multiplier.

#### Rates

As described above under "SECURITY FOR THE BONDS—Rate Covenant," the City has covenanted in the Indenture that it will establish and continue in effect at all times while Bonds are outstanding, rates and charges for System services which are reasonably expected to yield Net Revenues at least equal to 125% of the Aggregate Annual Debt Service on all outstanding Bonds.

Rates and charges for System services are established by the City Council and are not subject to review or approval by any federal or state regulatory agency.

The City adopted its current rate structure on July 1, 2010. The following table sets forth the current rates and charges imposed by the City for the services offered by the System.

<u>Utility</u>		<u>Usage Rate</u>	<u>Connection Fee</u>	<u>Effective Impact Fee</u>
Electric	Base Rate (Res./Com.):	\$9.00/\$25.00 mo.	\$989.10/Connection	\$2,215/Connection
	Usage Rate (Res./Com.):	\$0.0995/\$0.0687/kWh		
Gas	Base Rate:	\$16.00/mo.	\$1,167.96/Connection	\$0*/Connection
	Usage Rate:	\$8.00/DTH		

\* The City is not authorized to charge impact fees for the Gas System according to the Utah Impact Fee Law.

The City employs a combined billing statement for all of its utilities, including the System. Customer accounts are due and payable by the end of the month in which the billing occurred. Customers who do not pay the full amount of the bill within the allotted time period are in default and are subject to disconnection and collection of the delinquent amounts.

Each utility invoice not paid when due is considered delinquent and the delinquent customer is provided a final account notice the month following the due date. Any unpaid balance from the prior month becomes delinquent at the time the next bill is generated, is assessed a \$25 late fee, and is sent a notice alerting the user to the possibility of a disruption in services if not paid. Customers are invited to contact City staff during the final account notice period to arrange a deferred payment schedule which may be approved by the City. Services terminated for non-payment of delinquent accounts shall not be reinstated until payment of the delinquent account is received or an acceptable deferred payment contract is approved by the City and the initial payment required under the deferred payment schedule is received by the City together with the reconnect fee of \$50 to reimburse the City for the professional services necessary to reinstate the utility service. A deferred payment schedule contract may be entered with a delinquent customer, provided that the deferred payment schedule does not extend for a period of more than one year, provides for a specific amount to be paid each month together with interest at the rate of 1 % per month. Customers who do not comply with the terms of an executed deferred payment schedule contract are subject to termination of service after the City provides the final account notice. Service terminated after default on a deferred payment contract form shall not be reinstated until the entire past due amount is paid in full. The City may, at its discretion, require an additional utility deposit be paid up to an amount equal to two times the average monthly billing for the utility service.

The City reports that less than 2% of its utility receivable accounts become uncollectable. The City's utility "shut-off" procedures ensure that most customers' accounts do not become excessively large before they are collected. Delinquent accounts are submitted to the City's collection agency at 90 days past due.

## Comparable Rates

The following table sets forth the gas and electric rates for municipalities located near the City. The rates and charges tend to vary from the City's due to several factors, including age of the respective systems and existing prior contractual commitments for purchase of these resources at rates that are not currently available.

### **Impact Fees**

Under State law, a municipality is allowed to impose impact fees in connection with the operation of public utilities. "Impact fees" are defined to mean a payment of money imposed upon development activity as a condition of development approval to mitigate the impact of the new development on public infrastructure. The impact fee must be a reasonable charge for the facilities provided. Before imposing an impact fee, a municipality must establish an impact fee facilities plan that identifies the demands placed upon existing public facilities by new development activity and the proposed means by which the municipality will meet those demands. Municipalities may only expend impact fees for (i) system improvements for public facilities identified in the impact fee facilities plan, (ii) system improvements for the specific public facility type for which the fee was collected, or (iii) debt service on obligations used to finance such system improvements. The impact fees cannot be used to pay operation and maintenance expenses of the related public facility.

In 1998, the City adopted an impact fee ordinance imposing impact fees as a condition of development approval for its utilities and for some public facilities, such as streets. The 1998 Impact Fee Ordinance was revised in 1999 and re-enacted in February 2000 to significantly reduce impact fees and to require direct developer contributions for public facilities in substitution for facilities financed by the City using impact fees. Impact fees on telephone and gas public facilities were also eliminated because under the Utah Impact Fee Act, the City is not authorized to charge impact fees for these utilities. The City reviews and revises its impact fee schedule from time to time to reflect the growth of development and the cost to pay for future infrastructure in the City and to assure that developers pay a fair share of the debt service for new electric facilities in the future. Impact fees can be dedicated specifically to debt service on bonds.

#### **Licenses, Permits and Approvals**

The City reports that it holds all licenses, permits and approvals necessary for the operation of the System. The City has applied to the Bureau of Land Management ("BLM") for a permit relating to the construction a new transmission line (part of the Series 2011 Project) that will be constructed on federal land. The City expects to receive BLM approval in time to begin construction in the fall of 2011.

## Management's Discussion and Analysis of Revenues

The City's audited financial statements for the Fiscal Year ending June 30, 2010 and the auditors' report thereon in APPENDIX A of this Official Statement contain a Management Discussion and Analysis in connection with the annual financial report of the City.

The operating results of the System reflect the results of past operations and are not necessarily indicative of results of operations for any future period. Future operations will be affected by factors relating to changes in rates, fuel and other operating costs, utility industry regulation and deregulation, environmental regulation, economic growth of the community, population, weather and other matters, the nature and effect of which cannot at present be determined. See "FORWARD-LOOKING STATEMENTS."

All revenues of the City are accounted for within the General Fund, Special Revenue Funds, or Enterprise Funds. The General Fund includes governmental services such as municipal administration, law enforcement and emergency services, planning and building services, streets maintenance, parks and recreation, and various community and cultural programs. The Special Revenue Funds consist of four separate Special Improvement Districts (SIDs), which were created to fund certain City infrastructure and landscaping needs through special assessments of property owners within each of the SIDs. The Enterprise Funds account for the public utility operations of the City, including water, sewer, electric power, natural gas energy, and telecommunications services.

**General Fund.** Revenues in the General Fund increased approximately 63% from FY 2005 to FY 2006, increased approximately 28.5% from FY 2006 to FY 2007, decreased approximately 26% from FY 2007 to FY 2008, and decreased approximately 2% from FY 2008 to FY 2009. The decrease in revenue from FY 2007 to FY 2008 was due mainly to decreases in licenses and permits as well as the fact that impact fees are now recorded as Non-major Governmental Revenue. In FY 2009, charges for services and Intergovernmental revenue increased while taxes, licenses and permits decreased. General Fund revenues increased approximately 7.5% from FY 2009 to FY 2010. That increase was due to revenue stream increases across the board. The City anticipates General Fund revenue growth to remain constant for the next one or two years. This reflects the stabilization of the national economy and the effect that should have on development and building activity in the city which mirrors the national trend.

The City has experienced an increase in sales tax revenue as well as road fund revenue received from the State. Property tax revenue is expected to decrease as a percentage of total General Fund revenue as new residential, and to a lesser extent, commercial property suffers affects from the current economic conditions.

**Special Revenue Funds.** The City received \$4,166,034 in special assessments and other related miscellaneous revenue in FY 2005, and \$7,606,561 in FY 2006, \$7,198,224 in FY 2007, \$585,043 in FY 2008, \$419,457 in FY 2009, and \$657,738 in FY 2010. This is restricted revenue that is pledged for repayment of special assessment bonds.

At the end of Fiscal Year 2010, the City had two special assessment bond issues outstanding: \$4,224,000 Town of Eagle Mountain Special Assessment Bonds Series 2006 (SID 2000-1) and the \$1,396,000 Eagle Mountain City Special Assessment Refunding Bonds, Series 2005A (SID 98-1). The Special Assessment Bond 1998-3 was paid off during FY 2008. The City may create additional special assessment districts and issue special assessment bonds in the future to finance certain infrastructure improvements.

**Enterprise Funds.** Operating revenues for the combined Enterprise Funds, which consist of the Water, Sewer, Electric, Natural Gas, and Solid Waste Collection, are generated from utility usage charges, connection fees, investment earnings, and other miscellaneous sources. Combined Enterprise Fund operating revenue increased approximately 27% from FY 2005 to FY 2006, 18% from FY 2006 to FY 2007, 13% from FY 2007 to FY 2008, decreased 8.3% from FY 2008 to FY 2009, and increased 13% from FY 2009 to FY 2010. This increase in revenue was basically due to the stabilization of the current market conditions have had on residential and commercial occupation of property within the city. The City estimates that new utility connections will grow at an average rate of approximately 10 connections per month, resulting in combined Enterprise Fund operating revenue growth at a comparatively modest rate of about 5% in FY 2011.

Electric Fund operating revenue increased, 39% from FY 2005 to FY 2006, and 28% from FY 2006 to FY 2007, 13% from FY 2007 to FY 2008, decreased 10% from FY 2008 to FY 2009 and increased 15% from FY 2009 to FY 2010. Natural Gas Fund operating revenue increased 39% from FY 2004 to FY 2005, 60% from FY 2005 to FY 2006, 25% from FY 2006 to FY 2007, 12.5% from FY 2007 to FY 2008, decreased 10% from FY 2008 to FY 2009, and 9% from FY 2009 to FY 2010. The revenue increases from FY 2004 to FY 2009 correspond to an increase from approximately 2,511 electric connections and 2,324 natural gas connections in service at the end of FY 2004 to 5,221 electric and 5,110 gas connections in service at the end of FY 2009. The increase from FY 2009 to FY 2010 represents increases in connections as well as higher occupation rates due to the stabilization of the national economy. Electric and Natural Gas combined revenues are projected to increase about 5% in FY 2010. Revenue growth projections are subject to weather conditions and the economy.

## EAGLE MOUNTAIN CITY

### Introduction

Eagle Mountain City was incorporated December 3, 1996. The City covers approximately 52.7 square miles. Prior to incorporation, the City consisted of two residential subdivisions with agriculture being the predominant land use. As of the date of its incorporation, the City had an initial population of 175 people. As of June 30, 2010, the City's population was approximately 24,000 people. The City estimates that it is currently 15% built out and estimates reaching full build-out in the next 50 years with a population of 225,000. The City is located in Utah County, 30 miles northwest of Provo City and approximately 40 miles southwest of Salt Lake City, Utah and Salt Lake Counties are the two most populated counties in the State.

### Existing and Contemplated Development

At incorporation, the City had no commercial center. The City now has one business park with real estate offices and medical offices. The City has issued 69 building permits year-to-date (as of June 30, 2011). During the calendar year 2010, the City issued a total of 209 building permits.

### Utilities

In addition to the System, the City currently owns and operates the water, sewer and telecommunications utilities (each a "Utility" and collectively, the "Utilities") serving the City. The City has completed expansion of water, electrical power and natural gas systems to meet the required utility capacity. All Utility facilities are maintained and operated by City employees or by independent contractors under management contracts with the City.

### Form of Government

Utah statutes detail the functions to be performed by Utah municipalities. The City is organized under general law and governed by a Mayor and five Council members elected for staggered four-year terms. The Mayor presides over all meetings.

Department heads are full-time employees of the City and responsible for day-to-day operations within the policy framework of the governing body. Department heads report to the City Administrator.

The principal powers and duties of Utah municipalities are to maintain law and order, abate nuisances, guard public health and sanitation, promote recreation, provide fire protection, and to construct and maintain streets, sidewalks, waterworks and sewers. Municipalities may also operate electric, natural gas and telecommunications systems. Municipalities also regulate commercial and residential development within their boundaries by means of zoning ordinances, building codes and licensing procedures.

Current members of the legislative body and city administration along with their respective terms in office are as follows:

## FINANCIAL INFORMATION

### Fund Structure; Accounting Basis

The accounts of the City are organized on the basis of funds or groups of accounts, each of which is considered to be a separate accounting entity. The operations of each fund or account group are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, fund balance, revenues and expenditures or expenses. The various funds are grouped by type in the combined financial statements.

Revenues and expenditures are recognized using the modified accrual basis of accounting in all governmental funds. Revenues are recognized in the accounting period in which they become both measurable and available. "Measurable" means that amounts can be reasonably determined within the current period. "Available" means that amounts are collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Revenues on cost-reimbursement grants are accrued when the related expenditures are incurred.

In proprietary funds, revenues and expenses are recognized using the accrual basis of accounting. Revenues are recognized in the accounting period in which they are earned and become measurable, and expenses are recognized in the period incurred. See "APPENDIX A—BASIC FINANCIAL STATEMENTS WITH INDEPENDENT AUDITOR'S REPORT FOR THE YEAR ENDED JUNE 30, 2010—Notes to the Financial Statements—Note 1—Summary of Significant Accounting Policies" below.

### Budget and Appropriation Process

The budget and appropriation process of the City is governed by the Uniform Fiscal Procedures Act for Utah Cities (the "Fiscal Procedures Act"). Pursuant to the Fiscal Procedures Act, the budget officer of the City is required to prepare budgets for the general fund, special revenue funds, debt service funds and capital improvement funds. These budgets are to provide a complete financial plan for the budget (ensuing fiscal) year. Each budget is required to specify, in tabular form, estimates of anticipated revenues and appropriations for expenditures. Under the Fiscal Procedures Act, the total of anticipated revenues must equal the total of appropriated expenditures.

On or before the first regular meeting of the City Council of the City in May of each year, the budget officer is required to submit to the City Council tentative budgets for all funds for the fiscal year commencing July 1. Various actual and estimated budget data are required to be set forth in the tentative budgets. The budget officer may revise the budget requests submitted by the heads of City departments, but must file these submissions with the City Council together with the tentative budget. The budget officer is required to estimate in the tentative budget the revenue from non-property tax sources available for each fund and the revenue from general property taxes required by each fund. The tentative budget is then tentatively adopted by the City Council, with any amendments or revisions that the City Council deems advisable prior to the public hearing on the tentative budget. After public notice and hearing, the tentative budget is adopted by the City Council, subject to further amendment or revisions by the City Council prior to adoption of the final budget.

Prior to June 22 in each year, the final budgets for all funds are adopted by the City Council. The Fiscal Procedures Act prohibits the City Council from making any appropriation in the final budget of any fund in excess of the estimated expendable revenue of such fund. The adopted final budget is subject to amendment by the City Council during the fiscal year. However, in order to increase the budget total of any fund, public notice and hearing must be provided. Intra- and inter- department transfers of appropriation balances are permitted upon compliance with the Fiscal Procedures Act.

The amount set forth in the final budget as the total amount of estimated revenue from property taxes constitutes the basis for determining the property tax levy to be set by the City Council for the succeeding tax year.

#### **Employee Work Force and Retirement System**

The City currently employs approximately 75 full-time employees and approximately 31 part-time employees for a total employment of approximately 106 employees. The City is a member of the Utah State Retirement System and participates in a deferred compensation plan. The City does not currently have any unfunded pension liability. See "APPENDIX A— BASIC FINANCIAL STATEMENTS WITH INDEPENDENT AUDITOR'S REPORT FOR THE YEAR ENDED JUNE 30, 2010—Notes to the Financial Statements—Note 13— Retirement Plan" below. For more information regarding the Utah State Retirement Systems (of which the City is a member) and the funding status of its programs, see its annual report at its website [www.urs.org](http://www.urs.org).

#### **Other Post-Employment Benefits**

The City reports that it has no liabilities relating to post-employment benefits.

#### **Risk Management**

The City provides for its general liability risks through insurance contracts which are issued annually to private insurance underwriters. Property insurance is provided by individual policies of insurance. The City believes its risk management policies and coverages are normal and within acceptable coverage limits for the type of services the City provides. See "APPENDIX A— BASIC FINANCIAL STATEMENTS WITH INDEPENDENT AUDITOR'S REPORT FOR THE YEAR ENDED JUNE 30, 2010—Notes to the Financial Statements Note 12— Risk Management" below.

#### **Investment of Funds**

Investment of Operating Funds: The Utah Money Management Act. The Utah Money Management Act, Title 51, Chapter 7, Utah Code Annotated 1953, as amended (the "Money Management Act"), governs the investment of all public funds held by public treasurers in the State of Utah (the "State"). It establishes criteria for investment of public funds with an emphasis on safety, liquidity, yield, matching strategy to fund objectives, and matching the term of investments to the availability of funds. The Money Management Act provides a limited list of approved investments including qualified in-state and permitted out-of-state financial institutions, approved government agency securities and investments in corporate securities carrying "top credit ratings." The Money Management Act also provides for pre-qualification of broker dealers by requiring that broker dealers agree in writing to comply with the Money Management Act and certify that they have read and understand the Money Management Act. The Money Management Act establishes the Money Management Council (the "Money Management Council") to exercise oversight of public deposits and investments. The law requires all securities to be delivered versus payment to the public treasurer's safekeeping bank. It requires diversification of investments, especially in securities of corporate issuers. Not more than 5% of the portfolio may be invested with any one issuer. Investments in mortgage pools and mortgage derivatives or any security making unscheduled periodic principal payments are prohibited. The Money Management Act also defines the State's prudent investor rules. The Money Management Council is comprised of five members appointed by the Governor of the State for terms of four years, after consultation with the State Treasurer and with the advice and consent of the State Senate.

The City is currently complying with all of the provisions of the Money Management Act for all City operating funds. A majority of City funds are invested in the Utah Public Treasurers' Investment Fund (the "Utah Treasurer's Fund"), as discussed below.

The Utah Public Treasurers' Investment Fund. The Utah Treasurers' Fund is a public treasurers' investment fund, established in 1981, and is managed by the Treasurer of the State of Utah. The Utah Treasurers' Fund invests to ensure safety of principal, liquidity and a competitive rate of return on short-term investments. All moneys transferred to the Utah Treasurers' Fund are promptly invested in securities authorized by the Money Management Act. Safe-keeping and audit controls for all investments owned by the Utah Treasurers' Fund must comply with the Money Management Act.

All investments in the Utah Treasurers' Fund must comply with the Money Management Act and rules of the Money Management Council. The Utah Treasurers' Fund invests primarily in money market securities including time certificates of deposit, top rated commercial paper, treasuries and certain agencies of the U.S. Government. The maximum weighted average adjusted life of the portfolio, by policy, is not to exceed 90 days. The maximum final maturity of any security purchased by the Utah Treasurers' Fund is limited to three years, except for a maximum maturity of five years is allowed for treasury or agency securities whose rate adjusts at least annually.

By law, investment transactions are conducted only through certified dealers, qualified depositories or directly with issuers of the securities. All securities purchased are delivered via payment to the custody of the State Treasurer or the State Treasurer's safekeeping bank, assuring a perfected interest in the securities. Securities owned by the Utah Treasurers' Fund are completely segregated from securities owned by the State. The State has no claim on assets owned by the Utah Treasurers' Fund except for any investment of State moneys in the Utah Treasurers' Fund. Deposits are not insured or otherwise guaranteed by the State.

Securities in the Utah Treasurers' Fund include certificates of deposit, commercial paper, short-term corporate notes, obligations of the U.S. Treasury and securities of certain agencies of the U.S. Government. These short-term securities must be rated "first tier" ("A-1," "P1," for short-term investments and "A" or better for long-term investments) by two nationally recognized statistical rating organizations, one of which must be Moody's Investors Service, Inc. or Standard & Poor's Ratings Group, a division of The McGraw-Hill Companies, Inc. These securities represent limited risks to governmental institutions investing with the Utah Treasurers' Fund. Variable rate securities in the Utah Treasurers' Fund must have an index or rate formula that has a correlation of at least 94% of the effective Federal Funds rate.

Investment activity of the State Treasurer in the management of the Utah Treasurer's Fund is reviewed monthly by the State's Money Management Council and audited by the State Auditor.

See "APPENDIX A—BASIC FINANCIAL STATEMENTS WITH INDEPENDENT AUDITOR'S REPORT FOR THE YEAR ENDED JUNE 30, 2010—Notes to the Financial Statements—Note 2—Cash Equivalents and Investments."

## BONDHOLDERS' RISKS

*The purchase of the Series 2011 Bonds involves certain investment risks that are discussed throughout this Official Statement.* No prospective purchaser of the Series 2011 Bonds should make a decision to purchase any of the Series 2011 Bonds without first reading and considering the entire Official Statement, including all Appendices, and making an independent evaluation of all such information. Certain of those investment risks are described below. The list of risks described below is not intended to be definitive or exhaustive and the order in which the following factors are presented is not intended to reflect the relative importance of any such risks.

### General

The Series 2011 Bonds are payable from and secured by a pledge and assignment of Net Revenues from the System and moneys on deposit in the funds and accounts held by the Trustee under the Indenture. Future economic and other conditions, the demand for gas and electric services within the City and the surrounding areas, economic and employment trends and events, demographic changes, changes in governmental regulations and policies and other factors may adversely affect the future financial condition of the System, and, consequently, the availability of Net Revenues. **No assurance can be made that the Net Revenues of the System will be realized by the City in amounts sufficient to pay debt service on the Series 2011 Bonds when due.**

### Operation of the System

In order for the City to make timely payment of the principal and interest requirements of the Series 2011 Bonds and to meet its other obligations under the Indenture, it will be necessary for the City to manage, operate and maintain the System in an efficient and economical manner that is consistent with prudent utility practice. The City is exempt from regulation by the Utah Public Service Commission but the operation of the System is subject to the requirements of various governmental rules and regulations and the System must be operated in compliance with these requirements. In the event that the System is not operated or is not capable of operation as required by the provisions of such governmental rules and regulations, the City may be subject to certain penalties.

In addition, the System is a relatively new enterprise and has a limited history of operation. The City believes that the System will be operated in a manner that will allow it to pay Operation and Maintenance Expenses for the System, as well as debt service on the Series 2011 Bonds. However, due to the lack of operational history, certain factors affecting the System such as dependability, efficiency, useful life of components and costs of operation are unknown.

To the extent the System develops operational problems, Operation and Maintenance Expenses may need to be reduced or rates for the System may need to be increased to produce sufficient Revenues unless other sources of funds are obtained. In the event that Revenues need to be increased for the continued operation of the System (and to pay debt service on the Series 2011 Bonds), it may be necessary to increase rates for the System. The City has covenanted in the Indenture that it will ensure that the rates, including connection fees, for all services supplied by the System to all customers within or without the boundaries of the City when combined with other Revenues, shall be sufficient to pay the Operation and Maintenance Expenses for the System, and to provide Net Revenues for each Bond Fund Year of not less than 125% of the Aggregate Annual Debt Service Requirement for such Bond Fund Year plus an amount sufficient to fund the Debt Service Reserve Fund in the time, rate and manner specified in the Indenture; provided, however, that pursuant to State law such rates must be reasonable rates for the type, kind and character of the service rendered. Furthermore, the City may decide not make any rate increases due to political, feasibility or other concerns.

### Electric and Gas Prices

The sources of electric power and natural gas are limited and their availability can be further restricted by a variety of factors, including production activities, political decisions and environmental factors. As scarce resources, their prices are affected by supply and demand. The supply and demand nature of the electric and gas markets can and do cause those markets to fluctuate from time to time, sometimes quite significantly. The City cannot predict whether such prices will increase in the future. An increase in the cost of natural gas or power could

negatively impact upon Net Revenues of the City and may affect the City's ability to pay debt service on the Series 2011 Bonds.

### **Destruction of the System**

The Indenture requires that the City, in its operation of the System, maintain insurance in such amounts and to such extent as is normally carried by other municipalities operating public utilities of the same size and type. In the event of any loss or damage, the Indenture requires that the proceeds of any insurance shall be used first for the purpose of restoring or replacing the property lost or damaged. Any remainder is to be paid into the Bond Fund. However, there can be no assurance that the proceeds of such insurance will be sufficient to restore or replace the lost or damaged property.

Damage to or destruction of the System may prevent the City from providing gas and electric service to some or all of its customers. In such event, the Net Revenues may decrease.

### **Changes in the Electrical Utility Industry**

General. The electric utility industry has been, and in the future will be, affected by a number of factors that will have an impact on the business, affairs and financial condition of both public and private electric utilities, including the City's Electric System.

One of the most significant of these factors is the effort on both the national and local levels to restructure the electric utility industry from a heavily regulated, vertically integrated monopoly to an industry in which there is a separation of control between generation and transmission and open competition for power supply service on both the wholesale and retail level.

In addition, such factors include, among others (i) effects of compliance with rapidly changing environmental, safety, licensing, regulatory and legislative requirements, (ii) changes resulting from conservation and demand-side management programs on the timing and use of electric energy, (iii) changes that might result from a regional or national energy pool, (iv) increasing competition from independent power producers, marketers and brokers, (v) "self generation" by certain industrial and commercial customers, (vi) issues relating to the ability to issue tax-exempt obligations, (vii) changes from projected future load requirements, (viii) increases in costs, and (ix) shifts in the availability and relative costs of different fuels. Any of these factors (as well as other factors) could have an effect on the financial condition of any given electric utility and likely will affect individual utilities in different ways.

Energy Policy Act of 2005. On August 8, 2005, the Energy Policy Act of 2005 (the "2005 Energy Policy Act") was signed into law. The Energy Policy Act of 2005 provides incentives for traditional energy production as well as newer, more efficient energy technologies, and conservation. The 2005 Energy Policy Act provides for, among other things: (i) the repeal of the Public Utility Holding Company Act ("PUHCA"), although some responsibilities under PUHCA are transferred to FERC and state regulatory commissions; (ii) a grant to FERC of authority to site transmission facilities if states are unwilling or unable to approve siting; (iii) a directive to FERC to permit incentive rate policies as a means to encourage transmission expansion; (iv) revisions to the Public Utility Regulatory Policies Act; (v) the establishment of service obligation protections for native load customers of utilities in certain areas of the country; (vi) the creation of limited FERC jurisdiction over interstate transmission assets of municipal utilities, cooperatives and federal utilities, to permit FERC to order those entities to provide transmission services on rates and terms comparable to those that the entities charge and provide to themselves; (vii) the establishment of mandatory electric reliability rules for all market participants and the creation of a self regulatory reliability organization, subject to oversight by FERC; and (viii) the provision of certain tax incentives to encourage expansion of transmission facilities and improvement of environmental standards. As directed by the 2005 Energy Policy Act, FERC has adopted many of the applicable implementing regulations.

FERC continues to issue regulations and decisions interpreting and implementing the various provisions of the 2005 Energy Policy Act. The City is not able to predict at this time the effects, if any, that the 2005 Energy Policy Act or the adoption of such regulations will have on the City or the System.

Utah Legislative Activities. In March 2008 the Utah Legislature adopted Senate Bill 202–Energy Resource and Carbon Emission Reduction Initiative (“S.B. 202”), which provides that 20% of a municipal electric utility’s or electrical corporation’s adjusted retail electric sales beginning in 2025 come from renewable energy resources or renewable energy certificates, if cost effective. S.B. 202 does not provide for any incremental targets or goals before 2025, but does require reports concerning a municipal electric utility’s progress in acquiring qualifying resources. S.B. 202 does not require an electric utility to (i) substitute renewable energy resources for existing energy sources, including existing power purchase contracts and generation units or (ii) enter into any additional power sales contracts or any other arrangement for the sale or disposition of electricity that such electric utility would not otherwise enter into. The financial and operational impact, if any, on the City and the System resulting from, the adoption of S.B. 202 is not known at this time.

In recent legislative sessions, the Utah Legislature has considered and adopted several other bills and resolutions relating to various energy policy matters, including economic development incentives for alternative energy projects, encouragement of municipally-owned utilities to consider participating in renewable energy projects and encouragement of the State of Utah to withdraw from the Western Climate Initiative. During the 2011 general session, the Utah Legislature passed House Joint Resolution 19, which expressed the Legislature’s opposition to the EPA’s regulation of greenhouse gases without Congressional approval.

The financial and operational impact, if any, on the City and the System resulting from the bills and resolutions adopted by the Utah Legislature is not known at this time.

#### **Need For City To Expand Utilities**

In order to meet current projections in population growth, it will be necessary for the City to expand not only the System, but its water and sewer utilities as well. The City anticipates that the costs of any such expansions could be paid from a variety or combination of sources including debt instruments, developer contributions, growth moneys, impact fees or revenues produced from the respective utilities. In the event the City could not obtain moneys from the aforementioned sources or other sources to pay for expansions to the City’s utilities, it is unlikely that such expansions would be undertaken and development and growth within the City would be adversely affected.

### **NO DEFAULTED OBLIGATIONS**

#### **General**

The City has never failed to pay principal of or interest on its financial obligations when due.

### **INDEPENDENT AUDITORS**

The financial statements of the City as of June 30, 2010 and for the year then ended, included in this Official Statement, have been audited by Gilbert & Stewart (“Gilbert & Stewart”), Provo, Utah, Certified Public Accountants, as stated in their report in APPENDIX A of this Official Statement. Gilbert & Stewart has not been asked to consent to the use of its name and audited financial report of the City for fiscal year ended June 30, 2010, in this Official Statement.

### **CONTINUING DISCLOSURE**

The City has undertaken for the benefit of the Owners and the Beneficial Owners of the Series 2011 Bonds to provide certain annual financial information and operating data to the Municipal Security Rulemaking Board (the “MSRB”) and the City has undertaken for the benefit of the Owners and Beneficial Owners of the Series 2011 Bonds to provide notice of certain material events to the MSRB all in order to assist the Underwriter in complying with Rule 15c2-12(b)(5) of the Securities and Exchange Commission (the “Rule”). See APPENDIX E attached hereto and incorporated herein by reference for a form of the Continuing Disclosure that will be executed and delivered by the City.

A failure by the City to comply with the Continuing Disclosure will not constitute an event of default under the Indenture and owners of the Series 2011 Bonds are limited to the remedies described in the Continuing Disclosure. See "Appendix E—FORM OF CONTINUING DISCLOSURE UNDERTAKING." A failure by the City to comply with the Continuing Disclosure must be reported in accordance with the Rule and must be considered by any broker, dealer or municipal securities dealer before recommending the purchase or sale of the Series 2011 Bonds in the secondary market. Consequently, such a failure may adversely affect the transferability and liquidity of the Series 2011 Bonds and their market price.

The City reports that for the last five years it has been in compliance with all disclosure undertakings.

## LEGAL MATTERS

### Absence of Litigation

Parsons, Kinghorn, Harris will issue an opinion dated the date of closing, that will state, among other things that there is no action, suit, proceeding, inquiry, or any other litigation or investigation at law or in equity, before or by any court, public board or body, which is pending or threatened, (a) challenging the creation, organization, or existence of the City; (b) the titles of its officers to their respective offices; (c) seeking to restrain or enjoin the issuance, sale, or delivery of the Series 2011 Bonds; (d) directly or indirectly contesting or affecting the proceedings or the authority by which the Series 2011 Bonds are issued; (e) the validity of the Series 2011 Bonds or the issuance thereof or (f) which if determined adversely to the City would have a materially adverse effect on the financial condition of the City or its ability to meet the debt service requirements on the Series 2011 Bonds.

### General

All legal matters incident to the authorization and issuance of the Series 2011 Bonds are subject to the approval of Ballard Spahr LLP, Bond Counsel to the City. Certain matters relating to disclosure will be passed upon by Ballard Spahr LLP, Disclosure Counsel to the City. Certain legal matters will be passed upon for the City by Parsons, Kinghorn, Harris, Salt Lake City, Utah. The approving opinion of Bond Counsel will be delivered with the Series 2011 Bonds. A form of the opinion of Bond Counsel is set forth in APPENDIX D of this Official Statement.

## TAX MATTERS

**Federal Income Tax.** In the opinion of Ballard Spahr LLP, Bond Counsel to the City, interest on the Series 2011 Bonds is excludable from gross income for purposes of federal income tax under existing laws as enacted and construed on the date of initial delivery of the Series 2011 Bonds, assuming the accuracy of the certifications of the City and continuing compliance by the City with the requirements of the Internal Revenue Code of 1986. Interest on the Series 2011 Bonds is not an item of tax preference for purposes of either individual or corporate federal alternative minimum tax ("AMT"); however, interest on Series 2011 Bonds held by a corporation (other than an S corporation, regulated investment company, or real estate investment trust) may be indirectly subject to federal AMT because of its inclusion in the adjusted current earnings of a corporate holder.

**Original Issue Premium.** Certain of the Series 2011 Bonds are offered at a premium ("original issue premium") over principal amount. Original issue premium is amortizable periodically over the term of a Series 2011 Bond through reductions in the holder's tax basis for the Series 2011 Bond for determining taxable gain or loss from sale or from redemption prior to maturity. Amortizable premium is accounted for as reducing the tax-exempt interest on the Series 2011 Bond rather than creating a deductible expense or loss. Bondholders should consult their tax advisors for an explanation of the amortization rules.

**Original Issue Discount.** Certain of the Series 2011 Bonds are offered at a discount ("original issue discount") equal generally to the difference between public offering price and principal amount. Original issue discount on a Series 2011 Bond accrues as tax-exempt interest periodically over the term of the Series 2011 Bond. The accrual of original issue discount increases the holder's tax basis in the Series 2011 Bond for determining taxable gain or loss from sale or from redemption prior to maturity. Bondholders should consult their tax advisors for an explanation of the accrual rules.

State Of Utah Income Tax. Bond Counsel is also of the opinion that interest on the Series 2011 Bonds is exempt from State of Utah individual income taxes under currently existing law.

No Further Opinion. Bond Counsel expresses no opinion regarding any other tax consequences relating to ownership or disposition of, or the accrual or receipt of interest on, the Series 2011 Bonds.

#### **BOND RATINGS**

The Series 2011 Bonds are expected to be rated "AA+" (negative outlook) by Standard & Poor's Ratings Services ("S&P"), a Standard & Poor's Financial Services LLC business, with the understanding that upon delivery of the Series 2011 Bonds the Policy insuring the payment when due of principal of and interest on the Series 2011 Bonds will be issued by the Insurer. See "BOND INSURANCE" herein. S&P has assigned an underlying rating (without respect to the Policy) of "A" to the Series 2011 Bonds. In addition Fitch Ratings ("Fitch") has assigned an underlying rating (without respect to the Policy) of "A" to the Series 2011 Bonds.

Such ratings reflect only the views of such organizations and any desired explanation of the significance of such ratings should be obtained from the rating agency furnishing the same. The ratings are not a recommendation to buy, sell or hold the Series 2011 Bonds and there is no assurance such ratings will continue for any given period of time or that such ratings will not be revised downward or withdrawn entirely by the rating agency, if in the judgment of such rating agency, circumstances so warrant. Any such downward revision or withdrawal of such ratings may have an adverse effect on the market price of the Series 2011 Bonds. The City and the Underwriter have undertaken no responsibility either to bring to the attention of the Registered Owners or the Beneficial Owners of the Series 2011 Bonds any proposed change in or withdrawal of such ratings or to oppose any such change or withdrawal.

#### **FINANCIAL ADVISOR**

Lewis Young Robertson & Burningham, Inc. has been employed as an independent financial advisor to the City in connection with the delivery of the Series 2011 Bonds. The financial advisor's fee for services rendered with respect to the Series 2011 Bonds is contingent upon the delivery of such Series 2011 Bonds.

#### **UNDERWRITING**

The Series 2011 Bonds are being purchased by George K. Baum & Company, acting as the underwriter (the "Underwriter"), pursuant to a Bond Purchase Agreement between the City and the Underwriter (the "Purchase Agreement"). The Purchase Agreement provides that the Underwriter will purchase all of the Series 2011 Bonds, if any are purchased, at a purchase price of \$11,264,804.90 (representing the par amount of the Series 2011 Bonds plus net original issue premium of \$251,857.40 and less an underwriting discount of \$72,052.50).

#### **MISCELLANEOUS**

## INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and City Council  
Eagle Mountain, Utah

December 3, 2010

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Eagle Mountain City, Utah as of and for the year ended June 30, 2010, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Eagle Mountain City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Eagle Mountain City as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have issued our report dated December 3, 2010 on our consideration of Eagle Mountain City's internal control over financial reporting and on our test of its compliance with certain provision of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Eagle Mountain City's financial statements as a whole. The introductory section, combining and individual non-major fund financial statements, budgetary comparison schedules, capital asset schedules, and statistical tables are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual non-major fund financial statements, budgetary comparison schedules, and capital assets schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of Eagle Mountain City, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2010. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

### Financial Highlights

- As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$6,446,874. Of this amount, \$1,065,240 is reserved and must only be spent on projects for which the money is reserved. The remaining \$5,381,634 is divided as follows: \$1,030,020 is unreserved in the General Fund, \$1,120,288 is unreserved in the General Fund Capital Projects Fund and \$3,231,326 is unreserved in the Special Revenue (Special Assessment) and Non-major Governmental Funds.
- The total net assets of \$101,070,787 are made up of \$75,898,999 in capital assets net of related debt and \$25,171,788 in other net assets. Total net assets increased by \$5,162,036 from the prior year.
- In the Enterprise (Proprietary) Funds operating revenues decreased \$1,857,728 (13.4%). Corresponding operating expenses increased by \$548,805 (12.7%).

### Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

### Government-wide Financial Statements:

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business.

- The *statement of net assets* presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. However, other non-financial factors also need to be considered.
- The *statement of activities* presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, streets, storm water, economic development, and parks and recreation. The business-type activities of the City include water, sewer, electric, gas, and solid waste.

The government-wide financial statements can be found on pages 25-26 of this report.

**Reporting the City's Most Significant Funds:**

A fund is grouping of related accounts, used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other states and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

- *Governmental Funds*- These funds are used to account for the same functions reported as governmental activities in the government-wide financial statements. These fund statements focus on how money flows into and out of these funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps users determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in a reconciliation included with the fund financial statements.

The governmental fund financial statements can be found on pages 27-30 of this report.

The major governmental funds (as determined by generally accepted accounting principles) are the General Fund and certain Special Revenue Funds. The balance of the governmental funds is determined to be non-major and is included in the combined statements within this report.

- *Proprietary Funds*. Eagle Mountain City maintains one type of proprietary funds. *Enterprise funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. Eagle Mountain City uses enterprise funds to account for its Water Utility, Sewer Utility, Gas Utility, and Electric Utility.
- The basic proprietary fund financial statements can be found on pages 31-33 of this report.
- Additionally the City reports the following fund types:

Internal Service Fund accounts for the fleet management services provided to other departments of the government, on a cost reimbursement basis.

## Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of Eagle Mountain City, assets exceed liability by \$101,070,787.

One of the largest portion's of Eagle Mountain City's net assets (74%) reflects its investment in capital assets (e.g., land, buildings, infrastructure assets, and machinery and equipment), less any related debt used to acquire those assets that are still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The following table summarizes the City's net assets. Comparative figures for Fiscal Years 2010 and 2009 are shown below:

### Eagle Mountain City's Net Assets:

	Governmental Activities		Business-type Activities		Total

**Business-type Activities:** Business-type activities increased the City's net assets by \$5,396,357. As of the end of the current fiscal year, all of the City's business-type funds reported positive net assets.

### Financial Analysis of the Government's Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements.

At the end of the current fiscal year, the City's governmental funds reported combined fund balances of \$6,446,874. Of this total amount (89%) constitutes unreserved fund balance, which is available for spending at the government's discretion. The majority of this unreserved fund balance is in the Special Revenue Funds. The remainder of fund balances \$1,065,240 is reserved to indicate that it is not available for new spending because it has already been committed.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unreserved fund balance of the general fund was \$1,030,020 an increase of \$457,295 from Fiscal Year 2009. Total fund balance is \$1,360,050, an increase of \$560,650 from the prior year. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 11% of total general governmental fund expenditures, while total fund balance represents 15% of that same amount.

The City maintains enterprise funds to account for the business-type activities of the City. The information is found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the combined Enterprise funds at the end of the year amounted to \$11,302,137. The value of capital assets net of related debt in these same funds is \$31,480,947.

As mentioned in the financial highlights, operational revenues and expenditures in the Enterprise funds increased by \$1,857,728 (13.4%) and \$548,805 (12.7%), respectively.

### General Fund Budgetary Highlights

During the fiscal year, the General Fund's original budget was amended from an original budget expenditure total of \$8,440,314 to a final budget of \$9,215,370, an increase of \$775,056. The increase reflects higher than anticipated expenditures within the General Fund.

### Capital Asset and Debt Administration

**Capital assets.** Eagle Mountain City's investment in capital assets for its governmental and business-type activities as of June 30, 2010, amounts to \$122,563,658 (net of accumulated depreciation). The investment in capital assets includes land, buildings, improvements, machinery and equipment, infrastructure and construction in progress.

Additional information on the City's capital assets can be found in the footnotes to this financial report.

**Long-term debt.** At the end of the current year, the City has total bonded debt outstanding of \$48,650,000. Of this amount \$5,620,000 is from Special Assessment Bonds. The remaining \$43,030,000 is secured solely by specific revenues sources (i.e., revenue bonds or excise tax road bond).

#### Eagle Mountain City's Outstanding Debt (Bonded Debt):

The City's total outstanding debt increased by a net amount of \$1,384,829 during Fiscal Year 2010. The City issued a bond to construct a waste water treatment plant expansion.

State statutes limit the amount of general obligation debt a governmental entity may issue to 4% of its total taxable value. The current limitations for the City are \$29,226,968, which is significantly in excess of the City's outstanding general obligation debt. In addition, state statutes allow for an additional 4% to be used for water, sewer, or other projects thus resulting in a debt limit of 8% of

total taxable value. Total limitation is \$58,453,936, which again significantly exceeds the outstanding general obligation debt.

Additional information on the City's long-term debt can be found in note 9 on pages 55-57 of this report.

- The City issued just over 300 residential building permits in fiscal year 2010. This is an approximate 5.5% growth rate. Much of the growth in building permits issued can be attributed to the federal government stimulus package. The City anticipates that growth in residential construction will slow during fiscal year 2011.
- The City continues to be very conservative in estimating budgeted revenues. In the general fund, budgeted revenues for fiscal year 2011 are up 6.5% from budgeted revenues in fiscal year 2010. During fiscal year 2010, the City received 10% more in sales tax revenue based on our original budget estimates. The City is working hard to maintain a balanced budget while still providing adequate service levels for the residents.
- In the Enterprise funds, the City has been able to keep the utility rates at current levels. The only exception to this is where the City has had to raise sewer rates to reflect the increases from our sewer special service district. This increase affected the residents in the North Service Area who are serviced by the Timpanogos Special Service District. The increase in fees will fund upgrades and expansion of the district.
- During the latter part of fiscal year 2009, the City adjusted the gas rate structure. Prior to this change, the City had two different rates: one for summer, one for winter. The City has been able to take advantage of more stable gas rates and therefore chose the lower of the two rates to use winter and summer.
- During fiscal year 2011, the City will complete a review of its water and sewer utility rates. The review will focus on the long term utility rates to ensure that the rates are adequate to guarantee the continued viability and profitability of each utility, to maintain the existing infrastructure and to ensure that the rates are competitive with other utility companies.
- The City completed the expansion of the wastewater treatment plant in the South Service Area in fiscal year 2010. With the expansion, the wastewater treatment plant will now be able to serve approximately 5,000 homes, or an increase of approximately 3,500 service connections.

Statement of Changes Reconciliation to  
Statement of Activities  
For the Year Ended June 30, 2010

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances - total governmental funds \$ 1,564,552.00

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period. \$ (555,984.00)

The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to increase (decrease) net assets.  
- Current year capital contributions from developers \$ 4,174,105.00

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. \$ (228,960.00)

The issuance of long-term debt (e.g., bonds, leases) provide current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. \$ 271,702.00

Internal service funds are used by management to charge the cost of the fleet management to the individual funds. The net revenue of certain activities of internal service funds is reported with governmental activities. \$ (24,226.00)

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. \$ (39,153.25)

Change in net assets of governmental activities \$ 5,162,035.75

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The City of Eagle Mountain (the City) financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict the GASB pronouncements. The City applies FASB pronouncements issued after that date to its business-type activities and enterprise funds. The more significant accounting policies established by GAAP and used by the City are discussed below.

**A. Reporting Entity**

Eagle Mountain City was incorporated December 1996, under laws of the State of Utah. Under the present form of government, administrative and legislative powers are vested in a governing body, consisting of the Mayor and a five-member City Council. They are assisted by a City Administrator, who also is the City's budget officer. The treasurer is currently responsible for the financial matters of the City, including money management, accounts payable, financial statements, utility billing, and accounts receivable. The City provides the following services as mandated by law: Public Safety, Highways and Streets, Sanitation, Parks, Water, Public Improvements, Planning and Zoning, and General Administrative Services.

The General Purpose Financial Statements of the City include the financial statements for all activities of the City based upon the criteria set forth in Governmental Accounting Standards Board (GASB) Statement 14. The primary criteria for including a board or agency in this report is financial accountability, which determines whether an entity is a component unit of the financial reporting entity. Blended component units, although legally separate entities, are in substance part of the government's operations and therefore data from these units are combined with data of the primary government. Discretely presented component units are reported in a separate column in the combined financial statements to emphasize they are legally separate from the City. The City reports no component units.

**B. Government-wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

**NOTES TO THE FINANCIAL STATEMENTS**  
**YEAR ENDING JUNE 30, 2010**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

**C. Measurement Focus, Basis of Accounting and Presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified basis of accounting. Revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The government considers all revenues available if they are collected within 60 days after the year-end. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on general long-term debt as well as expenditures related to compensated absences, claims, and judgments, which are recorded only when payment is due.

Property taxes, sales taxes, franchise taxes, and earned but unreimbursed state and federal grants associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

The government reports the following **major governmental funds**:

The *general fund* is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

The *Special Improvement Districts Special Revenue Fund, 2001-1*, is used to account for the proceeds of specific revenue sources (other than expendable trusts, or capital projects) that are legally restricted to expenditures for specified purposes.

The government reports the following **major proprietary funds**:

The *water fund* accounts for the activities of the City's water operations.

The *sewer fund* accounts for the activities of the City's sewer operations.

The *electric fund* accounts for the activities of the City's electric operations.

The *gas fund* accounts for the activities of the City's gas operations.

The *golf course fund* accounts for the activities of the golf course.

Additionally the government reports the following fund types:

The *internal service fund* accounts for the fleet management services provided to other departments of the government, on a cost reimbursement basis.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments to the general fund by the various enterprise funds for providing administrative services for such funds. Elimination of these charges would distort the direct costs and program revenue reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**D. Cash and Investments**

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

The City's temporary cash investments consist of amounts deposited with Utah Public Treasurers' Investment Fund and money market funds. Investments are stated at cost, which approximates fair value.

**E. Interfund Transactions**

During the course of normal operations, the City has transactions between funds to distribute administrative costs and distribute grant proceeds. These transactions are generally reflected as operating transfers, which are transfers from a fund authorized to receive certain revenues to the fund through which the resources are to be expended. The General Fund billed the respective enterprise funds for administrative costs associated with billing and collection of utility charges. These charges are reflected as revenues and expenses in the respective funds.

**F. Restricted Assets**

The City maintains cash balances as required by bond covenants. These amounts are reflected in the financial statements as restricted cash. It is the City's policy to use restricted assets first and then unrestricted assets.

**G. Capital Assets**

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

**CITY OF EAGLE MOUNTAIN**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**YEAR ENDING JUNE 30, 2010**

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant and equipment of the primary government is depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and structures	30-50
Improvements other than buildings	20-50
Infrastructure	30-50
Machinery and equipment	5-10
Furniture and fixtures	5-10

**H. Compensated Absences**

City employees accrue earned vacation, sick leave, long-term sick leave, and comp time throughout the year. They are allowed to carry forward into the next calendar year all accrued comp, long term sick leave, and up to 240 hours of vacation time, but are encouraged to take their vacation leave within the calendar year in which it is earned. Upon termination of employment, an employee will be compensated for up to 240 hours of unused vacation leave, comp time, long-term sick leave but forfeits any accumulated sick leave.

Vacation pay is accrued when incurred in proprietary funds and reported as a fund liability. Vacation pay that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it.

**I. Taxes**

In Utah, county governments assess, levy, collect and disburse two principal types of tax: (1) personal property tax, which is assessed on business assets other than real estate, and (2) tax on real estate and improvements. Business personal property and real estate taxes attach as an enforceable lien on property as of January 1. Taxes are levied on all business personal property on January 1, and real estate and improvement taxes are levied on January 1 and are payable by November 30. The real property taxes, which are due in November, are reported as a receivable from property taxes on the financial statements. Because these taxes are not considered available to liquidate liabilities of the current period, they are offset by deferred revenue.

**CITY OF EAGLE MOUNTAIN**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**YEAR ENDING JUNE 30, 2010**

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

The City Council is authorized by state statute to levy a tax against all real and personal property located within its boundaries. The Council must set a tax rate by June 22 each year.

The County Treasurer, acting as a tax collector, must settle and disburse all tax collections to all taxing entities on a routine basis.

**J. Long-Term Obligations**

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the accrual debt proceeds received, are reported as debt service expenditures. Interest expense is not included in the functions of governmental activities.

**K. Fund Equity**

Reservations of fund balance represent amounts that are not appropriable or are legally segregated for a specific purpose. Reservations of net assets are limited to outside third party restrictions. Appropriations of net assets are amounts that are specifically set aside for a particular expense in the following year. Designations of fund balance represent tentative management plans that are subject to change.

**L. Use of Estimates**

Presenting financial statements in conformity with Generally Accepted Accounting Principles requires management to make certain estimates concerning assets, liabilities, revenues, and expenses. Actual results may vary from these estimates.

**YEAR ENDING JUNE 30, 2010**

**NOTE 2 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

**A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets**

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets.

This difference primarily results from the long-term economic focus of the statement of net assets versus the current financial resources focus of the governmental fund balance sheets.

**1. Capital related items:**

When capital assets (property, plant, and equipment) that are to be used in governmental activities are purchased or constructed, the cost of these assets are reported as expenditures in governmental funds. However, the statement of net assets includes those capital assets among the assets of the city as a whole.

Cost of capital assets	\$66,889,057
Accumulated depreciation	<u>( 15,952,628)</u>
Net adjustment to increase <i>fund balance – total governmental funds</i> to arrive at <i>net assets – governmental activities</i> )	<u>\$50,936,429</u>

**2. Long-term assets:**

Long-term assets applicable to the City's governmental activities are not available to pay for expenditures of the current period and are, therefore, deferred in the governmental balance sheet.

Special assessment revenue	\$5,599,106
Delinquent property taxes	<u>212,266</u>
Net adjustment to increase <i>fund balance – total governmental funds</i> to arrive at <i>net assets – governmental activities</i>	<u>\$5,811,372</u>

**3. Long-term debt transactions:**

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities in the fund statements. All liabilities (both current and long-term) are reported in the statement of net assets.

**CITY OF EAGLE MOUNTAIN**

**YEAR ENDING JUNE 30, 2010**

**NOTE 2 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)**

Bonds payable	(\$6,290,000)
Lease payable	( 153,497)
Bond interest payable	( 172,560)
Deferred bond costs	492,012
Compensated absences	( 207,771)
Net adjustment to reduce <i>fund balance</i> – <i>total governmental funds</i> to arrive at <i>net assets – governmental activities</i>	( <u>\$6,331,816</u> )

**B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities**

The governmental fund statement of revenues, expenditures and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that “governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.”

Capital outlay	\$1,246,675
Depreciation expense	( 1,802,659)
Net adjustment to increase <i>net changes in fund</i> <i>balances – total governmental funds</i> to arrive at <i>changes in net assets of governmental activities</i>	( <u>\$ 555,984</u> )

Another element of that reconciliation states, “The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.”

Debt issued:	
Bonds issuance cost amortization	(\$70,298)
Principal payments:	
Principal paid on bonds and capital leases	<u>342,000</u>
Net adjustment to increase <i>net changes in fund</i> <i>balances – total governmental funds to arrive</i> <i>at changes in net assets of governmental activities</i>	<u>\$271,702</u>

Another element of that reconciliation states that certain expenses reported in the statement of activities do not require the use of current financial resources and are, therefore, not reported as expenditures in the governmental funds.

Accrued bond interest	\$ 3,323
Compensated absences	<u>(42,476)</u>
Net adjustment to increase <i>net changes in fund</i> <i>balances – total governmental funds to arrive</i> <i>at changes in net assets of governmental activities</i>	<u>\$ (39,153)</u>

**NOTE 3 - BUDGETS AND BUDGETARY ACCOUNTING**

Annual budgets are prepared and adopted in accordance with the Uniform Fiscal Procedures Act adopted by the State of Utah. Once a budget has been adopted, it remains in effect until it has been formally revised. Furthermore, in accordance with state law, all appropriations lapse at the end of the budget year. If any obligations are contracted for and are in excess of adopted budget, they are not a valid or enforceable claim against the City. Budgets are adopted on a basis consistent with generally accepted accounting principles.

The City adheres to the following procedures in establishing the budgetary data reflected in the financial statements:

- A. On or before the first regularly scheduled meeting of the City Council in May, the City Administrator, authorized under state statute to be appointed budget officer, submits a proposed operating budget. The operating budget includes proposed expenditures and the means of financing them.
- B. A public hearing is held at which time the taxpayers' comments are heard. Notice of the hearing is given in the local newspaper at least seven days prior to the hearing. Copies of the proposed budget are made available for public inspection ten days prior to the public hearing.
- C. On or before June 22, a final balanced budget must be adopted through passage of a resolution for the subsequent fiscal year beginning July 1.
- D. Control of budgeted expenditures is exercised, under state law, at the departmental level. The City Administrator, however, acting as budget officer, has the authority to transfer budget appropriations between line items within any department of any budgetary fund. The City Council, by resolution, has the authority to transfer budget appropriations between the individual departments of any budgetary fund.
- E. Budget appropriations for any department may be reduced by resolution.
- F. A public hearing, as required in (B) above, must be held to increase the total appropriations of any one governmental fund type; however, after the original public hearing, operating and capital budgets of proprietary fund types may be increased by resolution without an additional hearing.
- G. Encumbrances lapse at year end. Encumbered amounts carry over to the following year and are subject to reappropriation. Therefore, no encumbrances are presented in the financial statements.

During the budget year, the City modified the budget using the above procedures.

**NOTE 4 – CASH EQUIVALENTS AND INVESTMENTS**

The City maintains a cash and investment pool that is available for use by all funds. At June 30, 2010 the City's cash balance consisted of the following:

	Total Cash From All Fund Types
Cash, cash equivalents, and temporary cash investments	\$ 9,852,239
Cash, and cash equivalents - restricted	9,927,986
Total cash and cash equivalents	\$ 19,780,225

While the City's carrying amount of deposits was \$19,994,810, the balance in the City's bank account and cash on hand was \$19,780,225, with the difference being due to outstanding checks and deposits in transit.

**NOTE 4 – CASH EQUIVALENTS AND INVESTMENTS (Continued)**

A. Deposits

Deposits – Custodial Credit Risk. Custodial risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City follows the requirements of the Utah Money Management Act in handling its depository and investing transactions. The City considers the actions of the State Money Management Council to be necessary and sufficient for adequate protection of its uninsured bank deposits. City funds are deposited in qualified depositories as defined by the Act. The City does not have a deposit policy for custodial credit risk. As of June 30, 2010, the City's custodial credit risk for deposits were as follows:

Depository Account	Custodial Credit Risk	Balance June 30, 2010
Checking and savings	Insured and collateralized	\$ 350,000
Checking and savings	Uninsured and uncollateralized	816,454
Investment sweep	Uninsured and uncollateralized	4,140,070
Total deposits		\$ 5,306,524

B. Investments

The City's investments are managed through participation in the State Public Treasurers' Investment Fund and through a trust arrangement with a local bank. As of June 30, 2010, the City had the following investments:

**CITY OF EAGLE MOUNTAIN**

**NOTE 4 – CASH EQUIVALENTS AND INVESTMENTS (Continued)**

Investments	Investment Maturities (in Years)

First American Treasury Obligations	9,334,473			
Total investments	<u>\$ 14,688,286</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

Investments – Interest Rate Risk. The City does not have a formal investment policy that limits investment maturities as a means of increasing interest managing its exposure to fair value losses arising from rates. However, interest rate risk is managed by compliance with the Utah Money Management Act, which provides guidance for handling depository and investing transactions in order to minimize interest rate risk.

Investments – Credit Risk. The City follows the requirements of the Utah Money Management Act in handling its depository and investing transactions. The City funds are deposited in qualified depositories as defined by the Act. The Act also authorizes the City to invest in the Utah Public Treasurers Investment Fund (PTIF), certificates of deposit, U.S. Treasury obligations, U.S. agency issues, restricted mutual funds, and obligations of governmental entities within the State of Utah. The City's investments are invested in accordance with the Act. The State Money Management Council provides regulatory oversight for the investments. The degree of risk of the investments depends on the underlying portfolio. The Act and Council rules govern the financial reporting requirements of qualified depositories in which public funds may be deposited and prescribe the conditions under which the designation of a depository shall remain in effect. If a qualified depository should become ineligible to hold public funds, public treasurers are notified immediately. The City considers the actions of the Council to be necessary and sufficient for adequate protection of its investments. The City has no investment policy that would further limit its investment choices.

Investments Custodial Credit Risk. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Of the City's \$14,688,286 investment in a trust arrangement, and the Utah State Treasurers Investment Pool, the entire amount of underlying securities are held by the Investment's counterparty, not in the City's name and are not insured. The City's investment arrangements primarily invest in Utah State Treasurers investment pool, obligations of the United States Treasury, agencies, or instrumentalities of the United States that meet the allowable investments of the Utah Money Management Act. The City does not have an investment policy for custodial credit risk.

and

(ii) May require the Issuer to deposit a specified amount of money from the proceeds of the sale of such Series of Bonds or from other legally available sources into the applicable Project account sufficient to pay when due all or a portion of the interest on such Series of Bonds accrued and to accrue to the estimated completion date of the Project as set forth in the Written Certificate of the Issuer delivered pursuant to paragraph (c) below, plus interest to accrue on such Series of Bonds after the estimated completion date for up to one Year (or such different period as may then be permitted by law).

(c) Each Series of Construction Bonds shall be authenticated and delivered by the Trustee only upon receipt by the Trustee (in addition to the other documents required by the Indenture) of a written certificate of the Issuer, dated as of the date of such delivery, that contains the following:

(i) The then estimated completion date and the then estimated Cost of Construction of the Project being financed by such Series of Bonds;

(ii) A statement that, upon the authentication and delivery of the Bonds of such Series, no Event of Default has occurred and is then continuing under the Indenture and no event has or will have occurred which, with the passage of time or the giving of notice, or both, would give rise to an Event of Default under the Indenture;

(iii) Verification that the Net Revenues for the most recent Bond Fund Years for which an audit is available immediately preceding were not less than 125% of the sum of the Aggregate Annual Debt Service Requirement on all Bonds Outstanding for said year, plus the Construction Bonds proposed to be issued.

(d) Notwithstanding any other provision hereof, and in the event any Series of Bonds is insured by a Security Instrument Issuer, with such Security Instrument Issuer's prior written consent, if required, the provisions of (c)(iii) above shall apply:

(i) to any Series of Construction Bonds, all of the proceeds of which are to be applied to pay the Cost of Construction of a Project necessary, as expressed in an Engineer's Certificate delivered to the Trustee, to keep the System or any component thereof in good operating condition or to prevent a loss of Revenues, or to comply with requirements of any governmental agency having jurisdiction over the Issuer or the System; or

(ii) to any Series of Bonds issued to pay the Cost of Construction necessary to complete any Project for which Construction Bonds have previously been issued, provided that the Trustee shall have received:

(A) an Engineer's Certificate to the effect that (i) the nature and purpose of such Project has not materially changed since the initial written certificate of the Issuer was filed pursuant to (c) above, and (ii) the then estimated Costs of Construction of the Project as contained in the written certificate of the Issuer delivered pursuant to (c) above exceeds the sum of the Costs of Construction already paid plus moneys available in the Acquisition/Construction Fund established for the Project (including unspent proceeds of Bonds previously issued for such purpose) plus other legally available moneys in the Revenue Fund; and

(B) a written certificate of the Issuer to the effect that (i) all of the proceeds (including investment earnings) of Construction Bonds (or Bond Anticipation Notes) previously issued to finance such Project have been or will be used to pay Costs of Construction of the Project; (ii) the issuance of such Series of Bonds is necessary to provide funds to pay Costs of Construction necessary for the Project; and (iii) the principal amount of such Series of Bonds does not exceed twenty-five percent of the principal amount of all Construction Bonds previously issued to finance such Project.

#### Special Provisions for the Issuance of Refunding Bonds

One or more Series of Refunding Bonds may be issued in accordance with the Indenture in such principal amount which, when taken together with other legally available funds, will provide the Issuer with funds sufficient to accomplish the refunding of all or a part of the Outstanding Bonds of one or more Series, including in each case, the payment of all expenses in connection with such refunding.

#### Conditions for Issuance of Bond Anticipation Notes

(a) One or more Series of Bond Anticipation Notes may be authenticated and delivered upon original issuance from time to time in such principal amount for each such Series as may be determined by the Issuer for the

purpose of paying or providing for the payment of all or a portion of the Cost of Construction of any Project, or the refunding of Bond Anticipation Notes, or a combination of such purposes.

(b) (i) Each Supplemental Indenture authorizing the issuance of a Series of Bond Anticipation Notes (i) shall specify the Project to which the proceeds of such Series of Bond Anticipation Notes will be applied; and (ii) may provide for the deposit of a specified amount of money from the proceeds of the sale of such Series of Bond Anticipation Notes into a Project account in the Acquisition/Construction Fund to pay when due all or a portion of the interest on such Series of Bond Application Notes accrued and to accrue to the estimated completion date set forth in the written certificate of the Issuer delivered with respect to such Series of Bond Anticipation Notes pursuant to paragraph (c) below, plus interest to accrue on such Series of Bond Anticipation Notes after the estimated completion date for up to one Year (or such different period as may then be permitted by law).

(ii) The payment of the interest on Bond Anticipation Notes shall be on a parity with the lien and charge created herein for the payment of the Bonds. The payment of the principal on Bond Anticipation Notes shall be payable solely from the proceeds of Bonds or amounts on deposit in a fund which is subordinate to the Bond Fund and the Supplemental Indenture pursuant to which any Series of Bond Anticipation Notes is issued shall so provide. Each Bond Anticipation Note shall state on its face that the payment of principal thereof is so subordinated.

(iii) No Bond Anticipation Note shall mature later than five years from its date, including all refundings thereof by Bond Anticipation Notes (whether such refundings occur by reason of exchanges of Bond Anticipation Notes or by reason of payment of such Bond Anticipation Notes from refunding Bond Anticipation Notes, or otherwise).

(c) Each Series of Bond Anticipation Notes shall be authorized and delivered by the Trustee only upon receipt by the Trustee (in addition to the other documents required by the Indenture) a written certificate of the Issuer, dated as of the date of such delivery, that contains the following:

(i) The then estimated completion date and the then estimated Cost of Construction of the Project being financed by such Series of Bond Anticipation Notes;

(ii) A statement that, upon the authentication and delivery of the Bond Anticipation Notes of such Series, no Event of Default has occurred and is then continuing under the Indenture and no event has or will have occurred which, with the passage of time or the giving of notice, or both, would give rise to an Event of Default under the Indenture; and

(iii) A statement that the issuance of such Series of Bond Anticipation Notes complies with the requirements of the Indenture, including (c)(iii) under "Special Provisions for the Issuance of Additional Construction Bonds" above.

## **Use of Funds**

### **Use of Acquisition/Construction Fund**

(a) So long as an Event of Default shall not have occurred and be continuing and except as otherwise provided by Supplemental Indenture, moneys deposited in the appropriate account in the Acquisition/Construction Fund shall be disbursed by the Trustee to pay the Costs of a Project, in each case within three Business Days (or within such longer period as is reasonably required to liquidate investments in the Acquisition/Construction Fund if required to make such payment) after the receipt by the Trustee of a written requisition approved by an Authorized Representative of the Issuer in substantially the form attached to the Indenture, stating that the Trustee shall disburse sums in the manner specified by and at the direction of the Issuer to the person or entity designated in such written requisition, and that the amount set forth in the Indenture is justly due and owing and constitutes a Cost of a Project based upon audited, itemized claims substantiated in support thereof.

(b) Upon receipt of such requisition, the Trustee shall pay the obligation set forth in such requisition out of moneys in the applicable account in the Acquisition/Construction Fund. In making such payments the Trustee may rely upon the information submitted in such requisition. Such payments shall be presumed to be made properly and the Trustee shall not be required to verify the application of any payments from the Acquisition/Construction Fund or to inquire into the purposes for which disbursements are being made from the Acquisition/Construction Fund.

(c) The Issuer shall deliver to the Trustee, within 90 days after the completion of a Project, a certificate executed by an Authorized Representative of the Issuer stating:

(i) that such Project has been fully completed in accordance with the plans and specifications therefor, as amended from time to time, and stating the date of completion for such Project; and

(ii) that the Project has been fully paid for and no claim or claims exist against the Issuer or against such Project out of which a lien based on furnishing labor or material exists or might ripen; provided, however, there may be excepted from the foregoing certification any claim or claims out of which a lien exists or might ripen in the event the Issuer intends to contest such claim or claims, in which event such claim or claims shall be described to the Trustee.

(d) In the event the certificate filed with the Trustee pursuant to paragraph (c) above shall state that there is a claim or claims in controversy which create or might ripen into a lien, an Authorized Representative of the Issuer shall file a similar certificate with the Trustee when and as such claim or claims shall have been fully paid or otherwise discharged.

(e) The Trustee and the Issuer shall keep and maintain adequate records pertaining to each account within the Acquisition/Construction Fund and all disbursements therefrom.

(f) Unless otherwise specified in a Supplemental Indenture, upon completion of a Project and payment of all costs and expenses incident thereto and the filing with the Trustee of documents required by this section, any balance remaining in the applicable account in the Acquisition/Construction Fund relating to such Project shall, as directed by an Authorized Representative of the Issuer, be deposited in the Bond Fund, to be applied, (i) toward the redemption of the Series of Bonds issued to finance such Project or (ii) to pay principal and/or interest next falling due with respect to such Series of Bonds.

(g) The Trustee shall, to the extent there are no other available funds held under the Indenture, use the remaining funds in the Acquisition/Construction Fund to pay principal and interest on the Bonds at any time in the event of a payment default under the Indenture.

#### Use of Bond Fund

The Issuer may direct the Trustee, pursuant to a Supplemental Indenture, to create an account within the Bond Fund for a separate Series of Bonds under the Indenture.

(a) The Trustee shall make deposits to the Bond Fund, as and when received, as follows:

(i) accrued interest received upon the issuance of any Series of Bonds;

(ii) all moneys payable by the Issuer as specified in the Indenture;

(iii) any amount in the Acquisition/Construction Fund to the extent required by or directed pursuant to paragraph (f) in "Use of Acquisition/Construction Fund" upon completion of a Project;

(iv) all moneys transferred from the Debt Service Reserve Fund or from a Reserve Instrument or Instruments then in effect as described under the heading "Use of Debt Service Reserve Fund," and

(v) all other moneys received by the Trustee under the Indenture when accompanied by directions from the person depositing such moneys that such moneys are to be paid into the Bond Fund.

(b) Except as provided in "EVENTS OF DEFAULT—Application of Moneys" and as provided in this heading and except as otherwise provided by Supplemental Indenture, moneys in the Bond Fund shall be expended solely for the following purposes and in the following order of priority:

(i) on or before each Interest Payment Date for each Series of Bonds, the amount required to pay the interest due on such date;

(ii) on or before each Principal Installment due date, the amount required to pay the Principal Installment due on such due date; and

(iii) on or before each redemption date for each Series of Bonds, the amount required to pay the redemption price of and accrued interest on such Bonds then to be redeemed.

Such amounts shall be applied by the Paying Agent to pay Principal Installments and redemption price of, and interest on the related Series of Bonds.

The Trustee shall pay out of the Bond Fund to the Security Instrument Issuer, if any, that has issued a Security Instrument with respect to such Series of Bonds an amount equal to any Security Instrument Repayment Obligation then due and payable to such Security Instrument Issuer. Except as otherwise specified in a related Supplemental Indenture all such Security Instrument Repayment Obligations shall be paid on a parity with the payments to be made with respect to principal and interest on the Bonds; provided that amounts paid under a Security Instrument shall be applied only to pay the related Series of Bonds. If payment is so made on Pledged Bonds held for the benefit of the Security Instrument Issuer, a corresponding payment on the Security Instrument Repayment Obligation shall be deemed to have been made (without requiring an additional payment by the Issuer) and the Trustee shall keep its records accordingly.

The Issuer authorizes and directs the Trustee to withdraw sufficient funds from the Bond Fund to pay principal of and interest on the Bonds and on Security Instrument Repayment Obligations as the same become due and payable and to make said funds so withdrawn available to the Trustee and any Paying Agent for the purpose of paying said Principal and interest.

(c) After payment in full of the Principal of and interest on (1) all Bonds issued under the Indenture (or after provision has been made for the payment thereof as provided in the Indenture so that such Bonds are no longer Outstanding); (2) all agreements relating to all outstanding Security Instrument Repayment Obligations and Reserve Instrument Repayment Obligations in accordance with their respective terms; and (3) the fees, charges and expenses of the Trustee, the Paying Agent and any other amounts required to be paid under the Indenture or under any Supplemental Indenture and under any Security Instrument Agreement and under any Reserve Instrument Agreement; all amounts remaining in the Bond Fund shall be paid to the Issuer.

#### Use of Sinking Fund Account

(a) The Trustee shall apply moneys in the Sinking Fund Account to the retirement of any Term Bonds required to be retired by operation of the Sinking Fund Account under the provisions of and in accordance with the Supplemental Indenture authorizing the issuance of such Term Bonds, either by redemption in accordance with such Supplemental Indenture or, at the direction of the Issuer, purchase of such Term Bonds in the open market prior to the date on which notice of the redemption of such Term Bonds is given pursuant to the Indenture, at a price not to exceed the redemption price of such Term Bonds (plus accrued interest which will be paid from moneys in the Bond Fund other than those in the Sinking Fund Account).

(b) On the maturity date of any Term Bonds, the Trustee shall apply the moneys on hand in the Sinking Fund Account for the payment of the principal of such Term Bonds.

#### Use of Debt Service Reserve Fund

Except as otherwise provided in this section and subject to the immediately following sentence, moneys in each account in the Debt Service Reserve Fund shall at all times be maintained in an amount not less than the applicable Debt Service Reserve Requirement, if any. In calculating the amount on deposit in each account in the Debt Service Reserve Fund, the amount of any Reserve Instrument Coverage will be treated as an amount on deposit in such account in the Debt Service Reserve Fund. Each Supplemental Indenture authorizing the issuance of a Series of Bonds shall specify the Debt Service Reserve Requirement, if any, applicable to such Series which amount shall either be (i) deposited immediately upon the issuance and delivery of such Series from (a) proceeds from the sale thereof or from any other legally available source, or (b) by a Reserve Instrument or Instruments, or (c) any combination thereof, (ii) deposited from available Net Revenues over the period of time specified, or (iii) deposited from any combination of (i) and (ii) above; provided however, the foregoing provisions shall be subject to the requirements of any Security Instrument Issuer set forth in any Supplemental Indenture. If at any time the amount on deposit in any account of the Debt Service Reserve Fund is less than the minimum amount to be maintained in the Indenture under this section, the Issuer is required, pursuant to the Indenture and the provisions of any Supplemental Indenture, to make payments totaling the amount of any such deficiency directly to the Trustee for deposit into the Debt Service Reserve Fund.

In the event funds on deposit in an account of the Debt Service Reserve Fund are needed to make up any deficiencies in the Bond Fund as aforementioned, and there is insufficient cash available in such account of the Debt Service Reserve Fund to make up such deficiency and Reserve Instruments applicable to such Series are in effect, the Trustee shall immediately make a demand for payment on such Reserve Instruments, to the maximum extent authorized by such Reserve Instruments, in the amount necessary to make up such deficiency, and immediately deposit such payment upon receipt thereof into the Bond Fund. Thereafter, the Issuer shall be obligated to reinstate the Reserve Instrument as provided in the Indenture.

No Reserve Instrument shall be allowed to expire or terminate while the related Series of Bonds are Outstanding unless and until cash has been deposited into the related account of the Debt Service Reserve Fund, or a new Reserve Instrument has been issued in place of the expiring or terminating Reserve Instrument, or any combination thereof in an amount or to provide coverage, as the case may be, at least equal to the amount required to be maintained in the related account of the Debt Service Reserve Fund.

Moneys at any time on deposit in the account of the Debt Service Reserve Fund in excess of the amount required to be maintained therein (taking into account the amount of related Reserve Instrument Coverage) shall be transferred by the Trustee to the Bond Fund at least once each year.

Moneys on deposit in any account of the Debt Service Reserve Fund shall be used to make up any deficiencies in the Bond Fund only for the Series of Bonds secured by said account and any Reserve Instrument shall only be drawn upon with respect to the Series of Bonds for which such Reserve Instrument was obtained.

The Issuer may, upon obtaining approving opinion of bond counsel to the effect that such transaction will not adversely affect the tax-exempt status of any outstanding Bonds, replace any amounts required to be on deposit in the Debt Service Reserve Fund with a Reserve Instrument.

#### Use of Reserve Instrument Fund

There shall be paid into the Reserve Instrument Fund the amounts required by the Indenture and by a Supplemental Indenture to be so paid. The amounts in the Reserve Instrument Fund shall, from time to time, be applied by the Trustee on behalf of the Issuer to pay the Reserve Instrument Repayment Obligations which are due and payable to any Reserve Instrument Provider under any applicable Reserve Instrument Agreement. The Issuer may, with the approving opinion of bond counsel that such transaction will not adversely affect the tax-exempt status of any outstanding Bonds, replace any amounts required to be on deposit in the Debt Service Reserve Fund with a Reserve Instrument.

#### Use of Repair and Replacement Fund

All moneys in the Repair and Replacement Fund may be drawn on and used by the Issuer for the purpose of (a) paying the cost of unusual or extraordinary maintenance or repairs of the System; (b) paying the costs of any renewals, renovation, improvements, expansion or replacements to the System; and (c) paying the cost of any replacement of buildings, lines, equipment and other related facilities, to the extent the same are not paid as part of the ordinary and normal expense of the operation of the System.

Funds shall be deposited monthly from available Net Revenues in such amounts as may be required from time to time by each Supplemental Indenture until the Repair and Replacement Fund has an amount equivalent to the Repair and Replacement Requirement. Any deficiencies below the Repair and Replacement Requirement shall be made up from Net Revenues of the System available for such purposes. Funds at any time on deposit in the Repair and Replacement Fund in excess of the amount required to be maintained in the Indenture may, at any time, be used by the Issuer for any lawful purpose.

#### Investment of Funds

Any moneys in the Bond Fund, the Acquisition/Construction Fund, the Reserve Instrument Fund, the Rebate Fund, the Debt Service Reserve Fund shall, at the discretion and authorization of the Issuer, be invested by the Trustee in Qualified Investments; provided, however, that moneys on deposit in the Bond Fund, the Reserve Instrument Fund, and Debt Service Reserve Fund may only be invested in Qualified Investments described in (a), (b), or (c) of the definition thereof having a maturity date of one year or less. If no written authorization is given to the Trustee, moneys shall be held uninvested. Such investments shall be held by the Trustee, and when the Trustee determines it necessary to use the moneys in the Funds for the purposes for which the Funds were created, it shall liquidate at prevailing market prices as much of the investments as may be necessary and apply the proceeds to such purposes. All income derived from the investment of the Acquisition/Construction Fund, the Bond Fund, the Reserve Instrument Fund and the Rebate Fund shall be maintained in said respective Funds and disbursed along with the other moneys on deposit therein as provided in the Indenture. All income derived from the investment of the Debt Service Reserve Fund shall be disbursed in accordance with "Use of Debt Service Reserve Fund." All moneys in the Revenue Fund may, at the discretion of the Issuer, be invested by the Issuer in Qualified Investments.

The Trustee shall have no liability or responsibility for any loss resulting from any investment made in accordance with the provisions of this Section. The Trustee shall be entitled to assume that any investment, which at the time of purchase is a Qualified Investment, remains a Qualified Investment thereafter, absent receipt of written notice or information to the contrary.

The Trustee may, to the extent permitted by the State Money Management Act of 1974, Title 51, Chapter 7, Utah Code, make any and all investments permitted by the provisions of the Indenture through its own or any of its affiliate's investment departments.

The Issuer acknowledges that to the extent regulations of the comptroller of the currency or any other regulatory entity grant the Issuer the right to receive brokerage confirmations of the security transactions as they occur, the Issuer specifically waives receipt of such confirmations to the extent permitted by law. The Trustee will furnish the Issuer periodic cash transaction statements which include the detail for all investment transactions made by the Trustee under the Indenture.

The Issuer may invest the amounts on deposit in the Repair and Replacement Fund as permitted by applicable law.

In the event the Issuer shall be advised by nationally recognized municipal bond counsel that it is necessary to restrict or limit the yield on the investment of any moneys paid to or held by the Trustee in order to avoid the Bonds, or any Series thereof, being considered "arbitrage bonds" within the meaning of the Code or the Treasury Regulations proposed or promulgated thereunder, or to otherwise preserve the exclusion of interest payable or paid on any Bonds from gross income for federal income tax purposes, the Issuer may require in writing the Trustee to take such steps as it may be advised by such counsel are necessary so to restrict or limit the yield on such

investment, irrespective of whether the Trustee shares such opinion, and the Trustee agrees that it will take all such steps as the Issuer may require.

#### Trust Funds

All moneys and securities received by the Trustee under the provisions of the Indenture shall be trust funds under the terms hereof and shall not be subject to lien or attachment of any creditor of the State or any political subdivision, body, agency, or instrumentality thereof or of the Issuer and shall not be subject to appropriation by any legislative body or otherwise. Such moneys and securities shall be held in trust and applied in accordance with the provisions of the Indenture. Except as provided otherwise in the Indenture, unless and until disbursed pursuant to the terms of the Indenture, all such moneys and securities (and the income therefrom) shall be held by the Trustee as security for payment of the principal of, premium, if any, and interest on the Bonds and the fees and expenses of the Trustee payable under the Indenture.

#### Method of Valuation and Frequency of Valuation

In computing the amount in any fund or account, Qualified Investments shall be valued at market, exclusive of accrued interest. With respect to all funds and accounts, valuation shall occur quarterly, except in the event of a withdrawal from the Debt Service Reserve Fund, whereupon securities shall be valued immediately after such withdrawal.

#### **General Covenants**

##### General Covenants

The Issuer hereby covenants and agrees with each and every Registered Owner of the Bonds issued under the Indenture, Security Instrument Issuer and Reserve Instrument Provider as follows:

(a) While any of the principal of and interest on the Bonds are outstanding and unpaid, or any Repayment Obligations are outstanding, any resolution or other enactment of the Governing Body of the Issuer, applying the Net Revenues for the payment of the Bonds and the Repayment Obligations shall be irrevocable until the Bonds and/or any Repayment Obligations have been paid in full as to both principal and interest, and is not subject to amendment in any manner which would impair the rights of the holders of those Bonds or the Repayment Obligations which would in any way jeopardize the timely payment of principal or interest when due. Furthermore, the rates including connection fees, for all services supplied by the System to the Issuer and to its inhabitants and to all customers within or without the boundaries of the Issuer, shall be sufficient to pay the Operation and Maintenance Expenses for the System, and to provide Net Revenues for each Bond Fund Year of not less than 125% of the Aggregate Annual Debt Service Requirement for such Year, plus an amount sufficient to fund the Debt Service Reserve Fund in the time, rate and manner specified in the Indenture, provided, however, that such rates must be reasonable rates for the type, kind and character of the service rendered. There shall be no free gas or electric service, and such rates shall be charged against all users of the System, including the Issuer. The Issuer agrees that should its annual financial statement made in accordance with the provisions of paragraph (d) below disclose that during the period covered by such financial statement the Net Revenues and Other Available Funds were not at least equal to the above requirement, the Issuer shall request that a Qualified Engineer make recommendations as to the revision of the rates, charges and fees and that the Issuer on the basis of such recommendations will revise the schedule of rates, charges and fees insofar as is practicable and further revise Operation and Maintenance Costs so as to produce the necessary Net Revenues as required in the Indenture.

(b) The Issuer will maintain the System in good condition and operate the same in an efficient manner.

(c) Each Registered Owner, Security Instrument Issuer and Reserve Instrument Provider shall have a right, in addition to all other rights afforded it by the laws of the State, to apply to and obtain from any court of competent jurisdiction such decree or order as may be necessary to require the Issuer to charge or collect reasonable

rates for services supplied by the System sufficient to meet all requirements of the Indenture and of any applicable Reserve Instrument Agreement.

(d) So long as any principal and interest payments of the Bonds are Outstanding, or any Repayment Obligations are outstanding, proper books of record and account will be kept by the Issuer separate and apart from all other records and accounts, showing complete and correct entries of all transactions relating to the System. Each Registered Owner, Security Instrument Issuer and Reserve Instrument Provider, or any duly authorized agent or agents thereof shall have the right at all reasonable times to inspect all records, accounts and data relating thereto and to inspect the System. Except as otherwise provided in the Indenture, the Issuer further agrees that it will within one hundred eighty (180) days following the close of each Bond Fund Year cause an audit of such books and accounts to be made by an independent firm of certified public accountants, showing the receipts and disbursements for account of the Net Revenues and the System, and that such audit will be available for inspection by each Registered Owner, Security Instrument Issuer and Reserve Instrument Provider.

All expenses incurred in compiling the information required by this Section shall be regarded and paid as an Operation and Maintenance Expense.

#### First Lien Bonds: Equality of Liens

The Bonds and any Security Instrument Repayment Obligations constitute an irrevocable first lien upon the Net Revenues. The Issuer covenants that the Bonds and Security Instrument Repayment Obligations hereafter authorized to be issued and from time to time outstanding are equitably and ratably secured by a first lien on the Net Revenues and shall not be entitled to any priority one over the other in the application of the Net Revenues regardless of the time or times of the issuance of the Bonds or delivery of Security Instruments, it being the intention of the Issuer that there shall be no priority among the Bonds or the Security Instrument Repayment Obligations regardless of the fact that they may be actually issued and/or delivered at different times.

Any assignment or pledge from the Issuer to a Reserve Instrument Provider of (i) proceeds of the issuance and sale of Bonds, (ii) Net Revenues, or (iii) Funds established by the Indenture, including investments, if any, thereof, is and shall be subordinate to the assignment and pledge effected hereby to the Registered Owners of the Bonds and to the Security Instrument Issuers.

#### Payment of Principal and Interest

The Issuer covenants that it will punctually pay or cause to be paid the Principal of and interest on every Bond issued under the Indenture, any Security Instrument Repayment Obligations and any Reserve Instrument Repayment Obligations, in strict conformity with the terms of the Bonds, the Indenture, any Security Instrument Agreement and any Reserve Instrument Agreement, according to the true intent and meaning of the Indenture. The Principal of and interest on the Bonds, any Security Instrument Repayment Obligations and any Reserve Instrument Repayment Obligations are payable solely from the Net Revenues (except to the extent paid out of moneys attributable to Bond proceeds or other funds created under the Indenture or the income from the temporary investment thereof), which Net Revenues are specifically pledged and assigned to the payment thereof in the manner and to the extent specified in the Indenture, and nothing in the Bonds, the Indenture, any Security Instrument Agreement or any Reserve Instrument Agreement should be considered as pledging any other funds or assets of the Issuer for the payment thereof.

#### Expeditious Construction

The Issuer shall complete the acquisition and construction of each Project with all practical dispatch and will cause all construction to be effected in a sound and economical manner.

#### Management of System

The Issuer, in order to assure the efficient management and operation of the System and to assure each Registered Owner, Security Instrument Issuer and Reserve Instrument Provider from time to time that the System

will be operated on sound business principles, will employ competent and experienced management for the System, will use its best efforts to see that the System is at all times operated and maintained in first-class repair and condition and in such manner that the operating efficiency thereof shall be of the highest character.

#### Use of Legally Available Moneys

Notwithstanding any other provisions of the Indenture, nothing in the Indenture shall be construed to prevent the Issuer from (i) paying all or any part of the Operation and Maintenance Expenses from any funds available to the Issuer for such purpose, (ii) depositing any funds available to the Issuer for such purpose in any account in the Bond Fund for the payment of the interest on, premium, if any, or the principal of any Bonds issued under provisions of the Indenture or for the redemption of any such Bonds, or (iii) depositing any funds available to the Issuer for such purpose in the Reserve Instrument Fund for the payment of any amounts payable under any applicable Reserve Instrument Agreement.

#### Payment of Taxes and Other Charges

The Issuer covenants that all taxes and assessments or other municipal or governmental charges lawfully levied or assessed upon the System or upon any part thereof or upon any income therefrom will be paid when the same shall become due, that no lien or charge upon the System or any part thereof or upon any Revenues thereof, except for the lien and charge thereon created under the Indenture and securing the Bonds, will be created or permitted to be created ranking equally with or prior to the Bonds (except for the parity lien thereon of Additional Bonds issued from time to time under the Indenture and under Supplemental Indentures to the Indenture), and that all lawful claims and demands for labor, materials, supplies or other objects which, if unpaid, might by law become a lien upon the System or any part thereof or upon the Revenues thereof will be paid or discharged, or adequate provision will be made for the payment or discharge of such claims and demands within 60 days after the same shall accrue; provided, however, that nothing in this Section shall require any such lien or charge to be paid or discharged or provision made therefor so long as the validity of such lien or charge shall be contested in good faith and by appropriate legal proceedings.

#### Insurance

The Issuer, in its operation of the System, will self-insure or carry insurance, including, but not limited to, workmen's compensation insurance and public liability insurance, in such amounts and to such extent as is normally carried by others operating public utilities of the same type. The cost of such insurance shall be considered an Operation and Maintenance Expense of the System. In the event of loss or damage, insurance proceeds shall be used first for the purpose of restoring or replacing the property lost or damaged. Any remainder shall be paid into the Bond Fund. The Issuer shall obtain the consent of the Security Instrument Issuer insuring a particular Series of Bonds prior to obtaining self-insurance under this Section.

#### Covenant Not to Sell

The Issuer will not sell, lease, mortgage, encumber, or in any manner dispose of the System or any substantial part thereof, including any and all extensions and additions that may be made thereto, until all principal of and interest on the Bonds, and all Repayment Obligations, have been paid in full, and, if required, until the Security Instrument Issuer's prior consent has been obtained, except as follows:

(a) The Issuer may sell any portion of said property (i) which shall have been replaced by other property of at least equal value, (ii) which shall cease to be necessary for the efficient operation of the System and the disposition of which will not, as determined by the governing body of the Issuer, result in a material reduction in Net Revenues in any year; or (iii) the value, as determined by the governing body of the Issuer, of the property to be sold, leased, abandoned, mortgaged, or otherwise disposed of (together with any other property similarly disposed of within the 12 calendar months preceding the proposed disposition) does not exceed 5% of the value of the System assets, as determined by the governing body of the Issuer, provided, however, that in the event of any sale as aforesaid, the proceeds of such sale not needed to acquire other System property shall be paid into the Bond Fund.

(b) The Issuer may lease or make contracts or grant licenses for the operation of, or make arrangements for the use of, or grant easements or other rights with respect to, any part of the System, provided that any such lease, contract, license, arrangement, easement or right does not impede the operation of the System; and any payment received by the Issuer under or in connection with any such lease, contract, license, arrangement, easement or right in respect of the System or any part thereof shall constitute Revenues.

#### Billing Procedure

The Issuer shall submit a monthly billing for services rendered to persons who are liable for the payment of charges for such services, and shall require that each such bill be paid in full as a unit, and refuse to permit payment of a portion without payment of the remainder. Any bill not paid within thirty (30) days from the date it is mailed to the customer shall be deemed delinquent. The Issuer agrees that if any bill remains delinquent for more than sixty (60) days, it will initiate proceedings to cause all electric services to the user concerned to be cut off immediately.

#### **Events Of Default; Remedies**

##### Events of Default

Each of the following events is an "Event of Default" under the Indenture:

(a) if payment of any installment of interest on any of the Bonds shall not be made by or on behalf of the Issuer when the same shall become due and payable, or

(b) if payment of the principal of or the redemption premium, if any, on any of the Bonds shall not be made by or on behalf of the Issuer when the same shall become due and payable, either at maturity or by proceedings for redemption in advance of maturity or through failure to fulfill any payment to any fund under the Indenture or otherwise; or

(c) if the Issuer shall for any reason be rendered incapable of fulfilling its obligations under the Indenture; or

(d) if an order or decree shall be entered, with the consent or acquiescence of the Issuer, appointing a receiver or custodian for any of the Revenues of the Issuer, or approving a petition filed against the Issuer seeking reorganization of the Issuer under the federal bankruptcy laws or any other similar law or statute of the United States of America or any state thereof, or if any such order or decree, having been entered without the consent or acquiescence of the Issuer shall not be vacated or discharged or stayed on appeal within 30 days after the entry thereof; or

(e) if any proceeding shall be instituted, with the consent or acquiescence of the Issuer, for the purpose of effecting a composition between the Issuer and its creditors or for the purpose of adjusting the claims of such creditors pursuant to any federal or state statute now or hereafter enacted, if the claims of such creditors are or may be under any circumstances payable from Revenues; or

(f) if (i) the Issuer is adjudged insolvent by a court of competent jurisdiction, or (ii) an order, judgment or decree be entered by any court of competent jurisdiction appointing, without the consent of the Issuer, a receiver, trustee or custodian of the Issuer or of the whole or any part of the Issuer's property and any of the aforesaid adjudications, orders, judgments or decrees shall not be vacated or set aside or stayed within 60 days from the date of entry thereof; or

(g) if the Issuer shall file a petition or answer seeking reorganization, relief or any arrangement under the federal bankruptcy laws or any other applicable law or statute of the United States of America or any state thereof; or

(h) if, under the provisions of any other law for the relief or aid of debtors, any court of competent jurisdiction shall assume custody or control of the Issuer or of the whole or any substantial part of the property of the

Issuer, and such custody or control shall not be terminated within 30 days from the date of assumption of such custody or control; or

(i) if the Issuer shall default in the due and punctual performance of any other of the covenants, conditions, agreements and provisions contained in the Bonds, or in the Indenture or any Supplemental Indenture of the Indenture on the part of the Issuer to be performed, other than as set forth above in this Section, and such Default shall continue for 30 days after written notice specifying such Event of Default and requiring the same to be remedied shall have been given to the Issuer by the Trustee, which may give such notice in its discretion and shall give such notice at the written request of the Registered Owners of not less than 25% in aggregate Principal amount of the Bonds then Outstanding under the Indenture; or

(j) any event specified in a Supplemental Indenture as constituting an Event of Default.

#### Remedies: Rights of Registered Owners

Upon the occurrence of an Event of Default, the Trustee, upon being indemnified pursuant to the Indenture, may pursue any available remedy by suit at law or in equity to enforce the payment of the principal of, premium, if any, and interest on the Bonds then Outstanding or to enforce any obligations of the Issuer under the Indenture.

If an Event of Default shall have occurred, and if requested so to do by (i) Registered Owners of not less than 25% in aggregate Principal amount of the Bonds then Outstanding, (ii) Security Instrument Issuers at that time providing Security Instruments which are in full force and effect and not in default on any payment obligation and which secure not less than 25% in aggregate Principal amount of Bonds at the time Outstanding, or (iii) any combination of Registered Owners and Security Instrument Issuers described in (i) and (ii) above representing not less than 25% in aggregate Principal amount of Bonds at the time Outstanding, and indemnified as provided in the Indenture, the Trustee shall be obligated to exercise such one or more of the rights and powers conferred by this Section as the Trustee, being advised by counsel, shall deem most expedient in the interest of the Registered Owners and the Security Instrument Issuers.

No remedy by the terms of the Indenture conferred upon or reserved to the Trustee (or to the Registered Owners or to the Security Instrument Issuers) is intended to be exclusive of any other remedy, but each and every such remedy shall be cumulative and shall be in addition to any other remedy given to the Trustee, the Registered Owners or the Security Instrument Issuers or now or hereafter existing at law or in equity or by statute.

No delay or omission to exercise any right or power accruing upon any Event of Default shall impair any such right or power or shall be construed to be a waiver of any Event of Default or acquiescence therein; and every such right and power may be exercised from time to time and as often as may be deemed expedient.

No waiver of any Event of Default under the Indenture, whether by the Trustee or by the Registered Owners or the Security Instrument Issuers, shall extend to or shall affect any subsequent Event of Default or shall impair any rights or remedies consequent thereon.

#### Right of Registered Owners to Direct Proceedings

Anything in the Indenture to the contrary notwithstanding, unless a Supplemental Indenture provides otherwise, either (i) the Registered Owners of a majority in aggregate Principal amount of the Bonds then Outstanding, (ii) the Security Instrument Issuers at the time providing Security Instruments which are in full force and effect and not in default on any payment obligation and which secure not less than 50% in aggregate Principal amount of Bonds at the time Outstanding, or (iii) any combination of Registered Owners and Security Instrument Issuers described in (i) and (ii) above representing not less than 50% in aggregate Principal amount of Bonds at the time Outstanding, shall have the right, at any time, by an instrument or instruments in writing executed and delivered to the Trustee, to direct the time, method and place of conducting all proceedings to be taken in connection with the enforcement of the terms and conditions of the Indenture, or for the appointment of a receiver or any other proceedings under the Indenture; provided, that such direction shall not be otherwise than in accordance with the provisions of law and of the Indenture.

### Application of Moneys

All moneys received by the Trustee pursuant to any right given or action taken under the provisions of this Section shall, after payment of Trustee's fees and expenses including the fees and expenses of its counsel for the proceedings resulting in the collection of such moneys and of the expenses and liabilities and advances incurred or made by the Trustee, be deposited in the Bond Fund and all moneys so deposited in the Bond Fund shall be applied in the following order:

(a) To the payment of the principal of, premium, if any, and interest then due and payable on the Bonds and the Security Instrument Repayment Obligations as follows:

(i) Unless the Principal of all the Bonds shall have become due and payable, all such moneys shall be applied:

FIRST—To the payment to the persons entitled thereto of all installments of interest then due on the Bonds and the interest component of any Security Instrument Repayment Obligations then due, in the order of the maturity of the installments of such interest and, if the amount available shall not be sufficient to pay in full any particular installment, then to the payment ratably, according to the amounts due on such installment, to the persons entitled thereto, without any discrimination or privilege; and

SECOND—To the payment to the persons entitled thereto of the unpaid Principal of and premium, if any, on the Bonds which shall have become due (other than Bonds called for redemption for the payment of which moneys are held pursuant to the provisions of the Indenture), in the order of their due dates, and the Principal component of any Security Instrument Repayment Obligations then due, and, if the amount available shall not be sufficient to pay in full all the Bonds and the Principal component of any Security Instrument Repayment Obligations due on any particular date, then to the payment ratably, according to the amount of Principal due on such date, to the persons entitled thereto without any discrimination or privilege.

(ii) If the principal of all the Bonds shall have become due and payable, all such moneys shall be applied to the payment of the Principal and interest then due and unpaid upon the Bonds and Security Instrument Repayment Obligations, without preference or priority of Principal over interest or of interest over Principal, or of any installment of interest over any other installment of interest, or of any Bond or Security Instrument Repayment Obligation over any other Bond or Security Instrument Repayment Obligation, ratably, according to the amounts due respectively for Principal and interest, to the persons entitled thereto without any discrimination or privilege.

(iii) To the payment of all obligations owed to all Reserve Instrument Providers, ratably, according to the amounts due without any discrimination or preference under any applicable agreement related to any Reserve Instrument Agreement.

Whenever moneys are to be applied pursuant to the provisions of this Section, such moneys shall be applied at such times, and from time to time, as the Trustee shall determine, having due regard to the amounts of such moneys available for such application and the likelihood of additional moneys becoming available for such application in the future. Whenever the Trustee shall apply such funds, it shall fix the date (which shall be an Interest Payment Date unless it shall deem another date more suitable) upon which such application is to be made and upon such date interest on the amounts of principal paid on such dates shall cease to accrue.

### Remedies Vested in Trustee

All rights of action (including the right to file proof of claims) under the Indenture or under any of the Bonds may be enforced by the Trustee without the possession of any of the Bonds or the production thereof in any trial or other proceedings related thereto and any such suit or proceedings instituted by the Trustee shall be brought in its name as Trustee without the necessity of joining as plaintiffs or defendants any Registered Owners of the Bonds, and any recovery of judgment shall be for the equal benefit of the Registered Owners of the Outstanding Bonds.

### Rights and Remedies of Registered Owners

Except as provided in the last sentence of this Section, no Registered Owner of any Bond or Security Instrument Issuer shall have any right to institute any suit, action or proceeding in equity or at law for the enforcement of the Indenture or for the execution of any trust thereof or for the appointment of a receiver or any other remedy under the Indenture, unless an Event of Default has occurred of which the Trustee has been notified or it is deemed to have notice, nor unless also Registered Owners of 25% in aggregate principal amount of the Bonds then Outstanding or Security Instrument Issuers at the time providing Security Instruments which are in full force and effect and are not in default on any payment obligation and which secure not less than 25% in aggregate principal amount of Bonds at the time Outstanding shall have made written request to the Trustee and shall have offered reasonable opportunity either to proceed to exercise the powers granted in the Indenture or to institute such action, suit or proceeding in its own name, nor unless also they have offered to the Trustee indemnity as provided in the Indenture nor unless the Trustee shall thereafter fail or refuse to exercise the powers granted in the Indenture, or to institute such action, suit or proceeding in its own name or names. Such notification, request and offer of indemnity are declared by the Indenture in every case at the option of the Trustee to be conditions precedent to the execution of the powers and trust of the Indenture, and to any action or cause of action for the enforcement of the Indenture, or for the appointment of a receiver or for any other remedy under the Indenture; it being understood and intended that no one or more Registered Owner of the Bonds or Security Instrument Issuer shall have any right in any manner whatsoever to affect, disturb or prejudice the lien of the Indenture by its action or to enforce any right under the Indenture except in the manner provided in the Indenture, and that all proceedings at law or in equity shall be instituted, had and maintained in the manner provided in the Indenture and for the equal benefit of the Registered Owners of all Bonds then Outstanding and all Security Instrument Issuers at the time providing Security Instruments. Nothing contained in the Indenture shall, however, affect or impair the right of any Registered Owner or Security Instrument Issuer to enforce the covenants of the Issuer to pay the principal of, premium, if any, and interest on each of the Bonds issued under the Indenture held by such Registered Owner and Security Instrument Repayment Obligations at the time, place, from the source and in the manner in said Bonds or Security Instrument Repayment Obligations expressed.

### Termination of Proceedings

In case the Trustee, any Registered Owner or any Security Instrument Issuer shall have proceeded to enforce any right under the Indenture by the appointment of a receiver, or otherwise, and such proceedings shall have been discontinued or abandoned for any reason, or shall have been determined adversely to the Trustee, the Registered Owner, or Security Instrument Issuer, then and in every such case the Issuer and the Trustee shall be restored to their former positions and rights under the Indenture, and all rights, remedies and powers of the Trustee shall continue as if no such proceedings had been taken.

### Waivers of Events of Default

Subject to "THE TRUSTEE—Notice," the Trustee may in its discretion, and with the prior written consent of all Security Instrument Issuers at the time providing Security Instruments, waive any Event of Default under the Indenture and its consequences and shall do so upon the written request of the Registered Owners of (a) a majority in aggregate Principal amount of all the Bonds then Outstanding or Security Instrument Issuers at the time providing Security Instruments which are in full force and effect and are not in default on any payment obligation and which secure not less than 50% in aggregate Principal amount of Bonds at the time Outstanding in respect of which an Event of Default in the payment of principal and interest exist, or (b) a majority in aggregate principal amount of the Bonds then Outstanding or Security Instrument Issuers at the time providing Security Instruments which are in full force and effect and are not in default on any payment obligation and which secure not less than 50% in aggregate Principal amount of Bonds at the time Outstanding in the case of any other Event of Default; provided, however, that there shall not be waived (i) any default in the payment of the principal of any Bonds at the date that a Principal Installment is due, or (ii) any default in the payment when due of the interest on any such Bonds, unless prior to such waiver or rescission, all arrears of interest, with interest (to the extent permitted by law) at the rate borne by the Bonds in respect of which such Event of Default shall have occurred on overdue installments of interest and all arrears of payments of principal and premium, if any, when due and all expenses of the Trustee, in connection with such Event of Default shall have been paid or provided for, and in case of any such waiver or rescission, or in case any proceeding taken by the Trustee on account of any such Event of Default shall have been discontinued or

abandoned or determined adversely, then and in every such case the Issuer, the Trustee, the Registered Owners and the Security Instrument Issuers shall be restored to their former positions and rights under the Indenture, respectively, but no such waiver or rescission shall extend to any subsequent or other Event of Default, or impair any right consequent thereon.

## **The Trustee**

### Notice

The Trustee shall not be required to take notice or be deemed to have notice of any Event of Default under the Indenture, except an Event of Default described in paragraphs (a) and (b) under the heading "EVENTS OF DEFAULT; REMEDIES—Events of Default," unless the Trustee shall be specifically notified in writing of such Default by the Issuer, a Security Instrument Issuer or by the Registered Owners of at least 25% in the aggregate principal amount of any Series of the Bonds then Outstanding and all notices or other instruments required to be delivered to the Trustee must, in order to be effective, be delivered at the Principal Corporate Trust Office of the Trustee, and in the absence of such notice so delivered, the Trustee may conclusively assume there is no Event of Default except as aforesaid.

### Indemnity

The Trustee shall be under no obligation to exercise any of the rights or powers vested in it by the Indenture at the request, order or direction of any of the Registered Owners, Security Instrument Issuers or Reserve Instrument Providers, pursuant to the provisions of the Indenture, unless such Registered Owners, Security Instrument Issuers or Reserve Instrument Providers shall have offered to the Trustee reasonable security or indemnity against the costs, expenses and liabilities which may be incurred therein or thereby.

### Fees, Charges and Expenses of Trustee

The Trustee shall be entitled to payment and/or reimbursement for reasonable fees for its services rendered as Trustee under the Indenture and all advances, counsel fees, and other expenses reasonably and necessarily made or incurred by the Trustee in connection with such services. The Trustee shall be entitled to payment and reimbursement for the reasonable fees and charges of the Trustee as Paying Agent and Registrar for the Bonds as provided in the Indenture. Upon an Event of Default, but only upon an Event of Default, the Trustee shall have a right of payment prior to payment on account of interest or principal of, or premium, if any, on any Bond for the foregoing advances, fees, costs and expenses incurred. The Trustee's rights under this Section will not terminate upon its resignation or removal or upon payment of the Bonds and discharge of the Indenture.

### Notice to Registered Owners if Event of Default Occurs

If an Event of Default occurs of which the Trustee is required to take notice or if notice of an Event of Default be given to the Trustee as provided in the Indenture, then the Trustee shall give written notice thereof by registered or certified mail to all Security Instrument Issuers or to Registered Owners of all Bonds then Outstanding shown on the registration books of the Bonds kept by the Trustee as Registrar for the Bonds.

### Removal of the Trustee

The Trustee may be removed at any time, by an instrument or concurrent instruments (i) in writing delivered to the Trustee, and signed by the Issuer, unless there exists any Event of Default, or (ii) in writing delivered to the Trustee and the Issuer, and signed by the Registered Owners of a majority in aggregate Principal amount of Bonds then Outstanding if an Event of Default exists; provided that such instrument or instruments concurrently appoint a successor Trustee meeting the qualifications set forth in the Indenture.

#### Appointment of Successor Trustee; Temporary Trustee

In case the Trustee under the Indenture shall resign or be removed, or be dissolved, or shall be in course of dissolution or liquidation, or otherwise become incapable of acting under the Indenture, or in case it shall be taken under the control of any public officer or officers, or of a receiver appointed by a court, a successor may be appointed by the Issuer (or, if an Event of Default exists, by the Registered Owners of a majority in aggregate principal amount of Bonds then Outstanding, by an instrument or concurrent instruments in writing signed by such Owners, or by their attorneys in fact, duly authorized; provided, nevertheless, that in case of such vacancy the Issuer by an instrument executed by an Authorized Representative under its seal, may appoint a temporary Trustee to fill such vacancy until a successor Trustee shall be appointed by the Registered Owners in the manner above provided; and any such temporary Trustee so appointed by the Issuer shall immediately and without further act be superseded by the Trustee so appointed by such Registered Owners). Every successor Trustee appointed pursuant to the provisions of this Section or otherwise shall be a trust company or bank in good standing having a reported capital and surplus of not less than \$50,000,000.

#### Annual Accounting

The Trustee shall prepare an annual accounting for each Bond Fund Year by the end of the month following each such Bond Fund Year showing in reasonable detail all financial transactions relating to the funds and accounts held by the Trustee under the Indenture during the accounting period and the balance in any funds or accounts created by the Indenture as of the beginning and close of such accounting period, and shall mail the same to the Issuer, and to each Reserve Instrument Provider requesting the same. The Trustee shall also make available for inspection by any Registered Owner a copy of said annual accounting (with the names and addresses of Registered Owners receiving payment of debt service on the Bonds deleted therefrom) and shall mail the same if requested in writing to do so by Registered Owners of at least 25% in aggregate principal amount of Bonds then Outstanding to the designee of said Owners specified in said written request at the address designated in the Indenture. On or before the end of the month following each Bond Fund Year, the Trustee shall, upon written request, provide to the Issuer and the Issuer's independent auditor representations as to the accuracy of the facts contained in the financial reports concerning the transactions described in the Indenture that were delivered by the Trustee during the Bond Fund Year just ended.

#### Trustee's Right to Own and Deal in Bonds

The bank or trust company acting as Trustee under the Indenture, and its directors, officers, employees or agents, may in good faith buy, sell, own, hold and deal in any of the Bonds issued under and secured by the Indenture, and may join in any action which any Bondholder may be entitled to take with like effect as if such bank or trust company were not the Trustee under the Indenture.

#### **Supplemental Indentures**

##### Supplemental Indentures Not Requiring Consent of Registered Owners, Security Instrument Issuers and Reserve Instrument Providers

The Issuer and the Trustee may, without the consent of, or notice to, any of the Registered Owners, Reserve Instrument Providers or Security Instrument Issuers, enter into an indenture or indentures supplemental to the Indenture, as shall not be inconsistent with the terms and provisions of the Indenture, for any one or more of the following purposes:

- (a) To provide for the issuance of Additional Bonds in accordance with the provisions of the Indenture;
- (b) To cure any ambiguity or formal defect or omission in the Indenture;
- (c) To grant to or confer upon the Trustee for the benefit of the Registered Owners, any Security Instrument Issuers and any Reserve Instrument Providers any additional rights, remedies, powers or authority that

may lawfully be granted to or conferred upon the Registered Owners or any of them which shall not adversely affect the interests of any Reserve Instrument Providers or Security Instrument Issuers without its consent;

(d) To subject to the Indenture additional Revenues or other revenues, properties, collateral or security;

(e) To provide for the issuance of the Bonds pursuant to a book-entry system or as uncertificated registered public obligations pursuant to the provisions of the Registered Public Obligations Act, Title 15, Chapter 7 of the Utah Code, or any successor provisions of law;

(f) To make any change which shall not materially adversely affect the rights or interests of the Owners of any Outstanding Bonds, any Security Instrument Issuers or any Reserve Instrument Provider, requested or approved by a Rating Agency in order to obtain or maintain any rating on the Bonds or requested or approved by a Security Instrument Issuer or Reserve Instrument Provider in order to insure or provide other security for any Bonds;

(g) To make any change necessary (A) to establish or maintain the exclusion from gross income for federal income tax purposes of interest on any Series of Bonds as a result of any modifications or amendments to Section 148 of the Code or interpretations by the Internal Revenue Service of Section 148 of the Code or of regulations proposed or promulgated thereunder, or (B) to comply with the provisions of Section 148(f) of the Code, including provisions for the payment of all or a portion of the investment earnings of any of the Funds established under the Indenture to the United States of America;

(h) If the Bonds affected by any change are rated by a Rating Agency, to make any change which does not result in a reduction of the rating applicable to any of the Bonds so affected, provided that if any of the Bonds so affected are secured by a Security Instrument, such change must be approved in writing by the related Security Instrument Issuer;

(i) If the Bonds affected by any change are secured by a Security Instrument, to make any additional change approved in writing by the related Security Instrument Issuer, provided that if any of the Bonds so affected are rated by a Rating Agency, such change shall not result in a reduction of the rating applicable to any of the Bonds so affected;

(j) Unless otherwise provided by a Supplemental Indenture authorizing a Series of Bonds, the designation of the facilities to constitute a Project by such Supplemental Indenture may be modified or amended if the Issuer delivers to the Trustee (i) a Supplemental Indenture designating the facilities to comprise the Project, (ii) an opinion of Bond Counsel to the effect that such amendment will not adversely affect the tax-exempt status (if applicable) or validity of the Bonds and (iii) a certificate of the Issuer to the effect that such amendment will not adversely affect the Issuer's ability to comply with the provisions of the Indenture; and

(k) To correct any references contained in the Indenture to provisions of the Act, the Code or other applicable provisions of law that have been amended so that the references in the Indenture are correct.

Supplemental Indentures Requiring Consent of Registered Owners and Reserve Instrument Providers; Waivers and Consents by Registered Owners

Exclusive of Supplemental Indentures covered above and subject to the terms and provisions contained in this Section, and not otherwise, the Registered Owners of 66 2/3% in aggregate Principal amount of the Bonds then Outstanding shall have the right, from time to time, anything contained in the Indenture to the contrary notwithstanding, to (i) consent to and approve the execution by the Issuer and the Trustee of such other indenture or indentures supplemental to the Indenture as shall be deemed necessary and desirable by the Issuer for the purpose of modifying, altering, amending, adding to or rescinding, in any particular, any of the terms or provisions contained in the Indenture or in any Supplemental Indenture, or (ii) waive or consent to the taking by the Issuer of any action prohibited, or the omission by the Issuer of the taking of any action required, by any of the provisions of the Indenture or of any indenture supplemental to the Indenture; provided, however, that nothing in this section

contained shall permit or be construed as permitting (a) an extension of the date that a Principal Installment is due at maturity or mandatory redemption or reduction in the principal amount of, or reduction in the rate of or extension of the time of paying of interest on, or reduction of any premium payable on the redemption of, any Bond, without the consent of the Registered Owner of such Bond, or (b) a reduction in the amount or extension of the time of any payment required by any Fund established under the Indenture applicable to any Bonds without the consent of the Registered Owners of all the Bonds which would be affected by the action to be taken, or (c) a reduction in the aforesaid aggregate principal amount of Bonds, the Registered Owners of which are required to consent to any such waiver or Supplemental Indenture, or (d) affect the rights of the Registered Owners of less than all Bonds then outstanding, without the consent of the Registered Owners of all the Bonds at the time Outstanding which would be affected by the action to be taken. In addition, no supplement to the Indenture shall modify the rights, duties, or immunities of the Trustee, without the written consent of the Trustee. If a Security Instrument or a Reserve Instrument is in effect with respect to any Series of Bonds Outstanding and if a proposed modification or amendment would affect such Series of Bonds, then, except as provided in the immediately preceding paragraph, neither the Indenture nor any Supplemental Indenture with respect to such Series of Bonds shall be modified or amended at any time without the prior written consent of the related Security Instrument Issuer or Reserve Instrument Provider, as applicable.

### **Discharge Of Indenture**

If the Issuer shall pay or cause to be paid, or there shall be otherwise paid or provision for payment made, to or for the Registered Owners of the Bonds, the principal of and interest due or to become due thereon at the times and in the manner stipulated in the Indenture, and shall pay or cause to be paid to the Trustee all sums of moneys due or to become due according to the provisions of the Indenture, and to all Security Instrument Issuers and all Reserve Instrument Providers all sums of money due or to become due according to the provisions of any Security Instrument Agreements, Reserve Instrument Agreements, as applicable, then these presents and the estate and rights hereby granted shall cease, terminate and be void, whereupon the Trustee shall cancel and discharge the lien of the Indenture, and release, assign and deliver unto the Issuer any and all the estate, right, title and interest in and to any and all rights assigned or pledged to the Trustee, held by the Trustee, or otherwise subject to the lien of the Indenture, except moneys or securities held by the Trustee for the payment of the principal of and interest on the Bonds, the payment of amounts pursuant to any Security Instrument Agreements or the payment of amounts pursuant to any Reserve Instrument Agreements.

Any Bond shall be deemed to be paid within the meaning of the Indenture when payment of the principal of such Bond, plus interest thereon to the due date thereof (whether such due date be by reason of maturity or upon redemption as provided in the Indenture, or otherwise), either (a) shall have been made or caused to have been made in accordance with the terms thereof, or (b) shall have been provided by irrevocably depositing with or for the benefit of the Trustee, in trust and irrevocably setting aside exclusively for such payment, (i) moneys sufficient to make such payment, or (ii) Direct Obligations, maturing as to principal and interest in such amount and at such times as will insure the availability of sufficient moneys to make such payment, and all necessary and proper fees, compensation and expenses of the Trustee and any paying agent pertaining to the Bond with respect to which such deposit is made shall have been paid or the payment thereof provided for to the satisfaction of the Trustee. At such times as a Bond shall be deemed to be paid under the Indenture, as aforesaid, it shall no longer be secured by or entitled to the benefits of the Indenture, except for the purposes of any such payment from such moneys or Direct Obligations.

Notwithstanding the foregoing, in the case of Bonds, which by their terms may be redeemed prior to their stated maturity, no deposit under the immediately preceding paragraph shall be deemed a payment of such Bonds as aforesaid until the Issuer shall have given the Trustee, in form satisfactory to the Trustee, irrevocable instructions:

- (a) stating the date when the principal of each such Bond is to be paid, whether at maturity or on a redemption date (which shall be any redemption date permitted by the Indenture);
- (b) directing the Trustee to call for redemption pursuant to the Indenture any Bonds to be redeemed prior to maturity pursuant to the provisions of the Indenture; and

(c) if the Bonds to be redeemed will not be redeemed within 90 days of such deposit, directing the Trustee to mail, as soon as practicable, in the manner prescribed by the Indenture, a notice to the Registered Owners of such Bonds and to each related Security Instrument Issuer that the deposit required by the Indenture has been made with the Trustee and that such Bonds are deemed to have been paid in accordance with the Indenture and stating the maturity or redemption date upon which moneys are to be available for the payment of the principal or redemption price, if applicable, on said Bonds as specified in subparagraph (a) above.

Any moneys so deposited with the Trustee as provided in the Indenture may at the direction of the Issuer also be invested and reinvested in Direct Obligations, maturing in the amounts and times as set forth above, and all income from all Direct Obligations in the hands of the Trustee pursuant to the Indenture which is not required for the payment of the Bonds and interest thereon with respect to which such moneys shall have been so deposited, shall be deposited in the Bond Fund as and when realized and collected for use and application as are other moneys deposited in that fund; provided, however, that before any excess moneys shall be deposited in the Bond Fund, the Trustee shall first obtain a written verification from a certified public accountant that the moneys remaining on deposit with the Trustee and invested in Direct Obligations after such transfer to the Bond Fund shall be sufficient in amount to pay principal and interest on the Bonds when due and payable.

No such deposit under the Indenture shall be made or accepted under the Indenture and no use made of any such deposit unless the Trustee shall have received an opinion of nationally recognized municipal bond counsel to the effect that such deposit and use would not cause any tax-exempt Bonds to be treated as arbitrage bonds within the meaning of Sections 148 of the Code.

Notwithstanding any provision of the Indenture which may be contrary to the provisions relating to discharge of the Indenture, all moneys or Direct Obligations set aside and held in trust pursuant to the provisions of the Indenture for the payment of Bonds (including interest thereon) shall be applied to and used solely for the payment of the particular Bonds (including interest thereon) with respect to which such moneys or Direct Obligations have been so set aside in trust.

Anything in the Indenture relating to events of default and remedies to the contrary notwithstanding, if moneys or Direct Obligations have been deposited or set aside with the Trustee pursuant to the Indenture for the payment of Bonds and such Bonds shall not have in fact been actually paid in full, no amendment to the provisions of the Indenture shall be made without the consent of the Registered Owner of each Bond affected thereby.

## APPENDIX D

### FORM OF OPINION OF BOND COUNSEL

Upon the issuance of the Series 2011 Bonds, Ballard Spahr LLP, Bond Counsel to the City, proposes to issue its approving opinion in substantially the following form:

We have acted as bond counsel for Eagle Mountain City, Utah (the "Issuer") in connection with the issuance by the Issuer of its \$11,085,000 Gas and Electric Revenue Bonds, Series 2011 (the "Series 2011 Bonds"). The Series 2011 Bonds are being issued pursuant to (i) the Local Government Bonding Act, Title 11, Chapter 14, Utah Code Annotated 1953, as amended; (ii) resolutions of the Issuer adopted May 3, 2011 and August 2, 2011 (together, the "Resolution"); and (iii) a General Indenture of Trust dated as of September 1, 2005, as heretofore amended and supplemented (the "General Indenture"), and as further supplemented by a Second Supplemental Indenture of Trust dated as of August 1, 2011 (the "Second Supplemental Indenture" and together with the General Indenture, the "Indenture") between the Issuer and U.S. Bank National Association, as trustee. The Series 2011 Bonds are being issued to (i) finance the costs of improvements to the Issuer's gas and electric system, (ii) acquire a reserve fund surety for deposit to a debt service reserve fund, and (iii) pay costs of issuance of the Series 2011 Bonds.

Our services as bond counsel have been limited to the preparation of the legal proceedings and supporting certificates authorizing the issuance of the Series 2011 Bonds under the applicable laws of the State of Utah and to a review of the transcript of such proceedings and certificates. As to questions of fact material to our opinion, we have relied upon certified proceedings and other certifications of public officials furnished to us without undertaking to verify the same by independent investigation. Our examination has been limited to the foregoing as they exist or are in effect as of the date hereof. Our opinion is limited to the matters expressly set forth herein, and we express no opinion concerning any other matters.

Based on our examination and the foregoing, we are of the opinion as of the date hereof and under existing law, as follows:

1. The Issuer is a political subdivision and body politic of the State of Utah created and validly existing under the laws of the State of Utah.
2. The Indenture has been authorized, executed and delivered by the Issuer and constitutes a valid and binding obligation of the Issuer enforceable upon the Issuer.
3. The Indenture creates a valid lien on the Net Revenues (as defined in the Indenture) and other amounts pledged for the security of the Series 2011 Bonds.
4. The Series 2011 Bonds are valid and binding special obligations of the Issuer payable solely from the Net Revenues and other amounts pledged therefor in the Indenture, and the Series 2011 Bonds do not constitute a general obligation indebtedness of the Issuer within the meaning of any State of Utah constitutional provision or statutory limitation, or a charge against the general credit or taxing power of the Issuer.
5. Interest on the Series 2011 Bonds is excludable from gross income for purposes of federal income tax under existing laws as enacted and construed on the date of initial delivery of the Series 2011 Bonds, assuming the accuracy of the certifications of the Issuer and continuing compliance by the Issuer with the requirements of the Internal Revenue Code of 1986 (the "Code"). Interest on the Series 2011 Bonds is not an item of tax preference for purposes of either individual or corporate federal alternative minimum tax ("AMT"); however, interest on Series 2011 Bonds held by a corporation (other than an S corporation, regulated investment company, or real estate investment trust) may be indirectly subject to federal AMT because of its inclusion in the adjusted current earnings of a corporate holder.
6. Interest on the Series 2011 Bonds is exempt from State of Utah individual income taxes.

In rendering our opinion, we wish to advise you that:

(a) The rights of the holders of the Series 2011 Bonds and the enforceability thereof and of the documents identified in this opinion may be subject to bankruptcy, insolvency, reorganization, arrangement, fraudulent conveyance, moratorium and other laws relating to or affecting creditors' rights heretofore or hereafter enacted to the extent constitutionally applicable, and their enforcement may also be subject to the application of equitable principles and the exercise of judicial discretion in appropriate cases;

(b) We express no opinion herein as to the accuracy, adequacy, or completeness of the Official Statement or any other offering material relating to the Series 2011 Bonds; and

(c) Except as set forth above, we express no opinion regarding any other tax consequences relating to the ownership or disposition of, or the accrual or receipt of interest on, the Series 2011 Bonds.

Respectfully submitted,

## APPENDIX E

## APPENDIX F

### PROVISIONS REGARDING BOOK-ENTRY ONLY SYSTEM

DTC will act as securities depository for the Series 2011 Bonds. The Series 2011 Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Bond certificate will be issued for each maturity of the Series 2011 Bonds, each in the aggregate principal amount of such maturity, and will be deposited with DTC or its agent.

DTC and its Participants. DTC, the world's largest depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is a wholly owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has Standard & Poor's rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at [www.dtcc.com](http://www.dtcc.com).

Purchases of Series 2011 Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Series 2011 Bonds on DTC's records. The ownership interest of each actual purchaser of each Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Series 2011 Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Series 2011 Bonds, except in the event that use of the book-entry system for the Series 2011 Bonds is discontinued.

To facilitate subsequent transfers, all Series 2011 Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Series 2011 Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Series 2011 Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Series 2011 Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Series 2011 Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Series 2011 Bonds, such as redemptions, tenders, defaults, and proposed amendments to the Bond documents. For example, Beneficial Owners of Series 2011 Bonds may wish to

ascertain that the nominee holding the Series 2011 Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners.

Redemption notices shall be sent to DTC. If less than all of the Series 2011 Bonds within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Series 2011 Bonds unless authorized by a Direct Participant in accordance with DTC's Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts Series 2011 Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds, distributions, and dividend payments on the Series 2011 Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the Issuer or the Paying Agent, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Paying Agent, or the Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and interest payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the Issuer or the Paying Agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Series 2011 Bonds at any time by giving reasonable notice to the Issuer or the Paying Agent. Under such circumstances, in the event that a successor depository is not obtained, Bond certificates are required to be printed and delivered.

The City may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Bond certificates will be printed and delivered to DTC.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the City believes to be reliable, but the City takes no responsibility for the accuracy thereof.

On the later of the day on which such principal and interest becomes Due for Payment or the Business Day next following the Business Day on which AGM shall have received Notice of Nonpayment, AGM will disburse to or for the benefit of each Owner of a Bond the face amount of principal of and interest on the Bond that is then Due for Payment but is then unpaid by reason of Nonpayment by the Issuer, but only upon receipt by AGM, in a form reasonably satisfactory to it, of (a) evidence of the Owner's right to receive payment of the principal or interest then Due for Payment and (b) evidence, including any appropriate instruments of assignment, that all of the Owner's rights with respect to payment of such principal or interest that is Due for Payment shall thereupon vest in AGM. A Notice of Nonpayment will be deemed received on a given Business Day if it is received prior to 1:00 p.m. (New York time) on such Business Day; otherwise, it will be deemed received on the next Business Day. If any Notice of Nonpayment received by AGM is incomplete, it shall be deemed not to have been received by AGM for purposes of the preceding sentence and AGM shall promptly so advise the Trustee, Paying Agent or Owner, as appropriate, who may submit an amended Notice of Nonpayment. Upon disbursement in respect of a Bond, AGM shall become the owner of the Bond, any appurtenant coupon to the Bond or right to receipt of payment of principal of or interest on the Bond and shall be fully subrogated to the rights of the Owner, including the Owner's right to receive payments under the Bond, to the extent of any payment by AGM hereunder. Payment by AGM to the Trustee or Paying Agent for the benefit of the Owners shall, to the extent thereof, discharge the obligation of AGM under this Policy.

Except to the extent expressly modified by an endorsement hereto, the following terms shall have the meanings specified for all purposes of this Policy. "Business Day" means any day other than (a) a Saturday or Sunday or (b) a day on which banking institutions in the State of New York or the Insurer's Fiscal Agent are authorized or required by law or executive order to remain closed. "Due for Payment" means (a) when referring to the principal of a Bond, payable on the stated maturity date thereof or the date on which the same shall have been duly called for mandatory sinking fund redemption and does not refer to any earlier date on which payment is due by reason of call for redemption (other than by mandatory sinking fund redemption), acceleration or other advancement of maturity unless AGM shall elect, in its sole discretion, to pay such principal due upon such acceleration together with any accrued interest to the date of acceleration and (b) when referring to interest on a Bond, payable on the stated date for payment of interest. "Nonpayment" means, in respect of a Bond, the failure of the Issuer to have provided sufficient funds to the Trustee or, if there is no Trustee, to the Paying Agent for payment in full of all principal and interest that is Due for Payment on such Bond. "Nonpayment" shall also include, in respect of a Bond, any payment of principal or interest that is Due for Payment made to an Owner by or on behalf of the Issuer which has been recovered from such Owner pursuant to the

"Owner" means, in respect of a Bond, the person or entity who, at the time of Nonpayment, is entitled under the terms of such Bond to payment thereof, except that "Owner" shall not include the Issuer or any person or entity whose direct or indirect obligation constitutes the underlying security for the Bonds.

AGM may appoint a fiscal agent (the "Insurer's Fiscal Agent") for purposes of this Policy by giving written notice to the Trustee and the Paying Agent specifying the name and notice address of the Insurer's Fiscal Agent. From and after the date of receipt of such notice by the Trustee and the Paying Agent, (a) copies of all notices required to be delivered to AGM pursuant to this Policy shall be simultaneously delivered to the Insurer's Fiscal Agent and to AGM and shall not be deemed received until received by both and (b) all payments required to be made by AGM under this Policy may be made directly by AGM or by the Insurer's Fiscal Agent on behalf of AGM. The Insurer's Fiscal Agent is the agent of AGM only and the Insurer's Fiscal Agent shall in no event be liable to any Owner for any act of the Insurer's Fiscal Agent or any failure of AGM to deposit or cause to be deposited sufficient funds to make payments due under this Policy.

To the fullest extent permitted by applicable law, AGM agrees not to assert and hereby waives, only for the benefit of each Owner, all rights (whether by counterclaim, setoff or otherwise) and defenses (including, without limitation, the defense of fraud, whether acquired by subrogation, assignment or otherwise, to the extent that such rights and defenses may be available to AGM to avoid payment of its obligations under this Policy in accordance with the express provisions of this Policy.

## ARTICLE II

### REPRESENTATIONS, WARRANTIES AND

### AGREEMENTS OF ISSUER

By its acceptance hereof, the Issuer represents and warrants to and covenants with the Underwriter that:

Section 2.1 The Issuer shall provide such information, access to its properties and appropriate records and other cooperation, as may be reasonably requested until 25 days after the "end of the underwriting period" (as defined in Rule 15c2-12) (which underwriting period the Issuer may assume to have ended on the Closing Date unless notified to the contrary by the Underwriter) as, in the opinion of the Underwriter, may be required in connection with the offering of the Series 2011 Bonds.

Section 2.2 The Issuer is a political subdivision and body politic duly organized and existing under the laws of the State of Utah with full power and authority to consummate the transactions contemplated by this Purchase Agreement, the Indenture, and the Official Statement, including the execution, delivery and/or approval of all documents and agreements referred to herein or therein.

Section 2.3 The Issuer has duly adopted and approved the Resolution in accordance with all requirements of Utah law and procedural rules of those respective bodies, and the Resolution is in full force and effect on the date hereof.

Section 2.4 The adoption of the Resolution and the execution and delivery of the Continuing Disclosure Agreement, the Indenture, and this Purchase Agreement, compliance by the Issuer with the provisions of any or all of the foregoing documents and the application of the proceeds of the Series 2011 Bonds for the purposes described in the Preliminary Official Statement do not and will not conflict with or result in the breach of any of the terms, conditions or provisions of, or constitute a default under, any existing law, court or administrative regulation, decree or order, agreement, indenture, mortgage, lease or instrument to which the Issuer is a party or by which the Issuer or any of its property is or may be bound.

Section 2.5 The Issuer has duly authorized all necessary action to be taken by it for the adoption of the Resolution; the issuance and sale of the Series 2011 Bonds by the Issuer upon the terms and conditions set forth herein, in the Official Statement and in the Indenture; and the execution, delivery and receipt of this Purchase Agreement, the Indenture and the Continuing Disclosure Agreement, and any and all such agreements, certificates and documents as may be required to be executed, delivered and received by the Issuer in order to carry out, effectuate and consummate the transactions contemplated hereby and by the Official Statement, including but not limited to such certifications as may be necessary to establish and preserve the exclusion from gross income for federal income tax purposes of interest on the Series 2011 Bonds.

Section 2.6 Except as described in the Official Statement, there is no action, suit, proceeding, inquiry or investigation at law or in equity or before or by any court or administrative body pending or, to the best of the Issuer's knowledge, threatened against the Issuer, or to the knowledge of the Issuer, any meritorious basis therefor, wherein an unfavorable decision, ruling or finding would have a material adverse effect on the operation of the System, the Revenues of the System, the financial condition of the Issuer or the transactions contemplated by this Purchase Agreement and the Preliminary Official Statement, or would have an adverse effect on the validity or enforceability of the Series 2011 Bonds, the Resolution, the Indenture, or the Continuing Disclosure Agreement, or which would in any way adversely affect the existence or any power of the Issuer or the titles of its officers to their respective positions or which would in any way adversely affect the excludability from gross income for federal income tax purposes of interest on the Series 2011 Bonds.

Section 2.7 When delivered to and paid by the Underwriter at the Closing in accordance with the provisions of this Purchase Agreement, the Series 2011 Bonds will have been duly authorized, executed, issued and delivered and will constitute valid and binding special limited obligations of the Issuer in conformity with, and entitled to the benefit and security of the Indenture.

Section 2.8 The Issuer is not in breach of or in default under any existing law, court or administrative regulation, decree or order, ordinance, resolution, agreement,

indenture, mortgage, lease, sublease or other instrument to which the Issuer is a party or by which the Issuer or its property is bound; and the execution and delivery of the Series 2011 Bonds, the Continuing Disclosure Agreement, the Indenture, and this Purchase Agreement, and compliance with the provisions thereof, will not conflict with or constitute a breach or a default under any law, administrative regulation, judgment, decree, loan agreement, mortgage, indenture, deed of trust, note, resolution, agreement or other instrument to which the Issuer or its property is or may be bound.

Section 2.9 No event has occurred or is continuing which, with the passage of time or the giving of notice, or both, would constitute a default or an event of default under the Indenture, the Continuing Disclosure Agreement or this Purchase Agreement, or which could have a material adverse effect on the financial condition of the Issuer, the operation of the System, the Revenues of the System or the transactions contemplated by this Purchase Agreement and the Preliminary Official Statement, or have an adverse effect on the validity or enforceability in accordance with their respective terms of the Series 2011 Bonds, the Resolution, the Indenture or the Continuing Disclosure Agreement or in any way adversely affect the existence or any powers of the Issuer or the titles of its officers to their respective positions or the excludability from gross income for federal income tax purposes of interest on the Series 2011 Bonds.

Section 2.10 The information contained in the Preliminary Official Statement was, as of its date, and will be, as of the Closing Date, true and correct in all material respects. The Preliminary Official Statement does not contain, and the Official Statement, as of its date and as of the Closing Date, will not contain any untrue statement of a material fact, and the Preliminary Official Statement does not omit and the Official Statement, as of its date and as of the Closing Date, will not omit to state a material fact required to be stated therein or necessary to make the statements made therein, in the light of the circumstances under which they were made, not misleading; provided, however, that this representation and warranty shall not be deemed to cover or apply to (a) information provided to the Issuer in writing by the Issuer's financial advisor and included on the cover page or inside front cover page of the Preliminary Official Statement or the Official Statement regarding the principal amount, interest rates, maturities and initial public offering prices of the Series 2011 Bonds or (b) statements in the Preliminary Official Statement or the Official Statement relating to DTC, its book-entry system, the Insurer, the Policy or the Reserve Surety.

Section 2.11 The Issuer has full power and authority to own and operate the System and to establish and collect the rates for the services provided by the System.

Section 2.12 The Issuer will not take or omit to take any action which will in any way cause the proceeds from the sale of the Series 2011 Bonds to be applied or result in such proceeds being applied in a manner other than as provided in the Indenture.

Section 2.13 The Issuer hereby authorizes the use of the Official Statement, including all amendments and supplements thereto, by the Underwriter in connection with the public offering and sale of the Series 2011 Bonds and consents to the use by the

Underwriter prior to the date hereof of the Preliminary Official Statement in connection with the public offering and sale of the Series 2011 Bonds.

Section 2.14 The Issuer agrees to reasonably cooperate with the Underwriter in any endeavor to qualify the Series 2011 Bonds for offering and sale under the securities or "Blue Sky" laws of such jurisdictions of the United States as the Underwriter may request; provided, however, that the Issuer shall not be required with respect to the offer or sale of the Series 2011 Bonds to file written consent to suit or to file written consent to service of process in any jurisdiction. The Issuer hereby consents to the use of the Official Statement by the Underwriter in obtaining such qualification.

Section 2.15 If between the date of this Purchase Agreement and 25 days following the "end of the underwriting period," any event shall occur which might or would cause the Official Statement to contain any untrue statement of a material fact or to omit to state any material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstance under which they were made, not misleading, the Issuer shall notify the Underwriter and if, in the opinion of the Underwriter such event requires the preparation and publication of a supplement or amendment to the Official Statement, the Issuer will supplement or amend the Official Statement in a form and in a manner approved by the Underwriter. If the Official Statement is so supplemented or amended prior to the Closing, such approval by the Underwriter of a supplement or amendment to the Official Statement shall not preclude the Underwriter from thereafter terminating this Purchase Agreement, and if the Official Statement is amended or supplemented subsequent to the date hereof and prior to the Closing, the Underwriter may terminate this Purchase Agreement by notification to the Issuer at any time prior to the Closing if, in the reasonable judgment of the Underwriter, such amendment or supplement has or will have a material adverse affect on the marketability of the Series 2011 Bonds.

Section 2.16 When executed by the respective parties thereto, this Purchase Agreement, the Indenture and the Continuing Disclosure Agreement will constitute legal, valid and binding obligations of the Issuer enforceable in accordance with their respective terms.

Section 2.17 The Issuer has complied, and will at the Closing be in compliance in all respects, with the obligations on its part contained in the Continuing Disclosure Agreement, this Purchase Agreement, the Indenture, and any and all other agreements relating thereto.

Section 2.18 Each representation, warranty or agreement stated in any certificate signed by any officer of the Issuer and delivered to the Underwriter at or before the Closing shall constitute a representation, warranty, or agreement by the Issuer upon which the Underwriter shall be entitled to rely.

Section 2.19 The Issuer has obtained or will obtain all necessary licenses, permits, consents and approvals of any kind of any governmental body in order to operate the System.

Section 2.20 The Issuer has obtained or will obtain all necessary title, rights of way and easements in order to operate the System.

Section 2.21 Other than the Outstanding Parity Bonds, which enjoy a lien on the Net Revenues on a parity with the Series 2011 Bonds, the Issuer has not otherwise pledged or assigned the Net Revenues and the Series 2011 Bonds enjoy a first lien and pledge on the Net Revenues.

Section 2.22 The use of the System complies with, all applicable federal, State of Utah and local laws or ordinances (including rules and regulations) relating to zoning, building, safety, wetlands preservation and environmental quality.

Section 2.23 The Issuer has duly authorized and approved the issuance of the Series 2011 Bonds, the execution and delivery of the Indenture and this Purchase Agreement.

Section 2.24 The Issuer is in compliance with each undertaking it has entered into pursuant to Rule 15c2-12 of the Securities Exchange Commission.

(i) At the time of Closing, (1) the Official Statement, the Indenture, the Resolution, the Continuing Disclosure Agreement and this Purchase Agreement shall be in full force and effect and shall not have been revoked, rescinded, repealed, amended, modified or supplemented, except as therein permitted or as may have been agreed to in writing by the Underwriter, and (2) the Issuer shall have duly adopted and there shall be in full force and effect such resolutions and ordinances as, in the opinion of Ballard Spahr LLP, bond counsel to the Issuer ("Bond Counsel"), shall be necessary in connection with the transactions contemplated hereby.

(ii) The Underwriter may terminate its obligations hereunder by written notice to the Issuer if, at any time subsequent to the date hereof and on or prior to the Closing Date:

(A) Legislation shall have been enacted by the Congress, introduced in the Congress, or recommended to the Congress for passage by the President of the United States or the United States Department of the Treasury or the Internal Revenue Service or any member of the United States Congress, or favorably

(B) Legislation shall be enacted or any action shall be taken by the Securities and Exchange Commission which, in the opinion of the Underwriter, has the effect of requiring the offer or sale of the Series 2011 Bonds to be registered under the Securities Act of 1933, as amended, or any other "security," as defined in the Securities Act of 1933, as amended, issued in connection with or as part of the issuance of the Series 2011 Bonds to be so registered or the Indenture to be qualified as an indenture under the Trust Indenture Act of 1939, as amended; or any event shall have occurred or shall exist which, in the reasonable judgment of the Underwriter, makes or has made untrue or incorrect in any respect any statement or information contained in the Official Statement or is not or was not reflected in the Official Statement but should be or should have been reflected therein in order to make the statements or information contained therein not misleading in any material respect; or

(D) Any financial rating assigned to the Series 2011 Bonds, the Issuer, or the Insurer by Standard & Poor's, a division of The McGraw-Hill Companies, Inc. ("S&P"), Fitch Ratings ("Fitch"), or Moody's Investors Service, Inc. ("Moody's"), as the case may be, shall have been downgraded, withdrawn, or any other action taken, and such action, in the opinion of the Underwriter, has a material adverse effect on the marketability of the Series 2011 Bonds; or

(E) Any litigation shall be instituted, pending or threatened (A) to restrain or enjoin the issuance, sale or delivery of the Series 2011 Bonds, (B) to restrain or enjoin the operation of the System, (C) in any way contesting or affecting any authority for or the validity of the Series 2011 Bonds, any of the proceedings of the Issuer or the Trustee taken with respect to the issuance or sale thereof, the pledge, appropriation or application of any moneys or securities provided for the payment of the Series 2011 Bonds or (D) in any way contesting or affecting the existence or powers of the Issuer or the Trustee or the titles of their officers to their respective offices; or

(F) Any other event or circumstances shall have occurred which shall be beyond the reasonable control of the Underwriter and, in the opinion of the Underwriter, might in any way have a material adverse effect on the marketability of the Series 2011 Bonds.
